How To Keep A Hen From Eating Her Own Eggs
In the current issue of Farm and Fireside is a department entitled "The Headwork Shop" in which are published all sorts of practical suggestions to farmers. The following is one of the suggestions:
"To prevent hens from eating their eggs, arrange a false bottom in the nest, through which the egg will roll slowly out of sight when laid. There are several ways of doing this. By making the nests dark, the formation of this habit will be prevented."

Avoid Sedative Cough Medicines.
If you want to contribute directly to the occurrences of capillary bronchitis and pneumonia use cough medicines that contain codine, morphine, heroin and other sedatives when you have a cough or cold. An expectorant like Chamberlain's Cough Remedy is what is needed. That cleans out the culture beds of breeding places for the germs of pneumonia and other germ diseases. This is why pneumonia never results from a cold when Chamberlain's Cough Remedy is used. It has a world wide reputation for its cures. It contains no morphine or other sedative. Chronic Dyspepsia.
The following unsolicited testimonial should certainly be sufficient to give hope and courage to persons afflicted with chronic dyspepsia: "I have been a chronic dyspeptic for years, and of all the medicine I have taken, Chamberlain's Tablets have done me more good than anything else," says W. G. Mattison, No. 7 Sherman St., Hornellsville, N. Y. Sold by All Dealers.
When the republicans came out openly for Woodrow Wilson, it almost makes us overconfident.

A Marvelous Escape.
"My little boy had a marvelous escape," writes P. F. Bastians of Prince Albert, Cape of Good Hope. "It occurred in the middle of the night. He got a very severe attack of croup. As luck would have it, I had a large bottle of Chamberlain's Cough Remedy in the house. After following the directions for an hour and twenty minutes he was through all danger." Sold by All Dealers.

COTTON SEED
I am taking orders for a limited number of bushels of fine cotton seed, this fall.
To introduce "UNCLE SAM" seed I am allowed to make exceptionally good prices this fall, and as I saw the cotton growing and know that the seed will please, I make the following proposition: Plant this brand of cotton beside any other seed of the same price, give them the same culture, the same fertilizer, and if in the fall in the opinion of the Government Demonstrator, the seed bought from me, do not produce a better grade of cotton and more of it your money will be refunded.
According to the Government Reports, of which I will be glad to secure you a copy on application, "UNCLE SAM" cotton produced the largest yield of seed cotton, and the largest per cent. of lint of thirty-five varieties tested at the station.
I will deliver at Lexington, single bushels for \$2, five bushels, for \$8, and all over five bushels at \$1.50 per bushel.
Terms: One half cash with order and balance with delivery of seed.
I will be glad to show actual photographs of cotton grown this year, and samples of this year's seed to any one who will call on me in Lexington.
