THE FIFTH VOLUME

OUR years have nearly elapsed since the Journal first made its appearance before a generous public,; and although having met with a due partion of support, the Editor would at this time, invite the attention of his old friends, and those who may feel a desire of sustaining his efforts, and extend additional encouragement, to lend a helping hand towards

the commencement of a new volume.

We make an earnest appeal to our friends n South Carolina, as well as those in other States, to assist us in the circulation of the Journal, and clear away those weeds that have grown around the Old Palmetto Tree. Now that we have preferred Henry Clay to Martin Van Buren, we can only expect a desperate effort to be made to crush us, and consign the HAMBURG JOURNAL to oblivion. Though we fear not those who would injure our interest because the more we are trampled on, the bet-ter we will thrive: still, we wish to have the consolation of knowing that our course meets with response from the hearts of freemen. conduct a Press in South Carolina in opposition o the established mandates of those who dictate, is like treading on the forbidden ground of some eastern mosque—no christian dare pass it, unless barefoot. THE SOUTHERN MEDICAL

POCKET BOOK.

FIRE Subscriber having anticipated the publication of his MEDICAL POCKET BOOK prepared expressly for the Southern States, but, being disappointed in publishing it as a book, now proposes to issue the work in sheets, twice a month, until the whole work shall be completed. Each number will comprise 32 duodecimo pages, on excellent paper, making, when completed, about 300 or 350 pages, This method has been adopted because it is the cheapest and safest mode by which the work can be delivered to subscribers

The principles of Medicine, Disease, Prac tice, and theory, so far as relates to the Botanic remedies, are full and comprehensive. In fact, the Medical Pocket Book is so arranged as to render every man, or head of a family quelified o act as their ewn physician.
In arging the POCKET BOOK upon the

public, he deems it only necessary to state, that (not as heretofore.) the work will be free from Hysterious Technicalities-and, that all the light within the reach or comprehension of the writer, has been plainly set forth. Disease with the various treatments, preparations for and application to, are rendered so easy no one who reads can fail to comprehend. This course has been pursued in all the divisions of the work, particularly in Anatomy, which is condensed from volumes of seven and eight hundred pages, down to a compass of, perhaps, be tween thirty and fifty pages-embracing the major, and most important functions, internal and external, of the human frame. It will be found to answer the purpose for which it is designed, and its adaptation to all classes, ages and sexes-and will prove to be a compa to all who may consult its pages either theoretical or practical.

The following is the order in which the sev eral parts of the work will appear, and the different subjects that will be therein contained:

1. Preface, History and Theory of the Bo

tanic Practice.
2. Practice of Medicine.
3. Botanical Materia Medica.

4. Compendions Anatomy. Obstetrics, abridged.

6. Dispensatory.
7. Popular and valuable Recipes, between 100 and 200.

8. Surgery, abridged.

9. Comprehensive Glossary. 10. Index, arranged for each part separately. The first form of the work will be issued about the first of May. Those who wish to avail themselves of the work will forward their abscriptions, through their respective post offices,-Postmasters are authorized to ferward

liver. They act gently, but effectually upon the bowels, after two or three days' use of them, producing copious dark, bil lious evacuation. They also effect a determination to the surface, increasing the perspiration; therefore, they are a great purifier of the blood and equaliser of the circulation. Each

pill is equal to a common glass of the wa ter. They should be taken before each meal, and from six to ten or twelve should be taken in the course of each day, for a fortnight, and then omit them for the same period. For the cure of the above diseases, perseverance in the use of these Pills, is all important; and if they are perseveringly used, every alternate fortnight, a cure may more certainly be expected, than under any other treatment heretofore discovered, except from the use of the water, from which they are prepared, either by an attendance at the Springs or otherwise They very speedily cure diarrhoeas, attended with acidity of the stomach, and are a very useful remedy for the summer bowel complaint in children, as also for expelling worms from children. From one to four should be given in three equal portions each day, to a child under six years, according to age. When given to children. they should be powdered and mixed with syrup. Dyspepsia. O soothe the sufferings of humanity, to ameliorate the pangs of disease, is the grand object of medical science. This is efficiently demonstrated in the healing virtues of DR. BENJAMIN-BRANDRETH'S PILLS. The cures effected by this medicine would fill

Views on Indigestion as a source of various Undefined and Irregular Nervous Sensations. 'Ills, small at first, grow larger from delay, And slowly eat their sad and cankering way; Thus by successive throes, the frame is torn Till health and peace of mind alike are gone. The nerves of the human body—those neces sary and mysterious agents which immediately connect man with external nature-are singu larly prone to have their functions disordered by an oppressed condition of the stomach; the minute termination of that portion of the nerves expanded upon the organs of digestion conveying the morbid impression to the Brain. And although the Head can, undoubtedly, like other organs, be the seat of primary disorder, yet, in the great majority of cases, the uneasy sensations there experienced are symptomatic of disordered Stomach; and, further, there is abundant evidence to prove that erndities in the Stomach and Bowels can, in every grade of human existence give rise to spasmodic action in every organ of the body; and whether we survey it in the agonising form of Tic Dolreanx -the alarming convulsions of the Epileptic seizure-or in that irritable condition of the nerves of the heart occasioning nervous palpitation-they can all frequently be traced to the source above mentioned, and be cured by mild evacuant and tonic remedies. To relieve a state of so much suffering and distress (in which body and mind also participate) BRANDRETH PILLS are confidently recommended; as, by combining aromatic tonic and cleaning properties, they remove all oppressive accumulations, strengthen the Stomach, induce a healthy appetite, and impart tranquility to the nervous system: and in fact, by their general purifying power upon the blood, exert a most beneficial influence in all cases of disease. DYSPEPSIA CURED. BENNINGTON, Vt. Dec. 5th, 1843. Dear Sir:-I wish you to aid my testimo ny to the host of others that you have, in favor of your valuable Pills. In the year of 1838, I was attacked with that disagreeable complaint, the Dyspersia, which so affected me that I could not take the least particle of food, without the most unpleasant and uncomfortable sensations in my chest, head and howels. My chest was so sore that I could not bear the slightest pressure without giving me pain. My signlest pressure without giving me pain. My health was most miserable; many physicians told me they thought I was in the consumption, and that if I did not give up my business, and change climate, I could live but a short time.

I tried every thing in the shape of medicine, and consulted the most skilful physicians, but found no permanent relief. I became discouraged, gloomy, sad, and sick of life: and, proba-bly, ere this, should have been in my grave, had I not fell in with your precious medicine, A friend of mine, who had been sick of the same A friend of mine, who had been sick of the same complaint, advised me to try your pills; but, having tried some other medicines without ob-taining any relief, had but little faith that your Pills would be of benefit to me; but, at his carnott solicitations. I progressed a hear and earnect solicitations, I procured a box and commenced taking them.

nenced taking them. The first box produced little or no effect, and I began to despond, for fear that your medicine would prove like others I have taken; but my Friends argued that one was not a fair trial, and I purchased a second, and before I had taken the whole box I began to experience a change; the pain in my chest began to be less painful, and my food did not distress me as much as for-merly. I went on taking them until I had ta-ken six boxes, and my DYSPEPSIA was GONE, and my expectation of an early death vanished and my expectation of an early death vanished, and I felt a "new creature." I was then, and am now, a healthy man. I have never since been troubled with the Dyspepsia. I have administered your Pills to the members of my family, and to my friends, and in all cases with good success. You can publish this if it will be of any use to you! I am, dear Sir, truly news.

They are particularly recommended to all those persons who are afflicted with any kind, of a chronic or lingering complaint, as no medicine before the public which has so natural and happy effect upon the system in

correcting the st mach and liver, and to the formation of healthy chyle and thereby purifying the blood.

They are acknowledged by the hundreds and thousands who are using them, to be not only the most mild and pleasant in their operation, but the most perfectly innocent, safe and effi-cient medicine ever offered to the public.— Those who once make a trial of these Pills, never afterwards feel willing to be without them, and call again and again for more, which

is sufficient proof of their good qualities. HEADACHE—SICK OR NERVOUS. Those who have suffered and are weary of uffering with this distressing complaint, will find Spencer's Vegetable Pills a remedy at once certain and immediate in its effects. One single dose of the Pills, taken soon as the headache is felt coming on, will cure it in one-half

hour entirely.

As a remedy in summer and bowel complaints, they display their wonderful powers to admiration, and are far superior to any thing in use for these complaints. In Dyspepsia and Liver Complaint, they stand unrivalled. Many have been cured in a few

weeks, after having suffered under the dreadful complaint for years.

In Habitual Costizeness they are decidedly superior to any Vevetable Pill ever brought before the public; and one 25 cent box will establish their surprising virtues, and place them beyond the reach of doubt in the estimation of

every individual.

They are invaluable in nervous and hypo chondriacal affections, loss of appetite, and all complaints to which females alone are subject They are mild in their action, and convey almost immediate conviction of their ultility from the first dose. They may be taken by persons of any age; and the feeble, the infirm, the nervous and delicate are strengthened by their operation, because they clear the system

of bad humors, quiet nervous irritability, and invariably produce sound health.

Upwards of three hundred and seventy thou sand boxes of these mestimable Pills have been sold within the last twelve months in three States alone, and more than three times the Same quantity in other States. be without them. A single trial of them is more satisfactory than a thousand certificates.

Talladega Springs, Talladega Co. Ala. 3 August 17, 1842. 3 This is to certify, that I have been afflicted with Sick Headache, Dyspepsia and Liver Complaint, and Costiveness for the last eight or nine years, during which time I had taken, as well as I recollect, about sixty boxes of Beckwith's Pills, twelve boxes of Peter's Pills, and a number of boxes of Champion's and Brandrain's Pills, all of which afforded me but little, or no relief. At last I was recommended to try Dr. Spencer's Vegetable Pills, and well I did; for I never had but one attack of the Sick Headache after I commenced taking the Pills, (now about six months,) and I candidly con-less, that I have derived more real benefit from the use of Spencer's Pills, than, from all the other Medicines and Pills that I have ever taken, and I would earnestly recommend them to all as being in my opinion, the best medi-cine in use for all linguing complaints. The Pills have done me so much good, that I would not feel willing to be without them for five dollars a box; and I cannot but feel very grateful to Dr Spencer for having prepared such a valuable medicine, and the distribution of it is conferring a very great favor on the public, as it is a thing of the utmost importance that every family should have a supply of Dr. Spencer's truly valuable Pills constantly on hand.
