ADVERTISING RATES.

Advertisements will be inserted at the rate of 75 cents per square of one inch space for first insertion, and 50 cents per inch for each subsequent insertion. Special contracts made with those wishing to advertise for three, six and twelve months. Notices in the local column 5 cents per line each insertion. Obituaries charged for at the rate of one cent a word, when they exceed 100 words. Marriage notices inserted free. Address G. M. HARMAN, Editor and Publisher.

STATE NEWS.

What Our Neighbors Are Saying and Doing Condensed for Busy Readers.

Four of the striking machinist of the Southern Railway shops in Columbia have been arrested on warrants sworn out by the railroad authorities charging them with riot and assault.

The team of the Independent Steam Fire Co., of Columbia, has decided not to accept the invitation of the Charlotte firemen, to participate in a tournament, on account of the smallness of the prizes offered.

The State Phosphate Commission will meet in the city of Columbia on July 9th and will then start on a tour of inspection of the phosphate beds of the State.

J. C. Simms, formerly of Lancaster county, in this State, is prominently spoken of as the next Democratic candidate for the governorship of California. He was private secretary to Gov. Hampton.

The Southern Railroad, since January 1st, has built or contracted for \$27,600 worth of side tracks in Columbia. The growth of the wholesale business in Columbia has a great deal to do with this demand for increased trackage.

Mr. W. A. Neal, a former superintendent of the State penitentiary, was tried at the Richland term of the court of sessions on an indictment charging him with failing to turn over public moneys to his successor within the limit prescribed by law.

Walsb's new city directory for Columbia has been issued. The publishers state in their preface that the directory, based upon a careful canvass of the city and immediate suburbs, shows the population to be not less than 32,000.

Mr. N. H. Williams, says he has a curiosity at his house in the shape of animal which is half rabbit and half cat. The fore part is like a cat and the hind part look like a rabbit. It is about six weeks old, and he supposes it to be the result of tame rabbits and cats breeding together.

The Governor has been asked to offer a reward for the capture of a negro named Rodgers Robertson, who is badly wanted by the peace officers of Greenwood county to answer for the unprovoked murder of a negro woman named Mary Lou Griffin.

On the advice of Solicitor Johnson, the Governor has pardoned Ben King, colored, of Marlborough county. He had served a six month's sentence for wife beating and the pardon was granted to restore citizenship so that he could be used as a witness in a case now pending in court.

A deplorable accident occurred at the Epworth orphanage in Columbia on June 26, in which a young boy lost his life. During a storm which passed over that city on the day mentioned, nine boys sought refuge under a shed, which the violence of the wind brought down with a crash instantly killing Charlie Slack.

Governor McSweeney announced some days ago that it was his intention to call a "Good Roads" convention to meet some time during August. The correspondence with county supervisors has been favorable to the convention idea. The State geologist and his assistants, who are familiar with the aspect of economical development, will be consulted before a date for the convention is made.

The addition to the barracks Clemson makes room for 150 more boys. This increase in the number of students necessitated an increase in the teaching force, and the trustees recently elected the following additional teachers: Mr. S. W. Reeves, of Marion, assistant professor of mathematics; Mr. Arthur B. Bryan, of Burnwell, tutor in English; Mr. J. E. Hunter, of Newberry, tutor; Mr. Mark Bradley, of Abbeville, tutor.

Little Vernon, the two year old son of Mrs. E. D. Humphries, of Union, passed through an experience recently which caused his parents considerable uneasiness for the time being. He was playing with a four penny wire nail and his mother noticed him gagging and trying to get something from his throat. She knew he had swallowed the nail, but she could do nothing. The nail passed down and the parents were very uneasy for the four days it remained in the child. They were overjoyed when they knew the child was relieved of the danger. It was sharp pointed, and the child had a narrow escape.

All of Dr. Boyd's remedies are for sale at the Bazaar.

SORES AND ULCERS.

Sores and Ulcers never become chronic unless the blood is in poor condition—its sluggish, weak and unclean the throw of the poisons that accumulate in it. The system must be relieved of the unhealthy matter through the sores, and great danger to life would follow should it heal before the blood had been made pure and healthy and all impurities eliminated from the system. S.S.S. begins the cure by first cleansing and invigorating the blood, building up the general health and removing from the system **A CONSTANT DRAIN** all morbid, effeminate matter. **UPON THE SYSTEM.** When this has been accomplished the discharge gradually ceases, and the sore or ulcer heals. It is the tendency of these old indolent sores to grow worse and worse, and eventually to destroy the bones. Local applications, while soothing and to some extent alleviate pain, cannot reach the seat of the trouble. S. S. S. does, and no matter how apparently hopeless your condition, even though your constitution has broken down, it will bring relief when nothing else can. It supplies the rich, pure blood necessary to heal the sore and nourish the debilitated, diseased body.

Mr. B. Talbert, Lock Box 24, Winona, Miss., says: "Six years ago my leg from the knee to the foot was one solid sore. Several physicians treated and I made two trips to Hot Springs, but found no relief. I was induced to try S. S. S., and I am glad to say I have been a perfectly well man ever since. I have been a perfectly well man ever since. I have been a perfectly well man ever since."

Send for our free book and write our physicians about your case. We make no charge for this.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

THE OLD RAIL FENCE.

In the merry days of boyhood when we never knew a care
Greater than the mumps or measles or a mother's cut of hair,
When the sore was our treasure and a stone bruise on the heel
Filled the other boys with envy which they tried not to conceal.

There were many treasured objects on the farm we held most dear,
Orchard, fields, the creek we swam in, and the old spring cold and clear;
Over there the woods of hickory and oaks
And the old fence, the old fence.

Looming up behind the outlines of the old rail fence,
On the rails the quail would whistle in the early summer morn,
Calling to their hiding fellows in the field of waving corn.

And the meadow larks and robins on the stakes would sing and sing,
Till the forest shades behind them with their melody would ring.
There the cat bird and the jay bird sat and called each other names,
And the squirrels and the chipmunks played chase-and-catch-me games.

And the parter snake was often in unpleasant evidence
In the grasses in the corners of the old rail fence.
As we grew to early manhood when we thought the country girls
In the diadem of beauty were the very fairest pearls.

Off from spellin' school or meetin' or the jolly squinkin' bee
Down the old lane we would wander with a merry little "be."
On the plea of being tired (just the country lover lie).

On a grassy spot we'd linger in the moon-light, and the night,
And we'd paint a future picture touched with colors most intense
As we sat there in the corner of the old rail fence.

There one night in happy dreaming we were sitting hand in hand,
Up so near the gates of heaven we could almost hear the band,
When she heard a declaration whispered in her listening ear—
One she often since has told me she was dear old head today.

On my head there's now a desert fringed with foliage of gray,
And there's many a thread of silver in her dear old head today.
Yet the flame of love is burning in our bosoms as intense
As it burned in the corner of that old rail fence.

Candidates for 1902.

Candidates for State officers are beginning to pop in the political forcing beds. The Columbia Record catalogs some of them as follows:

The latest candidate for Governor is Captain D. C. Heyward of Colleton. He is a good citizen and has many friends in the State who have urged him to make the race, and his candidacy has met with a very favorable reception by the press.

Ex-Governor John C. Sheppard, of Edgefield, will also be a candidate for Governor. He served a short term, succeeding Governor Hugh S. Thompson, who resigned to accept an appointment in the treasury department at Washington. Since then Governor Sheppard has been prominent in political affairs in the State, and he has a large number of friends throughout the State who will enthusiastically work for his election to the gubernatorial chair.

Among other candidates for Governor will be Lieutenant Governor Tillman, who is actually engaged in prosecuting his canvass. All the members of the former First regiment are loyal friends to Colonel Tillman and it is said that almost to a man they will do active work in his behalf.

There is some talk about Governor McSweeney again being a candidate. While the sentiment against a third

term is pretty strong in this State, Governor McSweeney's friends hold that he has only been elected Governor once by the people, and that the portion of the term of the late Governor Ellerbe he served does not count as a term. The Governor has made no statement as to his intentions, but his popularity has greatly increased in the State by his refusal to have a political canvass this year.

Secretary of State Cooper is also an avowed candidate for Governor. Mr. Cooper is very popular in the State and will no doubt receive a strong support.

Should he not be a candidate again for Secretary of State, the names of Colonel S. W. Vance and Mr. J. T. Gant, Chief Clerk, have been mentioned in connection with the office. Neither has formerly announced his candidacy.

Attorney General Bellinger will be a candidate for Congress in Colonel Tolbert's district. He has a strong hold on the people of that district, and knowing politicians say he will stand a good chance of winning Assistant Attorney General U. X. Gunter, Jr., will be a candidate for Attorney General. He is well qualified to fill the position and his connection with the office makes him thoroughly familiar with his duties. He has been for several years Secretary of the Democratic Executive Committee, and consequently is in close touch with the people of the State. It is reported that Speaker Stevenson will be a candidate also, but this cannot be confirmed.

It is not known whether Comptroller General Derham will be a candidate again or not. Even if he is, there are indefinite reports about several gentlemen throughout the State, who fill the position of county Auditor or Treasurer, who will be candidates. But no definite announcements have been made.

Treasurer Jennings will again be a candidate, and is not known whether he will have opposition.

General Floyd is thinking of running for Congress in the Fifth district. In case he does, it is said that Colonel Frost, Mr. G. Douglass Rouse of Charleston and perhaps others will be candidates. It may be that General Watts may take another flyer at the job.

So, from this it will be seen that there will be a considerable shaking up at the State house next year if present plans are carried out.

Beware of Ointments for Catarrh that Contain Mercury.

As mercury will surely destroy the sense of smell and completely de-range the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by Druggists 75c. per bottle.

Hall's Family Pills are the best.

An Unusual Caller.

Columbia State, June 27th.

There was an unusual caller at the executive office yesterday morning. The caller was a very respectable looking colored woman, and she was accompanied by her mother. She wanted to ask the Governor to get her three-year-old child from her brutal husband who lives in Lexington. She stated that he had for the fifth time recently beat her with a stick and his fists in a most brutal manner and she had left him and come back to her mother. He had taken her little girl from her. Of course she could get no aid, though the Governor listened to her pathetic story. The husband will doubtless soon be arrested and sent up for wife beating.

The ladies of Marion have begun to raise funds to erect a monument to Confederate soldiers in the court house square.

Oak Grove Items.

To the Editor of the Dispatch:
The excessive rainfall has ceased and the farmers are battling with "General Green" with all their might and means. While they have checked him to a considerable extent, still he is not conquered by a jug full.

Cotton in this section of the county is somewhat drowned out and unless the seasons are very favorable hereafter the crop will be cut short. Corn is looking very well considering the unfavorable seasons.

Mrs. Eva Lilly, of Columbia, has been visiting Mr. R. W. Kleckley's family a few days.

Mr. G. B. Mathias has returned home from a business college in Augusta, Ga., having completed the business course.

The death angel visited the home of Mr. Solomon Roland on June 10th, and took from them Lee. The cause of his death was typhoid fever. He was buried at St. David's church. We extend to them our heartfelt sympathy.

Mr. and Mrs. James Dunning from near New Brookland, visited Mrs. Dunning's parents, Mr. and Mrs. J. B. Sox, on Sunday.

Misses Hattie and Bessie, the accomplished daughters of Captain P. H. Caughman, were the guests of Misses Mary Sox and Linnie and Maggie Corley last Sunday. We will welcome them again in our midst.

Mr. A. L. Cromer, who has been working for the firm of Meetez & Co., in Columbia, I am sorry to say, is home now with typhoid fever. I wish him a speed recovery.

Our friend, Mr. Alvin B. Roof, who has been travelling for some time, is again in our midst and is staying with his Uncle Benjamin Roof, near Oak Grove school house.

Mrs. Quiney Caughman, of your town, has been visiting her parents, Mr. and Mrs. J. E. Sox, for a few days.

Mr. John Kaminer and wife, of the Sandy Run section, have been visiting relatives and friends in this neighborhood.

What has become of the C. R. M. & S. show? Boys, don't give it up, for you will not succeed unless you try. I think they must be practicing on the sly to give us the finest "burnt cork" exhibition on record.

With the best wishes for the Dispatch and its Editor, I remain,
"Spruce."
June 27, 1901.

He Kept His Leg.

Twelve years ago J. W. Sullivan, of Hartford, Conn., scratched his leg with a rusty wire. Inflammation and blood poisoning set in. For two years he suffered intensely. Then the best doctors urged amputation, "but," he writes, "I used one bottle of Electric Bitters and 1 1/2 boxes of Bucklen's Arnica Salve and my leg was sound and well as ever." For eruptions, eczema, tetter, salt rheum, sores and all blood disorders Electric Bitters has no rival on earth. Try them. J. E. Kaufmann will guarantee satisfaction or refund money. Only 50 cents.

Benet Roasts Them.

Charleston Post.

Judge W. C. Benet, recently in the court of sessions for Charleston county, saw fit to say something further to the grand jury on the finding of no bills in dispensary cases.

The remarks were occasioned by the handing of several indictment for violation of the dispensary law. Judge Benet reminded the jury that in all the other indictments given the cases were thrown out, adding that the witnesses in the former cases were the same as in the present cases.

"If you believe that a State constable is not to be believed because he is a State constable, you are violating your consciences," he said. "A heavy responsibility rests upon you. All of you have taken the oath 'so help me God,' and I again adjure you to do your duty. Apply the same rule and standard in the dispensary cases as in the other cases. If you apply other rules I leave the matter with you and your God. Constables in other counties have furnished testimony to grand juries and true bills have been found."

"I am not pressing you, gentlemen, for true bills in these indictments. I

wish to God there was no ground for a true bill in Charleston. But there is a mass of evidence all around us. Young boys growing up see the law trampled on. The moral effect is fearful and will lead to something serious in other ways.

"I know not the witnesses, but by no means make up your minds not to return true bills because policemen and State constables furnish the evidence. There have been grand juries in Charleston who have done this. I speak from knowledge. I hope I am not speaking to such a grand jury. If the grand jury before us is a corrupt one, then God help Charleston."

Thousands Sent Into Exile.

Every year a large number of poor sufferers whose lungs are sore and racked with coughs are urged to go to another climate. But this is costly and not always sure. Don't be an exiled when Dr. King's New Discovery for Consumption will cure you at home. It's the most infallible medicine for coughs, colds and all throat and lung diseases on earth. The first dose brings relief. Astounding cures result from persistent use. Trial bottles free at J. E. Kaufmann's New Drug Store. Price 50c. and \$1. Every bottle guaranteed.

Superintendent of State Exhibits.

The following letter is self explanatory.

Hon. W. H. F. Rast, Commissioner Lexington county, Swannsea, S. C.

Dear Sir: I have been appointed Superintendent of State exhibit at the South Carolina Inter State and West Indian Exposition by the South Carolina commission, created by act of the last General Assembly.

I am now ready to begin the work of collecting the county exhibits, and ask your most earnest aid in this undertaking, for it is obligatory upon us to have this State's resources fully exhibited because this is "The South Carolina Exposition" and by its success or by its failure will be judged by the world.

Please permit me to urge that you personally begin now to solicit specimens for your county exhibit, for the time is passing for some items, especially sheep grain. The only expense a county will incur in making an exhibit is the collecting and loading into a car, or cars, and the arranging of the exhibit in the Palace of Agriculture.

I will meet with your board between now and the first of August to give you all the aid and information you may need. Can I count on your support? Very truly yours,

A. W. Love,
Superintendent State Exhibits.

Tried to Wreck a Train.

Orangeburg Times and Democrat, June 26.

An attempt was made on last Wednesday morning to wreck the through freight train and the passenger train on the Manchester and Augusta Railroad a few miles below Orangeburg. Several cross ties had been placed across the track and the freight struck them, damaging the engine considerably, it is said. Engineer Butler stopped his train and found several ties near the track. The train had knocked them aside. Passenger train 35 passing later had been notified of the attempted wrecking. When it passed the cross ties had been replaced on the track, but the train was stopped and the obstructions removed. The fellow who did this is badly in need of some hemp.

A Good Cough Medicine.

Many thousands have been restored to health and happiness by the use of Chamberlain's Cough Remedy. If afflicted with any throat or lung trouble, give it a trial for it is certain to prove beneficial. Coughs that have resisted all other treatment for years, have yielded to this remedy and perfect health been restored. Cases that seemed hopeless, the climate of famous health resorts failed to benefit, have been permanently cured by its use. For sale by J. E. Kaufmann.

It is said there are 63 cotton seed oil mills in the State. Of these 50 are independent and the others are under the control of the Southern Cotton Oil Company.

Smallpox in Brookland.

Columbia Evening Record.

Magistrate Corley, of Brookland, sent the following communication to The Record yesterday, and it would have been published had it not miscarried in the mails:

Editor The Record: I notice an article appeared in your issue of the 24th inst., "Compulsory Vaccination in Brookland." In reply to said article most say that it certainly is very annoying to the citizens of Brookland and vicinity to be so miserably misrepresented in this so called smallpox epidemic. We confess that when the disease first appeared in the form of mild chickenpox the board of health perhaps did not take steps at once that probably they should have. But soon as the disease got a little more severe, and the state board of health was notified of the fact, they sent health officers to investigate, and they pronounced the disease smallpox, and left instructions to stamp the disease out. The local board of health and the local physicians took up said instructions and carried them out as best they could, in which I think they have been very successful, as it appears that at the time the health officers were here, about six or seven weeks ago, there were about seventy-five or eighty cases in the town and a few outside the incorporation.

Since that time and during this last excitement of the last week, the disease has been reduced to not over six cases, the cases being in infested families. Today I am informed that there are not over four or five cases, and they are convalescing and will soon be out of any danger of communicating the disease to any one. The disease has been checked principally by quarantining infected houses and by rigidly enforcing fumigation as vaccination seems to have very little effect on the disease. Parties who have been recently vaccinated take the disease readily, and the vaccination takes readily on persons who have had the disease recently.

In reference to the disease outside of the incorporation, will say that the disease has been in only three families. As soon as it fully developed I telephoned the Governor and was instructed by him to do what I could to keep the disease from spreading. I had the families who had the disease quarantined and had the same precaution enforced as was carried out in the town by fumigating, etc. At present there is no indication of the disease spreading at all.

W. M. Corley, Magistrate,
Brookland, S. C., June 25, 1901.

Heartburn.

When the quantity of food taken is too large or the quality too rich, heartburn is likely to follow, and especially so if the digestion has been weakened by constipation. Eat slowly and not too freely of easily digested food. Masticate the food thoroughly. Let six hours elapse between meals and when you feel a fullness and weight in the region of the stomach after eating, indicating that you have eaten too much, take one of Chamberlain's Stomach and Liver Tablets and the heartburn may be avoided. For sale by J. E. Kaufmann.

"Texas Siftings."

To the Editor of the Dispatch:
It may interest some of your readers for me to give a few items from Texas.

The State of Texas, as is well known, is the adopted home of many South Carolinians. I have met some of them since my arrival here. Messrs. Jim and Henry Bouknight, formerly of Saluda county, are in business in Cameron. It was a real pleasure to meet them and learn of their success. Jim is rejoicing over his first baby girl.

Mrs. Christina Whites, nee Christina Shealy, formerly of Spring Hill, Lexington county, is in Cameron also. She lives with her youngest daughter, Mrs. Nora Ruby. Mrs. Whites, though 80 years old, is cheerful and with the exception of rheumatism enjoys good health. Recollections of the days gone by in South Carolina are among her cherished things, and the names of the Earle, Drabers, et al. are fresh in her memory. A call

at their pleasant home was much enjoyed by this writer.

Farmers here are suspended between hope and fear. Cotton has been attacked by two insect pest. One is known as the boll weevil and other the sharpshooter. They both attack the square wherein they deposit their egg, causing the square to drop off. The farmers are spraying their cotton with poison in the hope of destroying these pests. Corn is beginning to suffer from dry weather. Where it was planted early it is safe and fine.

The lands in this portion of Texas are good but the water is poor. Church and educational work receives a liberal share of attention here as it should everywhere.

J. E. Cameron, Texas, June 24, 1901.

Food Changed to Poison.

Putrefying food in the intestines produce effects like those of arsenic, but Dr. King's New Life Pills expel the poison from clogged bowels, gently, easily but surely, curing constipation, biliousness, sick headache, fevers all liver, kidney and bowel trouble. Only 25c. at J. E. Kaufmann's New Drug Store.

Points for Growing Girls.

Some one has suggested fifteen things that every girl can learn before she is fifteen years of age. Not every one can learn to play or sing or paint well enough to give pleasure to her friends, but the following "accomplishments" are within everybody's reach:

Shut the door and shut it softly.
Keep your own room in tasteful order.
Have an hour for rising and rise.
Learn to make bread as well as cake.
Never let a button stay off twenty-four hours.
Always know where your things are.
Never let a day pass without doing something to make somebody comfortable.
Never come to breakfast without a collar.
Never go about with your shoes unbuttoned.
Speak clearly enough for everybody to understand.
Never fidget or bum, so as to disturb others.
Never fuss or fret, or fidget.—Ex.

Don't Let Them Suffer.

Often children are tortured with itching and burning eczema and other skin diseases but Bucklen's Arnica Salve heals the raw sores, expels inflammation, leaves the skin without a scar. Clean, fragrant, cheap, there's no salve on earth as good. Try it. Cure guaranteed. Only 25c. at J. E. Kaufmann's New Drug Store.

To Birmingham and Return.

On account of the National Grand Temple, Masonic Templars of America, at Birmingham, Ala., July 30-August 4th, the Southern Railway announces rate of one first class fare for the round trip from all points on its lines to Birmingham, Ala., and return.

Tickets to be sold July 28, 29 and 30, final limit August 6, 1901. For detailed information call on or address any agent of the Southern Railway or connections.

W. H. Taylor,
Assistant Pass. Agt., Atlanta, Ga.

It is dangerous business to "monkey" with Texas Justice. Sometime ago a man named Dent forged a pardon and therewith secured the liberation of a life convict. He received \$10,000 for the forgery. When the trick was discovered, Dent was arrested, tried and convicted and sentenced to serve the sentence of the man he liberated—the term of his natural life. The matter was taken to the supreme court, which the other day decided that the sentence upon Dent was legal.

Wanted.

Trustworthy men and women to travel and advertise for old established house of solid financial standing. Salary \$750 a year and expenses, all payable in cash. No canvassing required. Give references and enclose self addressed stamped envelope. Address Manager, 355 Caxton Bldg, Chicago. 51
