38 STILL SEIZED

Charleston, W. Va., Aug. 5.—Thirty-eight moonshine stills were seized by prohibition officers in West Virginia during July, according to the report of Commissioner W. S. Holland, made public yesterday. This is said to be the largest number of stills confiscated in the state within a similar period of time. The seizures were made in eighteen counties.

Nearly 500 quarts of whiskey, mostly moonshine, were confiscated according to the report, in addition to more than 2,000 gallons of brands of liquor known locally as "Pick Handle" and "Old Hen" and 2,700 gallons of mash.

Seventy-eight arrests were made by the agents during the month, the report stated.

FAMINE THREATENS EVACUATED REGION

Berlin, Aug. 7.—Refugees reaching the frontier of East Prussia from Pinsk are reporting an acute shortage in territories evacuated by the Poles. The retreating armies are said to have taken all the grain and food they could find. Although crops in Volhynia are far below the average, grain is being requisitioned by the advancing soviet armies, and it is feared that famine in Western Russia will force large numbers of the people to flee into Germany.

Although other animals decreased in numbers in Germany during the war, there are ten per cent. more goats than there were in 1914.
