MANY FARMERS ASK FOR LOANS

Federal Land Bank Files Applications—From Four States

Applications for farm loans for more than \$27,000,000 have been filed with the federal land bank in this city since the bank resumed operations after a period of partial inactivity during which the constitutionality of certain sections of the law having to do with the bank were being tested in the United States supreme court.

These applications come from four states, as follows: North Carolina, South Carolina, Georgia and Florida. The bank began receiving loans March 15, 1921, and since that time the loans have been coming in rapidly. At the present time the bank has a force of 16 appraisers in the field and also a force of five men under training. Approximately 75 new loan associations are being formed in the four states, though none of them have yet been completely organized. The prospects for a busy year are good, according to H. C. Arnold, secretary of the institution.

Applications have been received as follows South Carolina farmers have filed applications to the number of 2,267 for a total amount of \$9,085,288; North Carolina farmers have filed 1,694 applications for a total of \$5,405,001; Georgia farmers have filed 3,248 applications for a total of \$11,456,362; Florida farmers have filed 521 applications for a total of \$1,114,266.

Mr. Arnold, in speaking of the bank and its work said yesterday that low prices for farm products had the effect of sending men back to the farm and that high prices for farm products tended to increase the movement of population from the country to the city.

Inflated land values, he said, do not benefit the farmer unless he sells out, as the increased value means that an increased amount in interest must be yielded to cover the increased capitalization.

Farmers are taking much interest in the operations of the bank and its forces are facing a busy year.—The State.

BUSINESS MEN TO BUILD HOMES FOR TULSA DESTITUTE

Tulsa, Okla., June 4.—Definite plans for building homes for the thousands of negroes rendered destitute by the burning of the negro quarters here in the race war of Tuesday night and Wednesday were being worked out today by a civilian committee of relief.

Business men of the city have agreed to erect as many houses as needed in the shortest time possible and only the details remain to be worked out. One plan was to clear away the debris from the area leveled by fire and erect permanent dwellings costing from \$500 to \$1,000 each. Another scheme under consideration was to form a corporation to buy up land in the northern part of the city and build a new negro colony.

The number of known dead remained at thirty today, no additional bodies having been found. The list was expected to be increased by deaths of some of the several hundred wounded.

A real estate committee set to work today to determine the extent of the property damage which has been fixed unofficially at \$1,500,000. Martial law, greatly modified, remained in effect today, but the 300 troops had little to do except aid in relief work among the negroes. It was believed they might entrain tomorrow, although Adjutant General Barrett said the military would remain in control until he was assured that the civil officials were fully prepared to handle the situation and prevent any possible recurrence of the disorders.

Hundreds of negroes wearing badges inscribed "police protection" were on the streets and downtown Tulsa took on a normal appearance.

More than 1,000 negroes, those who have not been released from guard, slept last night at the fair grounds.

The Red Cross distributed food and clothing.

Canada exported \$1,002,672,413 worth of munitions and materials during the recent war.

DR. BARUCH, WHO ONCE LIVED IN CAMDEN PASSES

Was Father of Bernard M. Baruch, Financier and Also Confederate Soldier—Also Born in Germany.

New York, June 4.—Dr. Simon Baruch, noted physician and father of Bernard M. Baruch, financier died at 1:10 p. m., from an ailment of the lungs, complicated by heart disease.

Dr. Baruch had been ill at his home here for some time. He was 81 years old. Dr. Baruch was regarded both in Europe and America as an expert on hydrotherapy, the treatment of diseases by the use and application of water internally and externally. His writings on that subject were translated into German and French. He was credited with introducing free municipal bathhouses and municipal baths in Chicago and New York were named in his honor.

He was born in Germany, where he was educated at the Royal Gymnasium of Posen. Coming to America, he received a degree from the Medical College of Virginia in 1862.

Immediately he joined the Confederate army, serving as a surgeon in the field with the forces commanded by General Robert E. Lee. Twice he was captured while caring for wounded Confederates—once in the battlefield at Gettysburg and again at South Mountain, Md.

After the Civil War, he practiced in Camden, S. C., where he remained until 1881, when he moved to New York. A hospital has been erected in his honor at Camden.

A specialist in chronic diseases, he diagnosed the first recorded case of perforating appendicitis successfully operated on. He was professor of hydrotherapy at the College of Physicians and Surgeons in this city. At one time he was president of the South Carolina Medical Association and was later chairman of the South Carolina Stat Board of Health.

ELECTION PROTESTS NOT ENCOURAGED

Washington, June 4.—The census committee of the house at its meeting just held here took an important step and one of vital interest to the entire country regarding future apportionment of the members of the house. Commenting on the action of the committee, Congressman John J. McSwain of South Carolina, a member of the committee, said:

"The census committee has in charge any legislation affecting the reapportionment of membership in the house. The action of the committee fixed a policy and course of procedure to be followed. It was decided that instead of entertaining blanket charges supported by hearing testimony, there must, first, be introduced a bill or resolution directing an investigation as to some particular election in some specific state or states, where it is claimed that male citizens have been denied the right to vote. Then testimony will be heard only from those who know the facts. It can be easily seen that such procedure will confine those who complain to the facts and to the truth of each case and will shut off reckless and unfounded charges that originate in prejudice and suspicion and are calculated to intensify feeling but can do no good."

CROWN FORCES IN IRELAND WILL BE INCREASED

London, May 31.—Mr. Lloyd George, the prime minister, announced in the House of Commons today that it was proposed to strengthen the crown forces in Ireland, and that a statement would be made to parliament on the subject when the arrangements were completed.

WADDILL GETS PLACE

Washington, June 2.—Nomination of Edmund Waddill, Jr., of Richmond district judge for the eastern Virginia district to be United States circuit judge for the Fourth circuit in place of the late Judge Jeter C. Pritchard was confirmed late today by the senate. D. Lawrence Groner of Norfolk, Va., was confirmed as successor to Judge Waddill in the eastern Virginia district.

PORTER RESOLUTION CALLED UP THURSDAY

Washington, June 4.—By a straight party vote the house foreign affairs committee reported today the Porter peace resolution providing for termination of the state of war between the United States and Germany and Austria-Hungary Democratic members of the committee opposed it and announced that their fight would be shifted to the floor of the house.

Representative Mondell of Wyoming, Republican leader, informed the house that the resolution would be called up Thursday. Backed by the full Republican strength of the committee leaders declared it would be adopted probably that day. On the proposal to report the Porter measure in place of the Knox resolution repealing the declaration of war, which has been passed by the senate, the Republican member

of the committee voted solidly in the affirmative. The Democrats merely voted "present."

Representative Flood, Virginia, ranking Democrat, was instructed by minority members to file a minority report. Democrat leaders said there would be almost a full party vote against the resolution.

Chairman Porter called upon President Harding late today at the White House but no announcement was made concerning the subjects discussed.

WILL LAUNCH VESSEL

Washington, June 4.—A delegation of distinguished citizens of South Carolina, headed by Senators Smith and Dial and including the South Carolinians in the house of representatives, will be the guests of the officials of the United States shipping board tomorrow at Sparrowpoint, where the Palmetto State

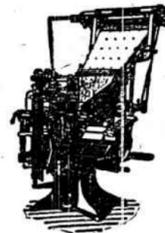

will be christened and launched.

The party will leave Washington at 9 o'clock. Following the christening the South Carolinians will be the guests of the officials of the Bethlehem Steel Company, builders of the boat at a luncheon at the Belvedere hotel.
