**AFTERWARD.**  
O, soul that bears a daily cross,  
Half-fainting, questioning, bearing, still,  
Some time your lesson shall be learned,  
And ye shall understand God's will.

**Questions Answered.**  
On the last page of the Dispatch of May 6, we found a series of ten Bible questions which seemed to invite answers at some one's hands. Having had a few leisure moments on Sunday afternoon, we set ourselves to the task of finding the answers to the same and below is the result of our labor. We give the answers in the order in which the questions appeared:

1. Rechabiah—1 Kings 16: 10.
2. Jehudi—Jeremiah 36: 23.
3. Euthycus—Acts 20: 9.
4. That dry land had appeared—Genesis 8: 11.
5. It was recovered by the Prophet Elisha who cast a stick into the water at the place where the ark sunk and commanded the iron to swim—2 Kings 6: 5-7.
6. Paul—2 Corinthians 11: 23.
7. Gideon thus routed the host of Midian—Judges 7: 16-21.
8. Jacob—Genesis 35: 4.
9. Rahab—Joshua 2: 9-6.
10. A little maid, a captive of the land of Israel. Naaman

After that those who are willing to come back and vote with us and help keep the party strong and solid should be welcomed. There need be no killing of fatted calves or putting on of gold rings to mark the home coming of the prodigal sons, but the fact that their votes and aid may be very handy in emergencies should be recognized.

**New County Question.**  
Editor Dispatch: Please allow me space in your paper to call the attention of the citizens of the lower part of the county to a scheme originated at St. Matthews to form a new county, to be known as Calhoun, by taking a portion of Lexington county by a line running from the mouth of Savannah Hunt creek on the Congaree to Witt's Mill on the Edisto, and from thence through Orangeburg county by Jamison, on the South Carolina Railroad, down Four Hole swamp to the Berkeley line and back to Santee river and up the Congaree to the first named point, thus making it about fifteen miles wide on the Lexington end and about eight or ten miles on the Berkeley end and about sixty miles long, with the court house at St. Matthews.

**Human Instinct.**  
So powerful is human instinct, that some of its suggestions become embodied in social and household customs. The people know and feel that at the beginning of the spring season the system needs an alternative and a purifying tonic and stimulant. In all parts of the country it is the custom for the housewife to dose her brood with sassafras tea. Among the simple remedies that our ancestors employed, this decoction has continued to hold its own. The demand for a spring alteration and tonic, however, is filled more efficaciously by S. S. S., which is itself as simple as nature's remedial medicine should be. It purifies the blood, cleanses and strengthens the system, and prepares the human machine to stand the wear and tear of the summer months.

**From Nature's Storehouse.**  
It stands to reason that a medicine which will destroy the germs of contagious blood poison and counteract the effects of mercurial poisoning may be depended on to overcome the diseases that have their origin in malaria, or that have their seat in an impure condition of the blood. This is what S. S. S. has done, and what it will do, as its popularity attests. As a preventive, and a remedy for the long list of affections that display their activity during the spring and summer months, it stands without a rival. The secret of this is a remedy drawn from nature's own storehouse.

**Worse than Fifteen Fuzils.**  
In the light of the Nineteenth century it seems strangely to read of the practices of the ancient physician. We are told that in the fifth century Sennacherib, a celebrated doctor, invented a mystic form of letters called Abramambras believed to be possessed of magical import, whereby they exercised wonderful healing powers when used to permit their free scope. In the sixteenth century one physician claimed to have cured 200 cases of ague by hanging the words about the necks of patients; while another claimed to cure toothache by his use, though the patient were ten miles off. In contrast to this, let's look at the most wonderful remedy recently medical research has placed in the hands of suffering humanity. It is Westmoreland's Calisaya Tonic, prepared from a formula of the best medicinal plants. It is a sure cure for dyspepsia, and tones up a failure appetite. When the system is run down or over-wrought, by all means try Calisaya Tonic. Then, too, it is an unfailing remedy in malarial districts being a sure anti-periodic.

**Worse than Fifteen Fuzils.**  
For sale at the Bazaar in 50c. and \$1.00 bottles.

**ODDS AND ENDS.**  
At the present day a ton of diamonds is worth about 27,000,000.  
School children in Victoria, Australia, are carried on the street cars free.  
Steamboats, it is reported, will soon be running on the Sea of Galilee.  
A handful of flour bound on a severe cut will often stop the bleeding.  
There is only one sudden death among women to every eight among men.  
Some lend their hearts much as they do their money, with a pretty heavy interest.  
Rev. R. L. Kidd, a Canadian evangelist, boasts that he can recite the entire Bible from memory.  
The degree of success obtained may often be ascertained by the amount of jealousy which it arouses.  
The "fool's slipper" has a pointed toe, with a high point up the back and another one over the instep.  
London has 200,000 factory girls, the majority of whom are only able to make a "bob" a day—\$1.50 a week.  
The Greeks and Romans during the prime of their republics contented themselves on one meal a day.  
The Chinese and Thibetians have a week of five days named after iron, wood, water, feathers and earth.  
Any one who has been scalded by steam should be taken to a warm room, and the parts scalded drenched by cold water.  
By actual count 150 young women have taken up timber claims in Western Washington during the past six months.  
The bank of Scotland issued one pound notes as early as 1704, and their issue has since been continued without interruption.  
In the United States there are 2,800,000 hives producing to 70,000 beekeepers and producing 62,000,000 pounds of honey yearly.  
A Jackson (Mich.) man, recently married, celebrated the event by treating his friends to bread tickets. He passed them instead of cigars.  
Professor Boys shows that the heat of the lunar rays can be definitely determined as 150,000 times greater than those of a candle twenty feet away.  
A good handful of rock salt added to the bath is the next best thing to an "ocean dip," and a gargle of a weak solution is a good and ever ready remedy for sore throat.  
Water has been discovered in the Sahara Desert at about 120 feet below the surface. This is the first time that a supply of water has been found at that locality at so slight a depth.  
Fish Chameleons—the best fish stories told since the days of Noah.

**Catarrh Can't be Cured**  
With Local Applications, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you have to take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly, on the blood and mucous surfaces. Hall's Catarrh Cure is no quick medicine. It is prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonic known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials free.

**Haskell Mon and the Party.**  
Greenville News.  
A premature discussion is being started as to whether those who voted for Haskell at the last State election will be allowed to vote in the Democratic primaries and conventions next year. We confess our fear is that a good many of them will not offer to continue with the party. If we remember aright those who strayed off after the Greenback candidates a few years ago were welcomed back into the fold on their promise to support the nominees and the same rule ought to apply to the Independents of the last campaign. White men must stand together. When any go astray the whole power of the party should be used to prove to them that they are not successfully fighting the party.

**Human Instinct.**  
So powerful is human instinct, that some of its suggestions become embodied in social and household customs. The people know and feel that at the beginning of the spring season the system needs an alternative and a purifying tonic and stimulant. In all parts of the country it is the custom for the housewife to dose her brood with sassafras tea. Among the simple remedies that our ancestors employed, this decoction has continued to hold its own. The demand for a spring alteration and tonic, however, is filled more efficaciously by S. S. S., which is itself as simple as nature's remedial medicine should be. It purifies the blood, cleanses and strengthens the system, and prepares the human machine to stand the wear and tear of the summer months.

**From Nature's Storehouse.**  
It stands to reason that a medicine which will destroy the germs of contagious blood poison and counteract the effects of mercurial poisoning may be depended on to overcome the diseases that have their origin in malaria, or that have their seat in an impure condition of the blood. This is what S. S. S. has done, and what it will do, as its popularity attests. As a preventive, and a remedy for the long list of affections that display their activity during the spring and summer months, it stands without a rival. The secret of this is a remedy drawn from nature's own storehouse.

**Worse than Fifteen Fuzils.**  
In the light of the Nineteenth century it seems strangely to read of the practices of the ancient physician. **Address of Ex-President Grover Cleveland at the Reception Tendered Him.**  
At 7.30 o'clock May 12, Cleveland was escorted from the Hotel Iriquois close to the club house, Buffalo, and the formal exercises soon thereafter began. It was crowded almost to suffocation with members of the club, as was also the adjoining rooms and the broad staircase. Cleveland was greeted by the wildest cheering, long continued and often repeated. He spoke as follows:  
Mr. President and gentlemen: As I stand for the first time face to face with the Cleveland Democracy, I experience a mingled emotion of responsibility and pride. A sense of responsibility arises from my relation to your organization as its Godfather, and my pride from the noble manner in which you have borne my name. I acknowledge your right to require of me at this time an account of the manner in which I have kept the political faith to which you are devoted. This right grows out of the fact that the word "Democracy," as it stands in the name of your organization, means so much and is so worthy your care, that its significance should not in the least be clouded by any pretext which is not in keeping with Democratic aims and purposes.  
In giving an account of my political behavior, I can only offer a record of political conduct familiar to all my countrymen, and supplement this record by the declaration that I have done the best I could to deserve the confidence in me which you have so gracefully manifested. For the character of the record thus presented, yourselves are answerable with me—for it has been made under the influence and encouragement of the sentiments and doctrines which the Cleveland Democracy have cultivated and enforced. When we started together in political life and responsibility your accepted creed taught that politics was something more than a mere juggling, that there was still such a thing as official duty and that it meant obligation to the people; that the primary of our Government was the people; that the doctrines of true Democracy, honestly and bravely enforced, promised the greatest good to all our countrymen, and exacted through the length and breadth of our land impartial governmental care and indiscriminating justice.

**Public Extravagance.**  
and thus a new marauder is turned loose, which, in company with its vicious tariff partner, bears plundered benefit to the households of favored selfish interests.  
We need not prolong the details. Turn where we will we see the advance of this devouring and destructive creature.  
Our Democratic faith teaches us that the useless exaction of money from the people upon the false pretext of public necessity, is the worse of all governmental pervasions, and involves the greatest dangers to our guarantees of justice and equity. We need not unlearn this lesson to apprehend the fact that behind each exaction and as its source of existence is found public extravagance. The axe will not be laid at the root of the unwholesome tariff tree with its vicious inequality and injustice until we reach and destroy its parent and support.

**Public Extravagance.**  
But the growth of public extravagance is not only a source of danger to the study, and that the doctrines of true Democracy, honestly and bravely enforced, promised the greatest good to all our countrymen, and exacted through the length and breadth of our land impartial governmental care and indiscriminating justice.

**Personalties.**  
Keep clear of personalities in general conversation. Talk of things, objects, thoughts. The smallest minds occupy themselves with personalities. Personalities must sometimes be talked because we have to learn and find out men's characteristics for legitimate objects; but it is to be with confidential persons. Do not needlessly report ill of others. There are times when we are compelled to say, "I do not think Bouncer is a true and honest man"; but when there is no need to express an opinion, let poor Bouncer swagger away. Others will take his measure, no doubt, and save you the trouble of analyzing him and instructing them. And as far as possible dwell on the good side of human beings. There are family boards where a constant process of depreciating, assigning motives and cutting up of character goes forward.

**From Nature's Storehouse.**  
It stands to reason that a medicine which will destroy the germs of contagious blood poison and counteract the effects of mercurial poisoning may be depended on to overcome the diseases that have their origin in malaria, or that have their seat in an impure condition of the blood.
