The Agricultural Meeting.

The regular anniversary of our Agricultural Society was celebrated on Saturday last by an oration, picnic, exhibition of stock &c. The day was favorable and a large number of persons were in attendance.

The Abberville Banner records the decease of William Lowndes, youngest son of the late John C. Calhoun, who died on the 19th inst., on his plantation in Abberville District.

HON. J. IZARD MIDDLETON.—A correspondent of the Marion Star, writing over the signature of 'Justice,' nominates the Hon. J. Izard Middleton, for the U. S. Senate.

Yellow Fever in Charleston. We are pained to notice by the last published returns that this dreadful scourge is still on the increase in Charleston.

Correspondence of the Lancaster Ledger.

The late Staten Island riots have served to keep us excited for the last ten days. I do not pretend to justify the lawlessness of the incendiaries, many of them, by the men of high social and business standing, and of hitherto irreproachable character; but I cannot help smiling at the virtuous indignation at the 'outrages' of the islanders exhibited by our immaculate municipal authorities.

ARRIVAL OF THE NIAGARA.

Augusta, September 22.—The Canada steam ship Niagara, Capt. Ryrie, of the British and North American Royal mail steam ship line, has arrived at Halifax, on the way to Boston, with the Liverpool mails of Saturday, 11th inst.

General Intelligence. Nothing of interest, in addition to the last reports, has been received from India or China.

Commercial Intelligence. LIVERPOOL COTTON MARKET.—The sales for the week, closing on the evening of Friday 10, were 67,000 bales of cotton, of which 12,000 were sold on Friday.

Additional by the Niagara. HALIFAX, Sept. 22.—The steam ship Niagara, from Liverpool, on the 11th, arrived here this morning. The news generally is unimportant.

THE AMERICAN SHIP J. J. HAWTHORNE and the barque Margaret came in collision in the mouth of the Mersey, and the latter sunk. All perished except the captain and pilot.

REINFORCEMENTS FOR THE INDIAN ARMY had sailed from England. A convention had been concluded between England and Brazil for the settlement of outstanding claims against either government.

THE SHIP AVON had arrived from Australia with nearly \$2,000,000 in gold. Paul Morphy, the American chess player, had been beaten in Paris by Harrwitz.

in Pennsylvania, near Beaver, having made, involuntarily, the longest trip ever made in America.

Mexico. The political condition of Mexico excites the solicitude of statesmen both in Europe and in the United States. A state without revenue, credit, military force, stable authority or even a recognized head, is an anomaly among nations.

On the supposition that dismemberment is inevitable—that there is no principal of cohesion in the component parts of the republic—in the people—in the leading men—that she is a State with none of the attributes of a State—it becomes a problem, how the dismembered parts will arrange themselves, whether as separate political communities or clusters of republics, and in what mode international obligations are to be discharged.

THE WEATHER. We are glad to learn that the weather is highly favorable to the crops, but should an accident happen in the shape of violent storms, blight, or some noxious insect, our hopes would be blasted.
