mens. CLUB MEETING .- The regular weekly meeting of the Town Club was held on Saturday afternoon last at three o'clock, and reports from vice presidents were read, showing an active zeal in the work; and a prosperous condition of the Reform movement. By invitation several of the leading colored members of the league were present, to whom was read the constitution governing the township society, as well as that of the county Association, the platforms of which are peace, and the object in view the success of the reform party; to which they listened with attentive respect. After a patient sitting of perhaps an hour, listening to the debates on matters concerning the society, they left quietly, and we are confident satisfied that the Reform movement is not so bad as has been represented to them. It is well that the doors of the society are thrown open, that all may

have the privilege of seeing and hearing. Apart from the routine business, an amendment to article six of the Constitution was passed, providing for the election of alternates to the District Society.

WICKED ACT .- Last week a few specimens of those very delicious, pound peaches, the same species of which the Columbia papers had occasion to be thankful for, came very near reaching our table; they did not, however, for the reason, that Esquire T. It is brimful of great, such peaches do not often fall info the Squire's hands, but still we are shocked at his wickedness. Had he even sent us a seed to plant, it would have modified the matter, but he did not. And then to imagine himself a bet er man! We may in time forgive the loss of the peaches, but not the injury to our reputation. He who steals our purse, steals trash, but he who takes from ns our fair name, and peaches too, would rob a baby of its stick of candy. The peaches alluded to, and which were sent by Mr. Henry Beard, of Columbia, were, as we learn, the largest ever seen, and of most delicious flavor, and we thank him heartily

RADICAL SPEAKING .- On Tuesday afternoon of last week, the radicals had speaking here by Ransier, Elliott, Hoge and Cardoza. The meeting was nothing like as largely attended by colored people as was the occasion were made up of stale and unprofitable platigetting what manner of role they had assumed, waited not for the order of their going but went at once into smut. An attempt was made to refute certain damaging charges brought against the ring, but here, too, Othelio forgot his occupation, and flew the track at the very start.

One of the features of all to political gatherings of the colored people now is the bristling bayonet, and another feature is the large and constant attendance of women.

A colored girl was heard to exclaim-"jus want dat man to come to Newberry one timemore and make a speech. Den 'e fix ebry ting straight." We learn that a colored boy was heard to say that all at the age of 18-Charleston, for a bottle of Panknin's Patent votes next election, and after election the white people are to be driven away. Another, an old granny, was tickled almost to death at the idea of being waited upon by the white people, soon as the election is over. Wonder what charming young "buckra" she has in her mind's eve for kitchen girl. About 10 o'clock, several hundred people having already assembled, Mr. J. M. Calmes telling who he was, where from, his stand-

ing in society. &c. The speaker rose and in a graceful manner said that he was glad that Mr. Calmes had introduced him so appropriately, for we had been so accustomed of late to be addressed by those we had never seen before, and whose characters were altogether unknown among as before their coming, that be thought it very appropriate to tell something of a man's character in introducing him to an audience, for then we could have the more reason to put confidence in his remarks. After these introductory remarks, the orator set out in elequent strains, showing the colored people how much Scott had deceived them in not verifying his promises to them in reference to education, and other impor-

tant matters. After him the Rev. Jonas Byrd was introduced, who, in his persuasive eloquence, directed his remarks to his "Brethren," making a great impression upon them. Several were heard to say, "We have been in the dark,

DO TELL us the truth."

The reverend gentleman was followed by I. M. Calmes in a graceful but brief speech. This gentleman, from his political course in the presidential campaign, and fervent integrity to the views he has ever entertained, has the entire confidence of the colored people. When he prose to address them, they gathered as near as possible and gave him a

most attentive hearing. He was followed by the Rev. Mr. Tucker, who in a brief but telling manner exposed the party in power. He asked one question which certainly made an impression, viz: had they (the negroes) ever known a radical physician to come among them for the pur-

pose of practicing on their sick? After the speaking had closed, the people retired to the table to partake of the elegantly prepared mutton and pork. The colored people had an equal share in everything, half the seats at the stand, and as long a table,

and as bountifully served as the whites. After all had been served the people re turned to the stand for the purpose of organ-

izing a Reform Society, for the Cromer Township. On motion Wm. Ray was called to the

chair, and John Duckett requested to act as

Secretary. The Constitution of the Reform Society, of Newberry, was read and adopted. On motion Rev. G. B. Tucker was unanis
