EVERY dollar that you spend foolishly, every proportionate amount of money that you earn that it would be possible to save and do not, is only money that you have to work for again. On the other hand every dollar you put in the bank is money that is going to constantly work for you. Which is the best; money always working for you, or you always working for your money. Come in and start that bank account. Don't put it off another day.

The Difference

You have often heard words of praise for the busy bee. Ever hear any one whooping it up for the yellow-jacket.

The reason the bee is praised and the wasp is "swatted" is because the bee saves. A yellow-jacket can be just as busy as a bee. If you don't believe that just fool with one some time and see. It's the saving habit that makes the honey. If you have formed the saving habit, our bank is the place for your savings, for they are always secure with us, but subject to your check.
