Consumption Cure. THE following letter is from a highly respectable merchant, dated Lewistown, N. Y., Sept. 10, 1844. DR. D. JAYNE.—Dear Sir: It is said by Physicians, and is by the mass of inankind believed that consumption cannot be cured—that when once it becomes seated in the human system, nothing can eradicate or stay its progress, but that it will continue the work of destruction until its victim sinks into the grave.

However true this may be in theory, I am disposed to doubt it in fact; indeed, my own experience, and a desire to benefit others, compels me to pronounce the assertion untrue. You will probably recollect, sir, that in the beginning of 1840 I wrote to you, stating that I had the Consumption, and that it was fast hurrying me to the grave. I did not then, nor do I now doubt, every symptom was too painfully visible. My Physicians considered me incurable, but the advice which I asked of you was given, and I am happy to say that by using a few bottles of your incomparable medicine—the EXPECTORANT, I was restored, and never in my life have I enjoyed better or more uninterrupted health since that time.

"I WOULD NOT LIVE ALWAYS!"

ONE would naturally be led to the conclusion, from the apparent negligence manifested by many who are suffering under the baneful influence of Consumption, and other Pulmonary Affections, that they had assumed the words, "I would not live always," as peculiarly adapted to themselves, or that believing their case to be hopeless, had abandoned themselves to despair. But none need despair, while "life and being lasts," of being ultimately cured of every and any kind of pulmonary disease. Jayne's Expecto- rant has been proved by ample experience to be the most successful remedy in the world for the cure of Coughs, Consumption, Asthma, Whooping Cough, Bronchitis, and all other diseases of the Throat, Lungs, or Breast. To the Public, and Owners of Grist and Saw Mills

HAVING purchased of W. T. Moore, who is the owner in the State of South Carolina, of HOCHKISS VERTICAL REACTION WHEELS for Saw and Grist Mills, and other Machinery—and having tested them fully to our satisfaction and the satisfaction of all who have seen them, we now offer Edgefield District, which we have purchased to the public, with the following recommendations and advantages: 1st. The simplicity of their construction. 2nd. Their durability and power of moving Machinery. 3rd. They require one-third less water, and will do double as much execution in the same time as any other used in the South. 4th. Back water does not effect them so long as there is a head of water above them, as the action of the water is on the inner side of the wheels.

COTHIRAN & ROFF. P. S. MR. ROFF who is the owner of one half of the right for the District, is a practical Mechanic, and put up a good many Mills. His services can be had at any time, by directing to Winter Seat, S. C.

"I do certify that I assisted Mr. Roff in putting Mr. Job. Cothran's Saw Mill in operation with the Vertical Cas' Wheels. It uses much less water than the old flutter wheel. Much more durable and very simple. It needs no recommendation, as it recommends itself. I have just seen a test of it with back water—the wheels were covered, and I did not see any difference in its running. I have been employed as a Mill Wright for a number of years, and it surpasses anything I have ever witnessed. THOS. JOHNSON, January 28 to 1
