\* This District is not returned by Parishes as it should have been.

Leaving a clear gain in ten years of 23,260. There is a difference 1 in proving the calculation. The calculation may be relied upon as accurate, with this exception.

The representation of this State being based upon white population and taxation, the next apportionment may be arrived at by dividing the total of population by 62, which will give the divisor of population, they ascertain the taxation for ten years past, and divide by 62, and it will give the divisor for taxation. In 1839, the committee added nine and one-eighth percent to the fractions of population, which gave them the same denomination as the fraction of taxation. In the future taxation, the fraction will be governed by the result of the calculation of course.

In 1839, the following Districts and Parishes gained a member each, viz: Barnwell, Greenwood, Marion, Marlboro', St. John's, Colleton, and St. Philip's and St. Michael; and the following lost a member each, viz: Chester, Kershaw, Newberry, Williamsburg, Prince William and St. Helena.

Two parishes, St. Stephen's and St. Thomas, and St. Denis have their representation secured under the constitution.

By the late Act, the persons appointed for taking the census, were directed to report the number of deaf, dumb and blind in the State. The duty has been neglected, as but 24 have been returned.

The returns in the above list do not always coincide with those made by the district commissioners. Taking their own returns, however, the foregoing is correct, as some of them erred in their addition.

**THE MODEL BLACK REPUBLIC!**—The following, which we clip from the Boston Post, is a commentary on the capacity of the black race for self-government:

"FROM HAKTI.—The schooner Wm. Putnam, Capt. Cook, from Aux Cayes, Sept. 21st, at this port, with logwood, reports that the Island remained quiet so far, under the imperial sway. Capt. Cook states that twelve years ago the condition of the blacks was enviable compared with their present state; and during that period their deterioration has been deplorable. When Capt. Cook arrived, there was said to be not more than forty barrels of flour in the place; bread was also very scarce. The new crop of coffee came in slowly, and was exceedingly hard to get."

**TO KEEP SWEET POTATOES.**—As the time to dig sweet potatoes is most at hand, I would suggest a method for their preservation through winter, one which I consider the most convenient and the surest to secure the ends which are essential to keep potatoes with success, viz: a proper temperature, exclusion of light and dampness. The method is simple to throw the potatoes up in conical heaps of eight or ten bushels to a heap, covering them lightly with straw, then with tops, or conestalks, and lastly with dirt, being careful to have the ground upon which you make the heap so elevated as to drain off all rain water, and tops of the heaps so well secured, as not to admit water. I have suggested putting them in small heaps of eight or ten bushels, because when potatoes, put away for winter use are once disturbed by breaking into them, decay is apt to commence very soon thereafter. By having them in small heaps, when once the heap is disturbed, it being small, you can use it before much injury is done.

In keeping potatoes through the winter, a good deal depends upon the kind of potato, and upon the time of digging them. I know from actual experience, that one variety will keep much better than another. The kind that I prefer for keeping, is known among the farmers in my vicinity as the yellow bark. Potatoes should always be dug as soon after the first good frost as can be. Do not suffer too much cold to come upon them.—Phila. Dollar Newspaper.

**CURE FOR HEADACHES.**—A work has recently been published in Paris, by an eminent physician, in which he describes a new remedy for headaches. He uses a mixture of ice and salt, in the proportion of 1 to 4, as a cold mixture, and this he applies, by means of a little purse of silk gauze, with a rim of gutta-percha, to limited spots on the forehead or other parts of the scalp where rheumatic headache is felt. It gives instantaneous relief. The skin is subjected to process from half a minute to one and a half minutes, and is rendered hard and white. It is good in erysipelas and of the skin.—Scientific American.

**A JACKSON BULL.**—A genuine Hibernian said "by the powers an I hope General Jackson 'll be President and I hope Adams won't." "Why, my good fellow, do you say so?" "Oh! I wish an he's just such a wild fighting Irishman as myself—Och, my honey, you may look wild if you like, but he's an Irishman, he was only two years in this country, when he was born."

Never be weary of well-doing.

**KEEP IT BEFORE THE FANATICS.**—Every Southern paper should republish this decisive confession of the great British organ occasionally, for it can not be answered.

The London Times, of September 10, in an able article on slavery in America, says: "The will of the people of England and the resources of the British nation, have been applied with absolute authority and ungrudging munificence to the extinction of slavery in the British dominions. The Northern States of America have no such power of altering the institutions and the tenure of property in the slave-holding states of the Union: congress itself has no such power; but if it had, and besides the power if it had the will and the means to carry a general measure of abolition, we are constrained to admit that the experiment made by the British government, and the state in which the British West Indies are now placed by it, would be invoked as the most unanswerable argument against such a scheme."

**STONE & McCOLLUM'S**  
**Leviathan Circus**

THIS Very superior and stupendous Exhibition, acknowledged with one accord to be the LEADING EQUESTRIAN ESTABLISHMENT on this Continent! Will exhibit at EDGEFIELD COURT HOUSE, on THURSDAY the 5th day of November, 1849, for ONE DAY only.

It is necessary to add, in consequence of the immense amount of humbuggery of late resorted to by Itinerant Traveling Exhibitions, that the material of STONE & McCOLLUM'S CIRCUS is entirely new. The extent and grandeur of the outfit this Spring, is without a parallel in the annals of similar Establishments, and required the services of several Mechanics and Artisans to complete the tout ensemble of this vast Traveling Cavalcade, during the past Winter.

**The Corps of Performers**  
Are of that superior cast not found in Circus Companies generally, numbering among them gentlemen who are alike respected for their estimable qualities in private life, as for their superior performances in public, and with satisfaction we refer to the following names:

IL SIGN'R LUIGI GERMANI, T. McCOLLUM, E. STONE, JOHN SMITH,  
Four men the world cannot produce their equals in their respective lines of business, with M. J. LIPMAN, D. W. STONE, J. R. SHAY, A. LEVI, W. STUART, LE SEUR EDGAR, T. H. COLEMAN, J. BROWN, A. GATES, Messrs BURT and WILLIAMS.

The JESTERS to the Entertainments are W. Worrall & Green Johnson, Of that pure dye so often enquired after by gentlemen visiting similar Exhibitions, attended by ladies. In the representations, so far as the Clowns and other performers in the ring are concerned, no rude jest, or improper action will be tolerated by the proprietors.

With this assurance, we trust the odium heaped upon Traveling Companies generally by a portion of the mass, will, in this instance, be recalled.

**The Grand Brass Band!**  
Is another important feature in the annals of Musical connoisseurs, placed as it is, under the direction of its very eminent Leader

H. K. GAUL,  
Forming during the Entertainments in the Circus, the most EFFICIENT STRING BAND—Led by J. B. WARD. All tend to one grand point, viz: making Stone & McCollum's Circus complete in every department.

Every day, between the hours of 8 and 11, (weather permitting) the superior Band will appear in procession, seated in their Elegant Car, DRAWN BY TWENTY HORSES! and driven by Mr. JOHN ALEX, one of the most expert reinmen of modern days.

Gentlemen! Ushers in attendance, to wait on families to their seats.
