### THIS WAS A BIRD, WHO WAS IT?

A crowd of small children coming from school yesterday were asked for the news. One bright little girl spoke up and volunteered the information that she could tell what she saw and upon being urged to do so replied:

"I saw a lady coming down street awhile ago with a dress trimmed in blue organdy and as she walked the frills just flapped and flapped until she looked like a bird. She was too funny for anything."

### FIRST BAPTIST CHURCH

The pastor will preach a special sermon to children Sunday at 11 a. m. The subject will be: "How God Made a King." All the children are invited. Come and bring your parents.

The subject of the 7:30 p. m. sermon will be: "What Can I Do for the Church." This will be the first sermon in a series of Sunday night sermons on the general subject of "Our Duty to Our Church, Community and State." The subject for Sunday night Oct. 15th will be "What Can I Do For Abbeville." Oct. 22 the subject will be "What Can I Do for South Carolina," and Oct 29 the subject will be "What Can I Do for Our Country."

The Sunday School is planning a great revival for November. Dr. T. J. Watts and some of his co-workers will be here to lead in a "Sunday School Institute." It is the plan to interest not only the teachers and officers of the Sunday School, but the adult classes as well. More definite announcement about this Institute will be made later.

The campaign for collecting pledges on the \$75,000,000 campaign is being made now all over the state of South Carolina. If the entire membership can average a payment of \$4.00 each on this campaign between now and Dec. 1, a sufficient fund will be collected to take care of the pressing needs of our denominational work. Surely this can be done.

The prayermeeting of the church should appeal to all the members of the church. It is the aim of the pastor to make these meetings inspirational and instructive. Come and enjoy this quiet hour of spiritual uplift.

### RAISED SEVEN BALES ON 6 ACRES OF GROUND

And Used Only 300 Pounds of Fertilizer to the Acre and No Poison.

Greenwood, Oct. 5.—Seven bales of cotton on six acres, without the use of boll poison and with only 300 pounds of fertilizer per acre, is the record claimed this season by Joel Townsend, successful farmer of the Cokesbury section.

Mr. Townsend attributes the unusual yield to the fact that the cotton land has been planted in crimson clover for about four years. This season he used an early variety of cotton, planting it on May 8, and fertilized with 200 pounds of acid phosphate and 100 pounds of nitrate of soda. The tract is away from waste land and brush which harbor boll weevils and this, he believes, was also partially responsible for the freedom from weevil infestation.

Mr. Foster Cromer, a popular and highly esteemed citizen of Abbeville county died last Monday after an illness of several weeks. He was for some time manager of the furniture company at Abbeville.—Honea Path Chronicle.

### NEW HOLINESS CHURCH.

Mr. Watson Sorrow and his followers have organized a Holiness church in Abbeville and the building of a house of worship is nearing completion on South Main street. This has been accomplished by free will offerings, members and outsiders giving money, labor, lumber or anything that could be used. The work on the building is being done by the members and any one choosing to lend a hand.

For several weeks at night after the closing of the mill hammers have been ringing between the hours of 8 and 11 o'clock. Electric lights were installed so that the builders might see to work. The members of the Holiness Church are possessed of an idea and the church will grow. When moved by the Spirit they speak in the "unknown tongue" and have very interesting meetings.

Charleston Oct. 5.—A special from McClellanville tells of a thrilling escape from drowning by occupants of an automobile which ran off a ferry boat in the Santee river at Mazyck's ferry. Other occupants of the machine jumped to safety before the machine left the boat but Miss Gertrude Ward of McClellanville was carried over with the car in 40 feet of water. She managed to extricate herself and arose to the surface quickly being rescued by the ferry watchman using a small boat.

### FRUIT MOVEMENT AHEAD OF 1921

Chicago, Oct. 5.—The season's movement of fruit and vegetables is fully 45,000 cars ahead of last year, despite the car shortage reported in some shipping districts, according to today's market review of the United States bureau of agricultural economics.

A heavy and increasing general supply of produce was a striking feature of the situation during the last week in September. Potatoes, apples and grapes comprised two-thirds of the week's fruit and vegetable ship-

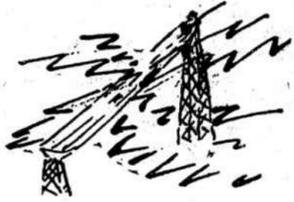

ments. Prices have held as steady as could be expected under liberal supplies.

Potatoes continued weak, declining 5 to 25 cents and peaches ranged lower in most markets, but the apples and onion markets both showed slightly stronger tones.
