EDGEFIELD C. H.

THURSDAY, JULY 15, 1841.

Charleston Election for Clerk.—Major Laval, the next highest candidate to Daniel Horlbeck, Esq., has entered a protest against the election of the latter, and a meeting of the Managers was called for Monday last the 12th inst., to decide on the validity of the protest.

The Richmond papers state that Judge Henry St. George Tucker, the President of the Court of Appeals of Virginia, has been appointed Professor of Law at the University of Virginia.

Cotton.—The Columbia Chronicle of the 7th inst., says, this article has ceased to come into market, and, as far as Columbia is concerned, the market may be considered closed, until the new crop begins to come in.

New Cotton.—We yesterday, says the Savannah Georgian of the 7th inst. examined a bale of Cotton of the new crop, in the possession of Mr. John Boston, from the plantation of Mr. James O. Goldwire, in Lowndes county, in this State. It is of a beautiful texture, resembling silk, and has a good fibre.

Mr. Goldwire writes:— "My Cotton has been blooming since the 20th of May. On the 16th inst. (June) I counted as many as 16 bolls on one stalk—the largest measuring four inches in circumference. Enclosed I send you a lock of this year's production."

The Fredericksburg Arena, says, that Semmes, who shot Professor Davis, has been bailed by the General Court, in the sum of \$25,000.

Five of the convicts (says a St. Louis paper) who recently escaped from the Penitentiary, had been taken on an Island, near the mouth of the Perique, which empties into the Mississippi. They were taken to St. Charles, and confined in the jail. There is one of the rascals still at large.

EXTRACTS

From the Minutes of the Baptist General Convention for Foreign Missions, held at Baltimore in April and May, 1841.

(Continued.) "On motion of bro. H. Lincoln, resolved unanimously, That the Convention cherish a grateful remembrance of the labors, the counsels, the prayers and the munificent contributions of our aged brother and father Jesse Mercer, one of its early and devoted friends, and for many years the President of its Board, who has now declined a reelection, and who amidst sickness and domestic affliction, and in the prospect of soon finishing his course, has manifested a father's solicitude, for our united and vigorous prosecution of the great work of commending 'the glorious Gospel of the blessed God,' to the perishing millions of the human family."

"On motion of bro. S. Peck, resolved unanimously, That the thanks of this body be delivered before the Convention on Wednesday evening, and that he be requested to furnish a copy of the same, to be placed at the disposal of the Board."

"Resolved, That this Convention entertain a grateful sense of the liberality exhibited towards the Board, by the American Tract Society, and recommend that Society to the prayers and efforts of our Churches."

"Resolved, That the next meeting of the Convention be held with the First Baptist Church of the City of Philadelphia."

"On motion of bro. Chapin, resolved unanimously, That we recommend to the Ministers of the several Churches connected with this Convention, to preach on suitable occasions, upon the importance and influence of fervent prayer, in connexion

with the great Missionary enterprise, in which we are engaged."

"On motion of bro. S. Peck, resolved, That the fervent thanks of this Convention are due to our Heavenly Father, that, throughout the deeply interesting discussions and transactions of this session, He has caused to prevail so large a measure of Christian affection and harmony."

"On motion of the Foreign Secretary of the Board, resolved, That the Convention tender to the Baptist Churches and congregations, and other friends of this city, their grateful acknowledgments for their generous hospitality and Christian courtesy, with which they have been received and entertained during their present session."

"On motion of bro. Sharp, resolved unanimously, That the thanks of this Convention be presented to the President, for the able, impartial, and courteous manner, in which he has performed the arduous duties of his station, during the present session."

WILLIAM BULLFINCH JOHNSON, President.

REFUS BARCOCK, junr. } Secretaries. JAMES B. TAYLOR. } (To be continued.)

Going where he belongs.—Little Stanley of North Carolina, said the other day, that "he would sooner go to the negroes for an ally than to the Democracy." Well he has gone to his natural allies already in joining the Abolitionists, and the Samboes have reciprocated, for it is said that a great number of signatures on the great Reel petition for a Bank from New York, are those of Mr. Stanley's natural wig brethren, the woolly heads procured at 25 cents per head.—Chas. Mercury.

Come Back.—The Western (Tenn.) Review, states that several of the gentlemen from the United States, employed by the British government to instruct the natives of India in the cultivation of cotton, have returned home. They complain of the climate and its diseases, and have no faith in the enterprise of cotton growing in that region.

For the Advertiser. Mr. DENISON:—I was sixty years old on the 20th day of last April. I have been blind in my right eye, about five years. On the 18th inst. I was operated on for a Cataract, in that eye, by Dr. Crook, of Greenville, So. Ca. The operation was somewhat painful, but by no means great. My eye is now as clear as any man's of my age, and has hurt none since the smarting subsided, which was in the course of two or three hours after the operation.

I ask you to give this a place in your paper, in order that the similarly unfortunate may know where to seek relief. As many of your readers may be unacquainted with Dr. Crook, it will not be amiss perhaps, for me to say, that he has given his undivided attention, to the practice of Physic and Surgery for the last fifteen years, and has attained his present standing in the profession, by oft repeated successes. His cures, in many other important surgical operations, have equalled those on the eyes. I have therefore no reluctance in recommending him to all my friends who need Surgical assistance.

JOHN FOOSHE, Cambridge, So. Ca. June 30th, 1841.

Health of the City.—The report of the City Sexton, for the month of June, will be found among the proceedings of Council in this morning's paper, cannot fail to impress every reader with a profound sense of gratitude to the disposer of events, for the extraordinary health that our citizens have enjoyed during that month. It is however proper to remark that there was one death during the month not contained in the Sexton's report, as the corpse was interred out of the City. Such a state of general health as this report indicates, it is believed is unparalleled in the history of any city in the Union, of the same size, at this season. This report speaks volumes for the health of our city, indeed we were ourselves agreeably surprised when we learned that there had been but ten deaths in a month, in a population of five thousand souls, and not one of them from any prevailing epidemic. Our city, at this time, as free from disease, as any of that section of the up country to which many of our citizens are wont to resort to spend the summer months.—Chronicle & Sen.

Our City.—The thriving condition of Hamburg can in no better way be illustrated, than from facts. The stock of cotton in Hamburg and Augusta, on the first of this month amounted to 7,778 bales—2,568 in Hamburg, and 5,210 in Augusta. Leaving only 2,642 bales more in Augusta than Hamburg. The majority was by thousands of bales in favor of Augusta, some few years ago.—Hamburg Journal.

Crops in Georgia.—We have noticed several publications in various parts of the country respecting our crops. So far as we have observed, and from what we have been able to learn from others, we think they are in many respects incorrect—particularly with regard to cotton. The cotton plant generally presents a reasonable prospect for a middling crop, nothing favorable for a large one. Considerable injury has been sustained by the late and cold spring, and something from lice. At this time, the plant appears to be thriving, throughout the State, and the seasons is favorable to its growth.

The corn crop generally presents a very flattering prospect. Should the season prove as favorable for it for a month to come as at present, it will be a large one. The crop of oats has been but middling in the aggregate—but in some places it is good.

Wheat, in many parts has been good—in others but moderate—but altogether is sufficient to supply the demand for domestic consumption. It has been harvested generally in good condition.

Fruits, such as apples, peaches, &c. will be plenty. If we could add that the hog crop was in as good condition as the others, Georgia would be quite independent in the provision line, for the next year. We, however, think it is on the march of improvement, and that our planters will shortly relieve us in that respect, from one of the most formidable and injurious drains that has ever existed in our specie capital.

To their neglect of duty to themselves and their State, is a great part of our present distress in money matters is chargeable.—Who among us that does not recollect the wolfish looking set of customers about our taverns at the time of the late resumption of specie payment? They were mostly hog and mule drovers from other States, and a vast amount of our specie was carried off by them to parts with which we have no reciprocity in trade. It is with our farmers to correct this evil; and the State will never prosper until they do their duty.—Macon Messenger.

BANKRUPT LAW.

The following communication made to Congress by the President is the first intimation of his opinion on this important question.

To the House of Representatives of the United States.

The accompanying memorial in favor of the passage of a Bankrupt Law, signed by nearly three thousand of the inhabitants of the city of New York has been forwarded to me, attended by a request that I would submit it to the consideration of Congress. I cannot waive a compliance with a request urged upon me by so large and respectable a number of my fellow-citizens. That a bankrupt law, carefully guarded against fraudulent practices, and embracing, as far as practicable all classes of society the failure to do which has heretofore constituted a prominent objection to the measure—would afford extensive relief, I do not doubt. The distress incident to the arrangements of some years past has visited large numbers of our fellow-citizens with hopeless insolvency, whose energies, both mental and physical, by reason of the load of debts pressing upon them is lost to the country. Whether Congress shall deem it proper to enter upon the consideration of this subject at its present extraordinary session, it will doubtless wisely determine. I have fulfilled my duty to the memorialists in submitting their petition to your consideration.

ST. AUGUSTINE, July 2.

We understand that Col. Worth, commander of the Army in Florida, with a view to encourage the settlement of the country, has asked authority from Washington that rations be allowed to all such of the inhabitants as shall return to their abandoned homestead; and, also, that both the pay and rations of soldiers of the Army, may be allowed to all such persons as shall now step forward and make new settlements—at least for one year.

Major Wilcox, of the Army, under instructions from Col. Worth, has already commenced a tour along the border settlements, extending from the Atlantic to the Gulf, for the purpose of encouraging the citizens to their abandoned homes; and also for the purpose of enrolling the names of all those who may choose to avail themselves of this beneficent provision of the Government. He arrived here yesterday, for the discharge of his duty. It is not intended to organize the settlers into companies, by the appointment of officers, &c. but merely to encourage the occupancy of the country by hardy, fearless pioneers, to whom protection will be afforded by the army, as far as practicable.—News.

SAVANNAH, June 7.

From Florida.—We are indebted to a friend for the following disposition of the troops operating as scouts in Florida, received by the steamer Gen. Taylor, Capt. Peck.—Georgian.

The different scouting parties made a simultaneous movement on the 25th of June, from Fort Brooke. A column of the 8th Infantry, under Lt. Col. Clarke proceeded on the Fort King road as far as Fort Dade, at which point he was joined by Capt. Beall of the 2d Dragoons, with a troop of Cavalry. The command would then proceed down the left bank of the Withlacoochee, scouring the hammocks and operating at the same time on rivers with canoes. Lt. Col. Riley, with a column of the 2d Infantry, has proceeded from Fort King in the direction of Camp Izard, to scour the hammocks of the Withlacoochee on the right bank; he is accompanied by a troop of Cavalry. Lt. Col. Loomis, with a column of the 6th Infantry, has proceeded from Fort Harrison, on the Gulf, on the Annattalga road, in the direction of Fort Clinch, and bearing off to the right, will scour the hammocks on the left bank of the Withlacoochee, until he intersects or comes within communicating distance of Lt. Col. Clarke's column.—Capt. Miller, of the 1st Infantry, has ascended the Homassassa and Chrysol rivers, with a detachment in canoes. In addition, the posts of Forts Micanyop, Wacassassa, and Fanning are pushing their scouts far towards the points towards which the different columns are converging.—These continued movements will render an escape of the Indians almost impossible; at all events their fields will be destroyed, and they will be made to feel that they have no security, even during the summer months.

In addition to the above scouts, a detachment of Dragoons, under Capt. Ker, has ascended the Ocklawaha in canoes, to examine the Islands in that river, where it is quite probable Halleck Tustenuggee may have gone, after his sudden disappointments from the neighborhood of Fort King on the 30th of May.

Col. Worth and staff left Fort King on the 29th June for the hammocks of the Withlacoochee, near which the different columns are operating. The scout will probably last 20 or 25 days.

Commercial.

Exchange.—We have to notice the same dull state of the market which has prevailed for a

long period. We look for no change in this respect until September or October next, when the new crop of Cotton shall begin to arrive freely. The rates for New York and Charleston continue without change from our report of the 1st inst.

A report has reached us from Savannah that the Planters' Bank has commenced the payment of specie to all bill holders, Brokers and Banks not excepted. If true, we hope that our friend of the Savannah Republican will confirm the report through his columns. It is high time that all of our good Banks should abandon the dirty practice of paying some and not others.—Chron. & Sentinel.
