

# NO MORE.

There is a time for tears to start,  
There is a time for tears to stop,  
We live to love, we meet to part,  
And part to meet on earth no more,  
We clasp each other to the heart,  
And part to meet on earth no more.

The Medical Press and Circular  
calls attention to the apathy or indifference which exists in country places of having the damp, sepulchral air of churches, locked up during the six days of the week, improved by heating before the congregation assembles. It is well known that persons predisposed to thoracic affections suffer severely by sitting in cold churches throughout the morning service. All that can be said is, that when the temperature and condition of the atmosphere of churches is neglected, it is an essential of great moment overlooked, and that persons coming to worship are thereby made to suffer, not through inattention on their part, but owing to utter carelessness on the side of those who should know better.

Here is something melancholy indeed. In Jasper county, Indiana, an ancient matron of 75 desires to be released from her husband, aged 78 years. It is a pretty way indeed to celebrate a golden wedding thus to fling his sullen fetters in the face of Hymen. If this Indiana pair would only have patience, there is a grim old character by the name of Death who will assuredly divorce them speedily, and just as thoroughly as any law court in the world. How glad we are that John Anderson my Jo John didn't live in the State of Indiana. Mrs. Anderson would unquestionably have filed her bill and we should have lost the prettiest of Scotch ballads.

To Remove Furniture.—Oiled furniture that has been scratched or marked may be restored to its original beauty, simply by rubbing boiled linseed oil, used by the painters, on the surface with a rag of wooden rags. Varnished furniture dulled may be similarly restored by the use of a varnish composed of shellac dissolved in alcohol, applied in a similar manner. Common beeswax rubbed over furniture and heated by the friction of a woollen duff bristly used, is also an excellent furniture polish.

A Hint.—To all persons who use kerosene lamps, we would mention that if the wicks are soaked in strong vinegar for twenty-four hours and thoroughly dried before being used, all smoke will be avoided, the wicks will last twice as long and increased brilliancy will be obtained. Try it.

A Vermont girl wants to know if the woman's rights movement includes the right to do the courting. If it does, she is in for it, as the men in her vicinity are very bashful. There is something practical in that.

Gen. Prim died on the night of the 29th of December from the wounds received in the recent attempt at his assassination. His death produced a profound sensation at Madrid, and indignation everywhere. The information obtained from papers seized shows that for the assassination of Prim the conspiracy was extensive. The members were sworn to exterminate the enemies of the Republic. The murder of Prim was opposed by some on the ground that nothing should be attempted until the arrival of the Duke of Aosta, but the advocates of immediate action prevailed. Letters were drawn for three persons to undertake the killing of Prim. It is said that the ministry of war are in possession of proof identifying the actual assassins, but have not yet succeeded in making their arrests.

Col. C. K. Smith, of Ohio, died at Columbus on Sunday, of hemorrhage of the lungs. Col. Smith was brother of Capt. Jesse Smith, School Commissioner of Newberry County, and has been in the State but a few months with the view of recuperating his health, which has been gradually failing since the close of the war. He was well known in Charleston, and had many friends here, all of whom deeply regret his early death. The remains will be taken to Hamilton, Ohio, for interment.

Paris advances at Bordeaux show that there is intense excitement among the populace, who demand a grand strike. A number of the Mayors of the city called upon General Trochu, and invited him to give way to this desire of the people. Some of the Paris journals accuse Trochu of feebleness, and a number of the Bordeaux newspapers, in noting this expression of opinion, appear to coincide in it.

The Californians are the greatest coffee drinkers in the world, the average yearly consumption in that State being 19.3 pounds, while the average in the United States is only 7 pounds. The average consumption of coffee in the State is ten gallons to every citizen, and the amount of whisky is beyond computation.

# THE COTTON STATES Life Insurance Company.

AT  
MACON, GEORGIA.  
THE business of this Company is confined to life insurance, and it is the policy of the Company to issue policies on all the approved mutual plans.  
The kind of the premium on its policies will always be the lowest, and the amount of insurance for a smaller amount of cash, will interest the insured on these terms only for the first year's term.  
The profits of dividends will constantly pay off the loans, and the value of the stock of insurance to those who have only small surplus funds.  
This credit is given by one other Company only, doing business here.  
The security of money in the South, it is believed, is nowhere so good as in the management of this Company of course capital cash, when the party insuring is able or willing to pay it. There is another feature in the operations of this Company that the attention of parties seeking insurance is particularly called to, viz, a surrender value. There is no Company doing business here (Carolina Life) besides Cotton States, which gives a surrender value.  
When circumstances render it necessary for one to abandon his policy, it will only be necessary to turn in the policy, and the amount of money paid, in case of a surrender, but not to be paid until they die.  
Is this just?  
Under the Cotton States Life Insurance Company's policy, the insured can surrender the amount of money paid, in case of a surrender, but not to be paid until they die.  
Is this just?  
Under the Cotton States Life Insurance Company's policy, the insured can surrender the amount of money paid, in case of a surrender, but not to be paid until they die.

Most other Companies give their insured a paid up policy and a valuable portion of the amount of money paid, in case of a surrender, but not to be paid until they die.  
Is this just?

# WIND FERTILIZER.

The experiments of the past year have confirmed those of former years, and established beyond all controversy, the great value of this fertilizer. The undersigned are the Agents at Newberry, and will furnish any quantity needed by the planters of this section. They also have a great number of small pamphlets containing testimonials of many of the best farmers, while the average in the United States is only 7 pounds. The average consumption of coffee in the State is ten gallons to every citizen, and the amount of whisky is beyond computation.

# MONITOR PLOW.

THE BEST PLOW IN USE!  
IMPOSSIBLE TO CHOKE.  
IN THIS PLOW THE FARMERS HAVE THREE INVALUABLE IMPLEMENTS AT THE PRICE OF ONE  
PLOW, ROW OPENER AND  
GOUTLER.  
What Mr. Stringfellow, of Chester, S. C., writes:  
"I thought the first Monitor Plow that came in this section, and cannot now do without them."  
What Mr. Ellis, of Griffin, Geo., says:  
"Messrs. PALMER & TURNER—I received through Mr. R. P. Johnson, of Griffin, one of your Monitor Plows, which I regard as a decided improvement over any Plow I have ever seen or used, and I regard it as most admirably adapted to the cultivation of the soil of the South, and most cordially recommend them to the Southern Planter, as the best and cheapest plow yet offered them."  
JAMES T. ELLIS.  
What Mr. Rabb, of Winnsboro', S. C., says:  
"Messrs. PALMER & TURNER—I have already spoken in favorable terms of your Monitor Plow, but I must be permitted again to express my high appreciation of its merits. I tried it a few days since on a very long, heavy clay lot, which I was apprehensive I could not plow, and to my surprise it did what no other Plow could have done, going into it and turning it up as before my expectations."  
W. S. RABB.  
Ask the nearest dealer for Catalogue, and to show you the Plow.

# DR. TUTT'S EXPECTORANT

FOR  
Coughs, Colds, &c.  
For the Speedy Relief  
AND PERMANENT CURE OF  
CONSUMPTION,  
BRONCHITIS,  
ASTHMA, COLDS,  
AND ALL AFFECTIONS OF THE  
Lungs, Chest, or Throat!  
THE EXPECTORANT is composed exclusively of Herbs and Mucilaginous products, which  
Permeate the very Substance of the Lungs, causing them to throw off the acid matter which collects in the bronchial tubes, and at the same time it mucus-producing coating, relieving the irritation, and hastening the circulation of the blood, so that it is nourished and strengthened when it has become impaired and enfeebled by disease. It restores and invigorates the circulation of the blood, and it strengthens the nervous organization. The EXPECTORANT does this to an astonishing degree. It is active but mild and congenial, imparting medicinal energy and natural strength. It affords oxygen to the blood, and nitrogen to assimilate the matter.  
It equalizes the "nervous influence," producing quiet and composure.  
TO CONSUMPTIVES  
It is invaluable as it immediately relieves the difficult breathing and harassing cough which attends that disease.  
FOR ASTHMA  
It is a specific—one dose often relieving the distressing choking, and producing calm and pleasant repose.  
FOR CROUP  
No mother should ever be without a bottle of the EXPECTORANT in the house. We have numerous certificates of having relieved, almost instantly, the little sufferer, whose death appeared almost inevitable.  
MOTHERS BE ADVISED!  
Keep it on hand!  
BUT BEWARE OF IMITATIONS!  
The properties of the EXPECTORANT are so different from all other mucus-producing and expectorant preparations, that it is easily detected.  
IT EXHILARATES AND RELIEVES GLOOMINESS AND DEPRESSION.  
Containing all these qualities in a convenient and concentrated form it has proven to be the most valuable Lung Balm ever offered to sufferers from Pulmonary disease.  
Prepared by  
WM. H. TUTT & LAND,  
AUGUSTA, GA.  
Sold by Druggists everywhere.

MOST PERFECT.  
Natural, Artificial help to the human eye ever known.  
They are ground under the most perfect supervision, from minute Crystal Pebbles, melted together, and divide their name, "Diamond," on account of their hardness and brilliancy.  
The Scientific Principle  
On which they are constructed brings the core or centre of the lens directly in front of the eye, producing a clear and distinct vision, as in the natural, healthy sight, and preventing all unpleasant sensations such as glimmering and wavering of sight, dizziness, &c., peculiar to all others in use.  
They are Mounted in the Finest Manner, in frames of the best quality, of all materials used for that purpose.  
Their Finish and Durability  
CANNOT BE SURPASSED.  
CAUTION.—None genuine unless bearing their trade mark stamped on every frame.  
J. W. MONTGOMERY,  
Jeweler and Optician, is sole agent for  
NEWBERRY, S. C.,  
From whom they are to be obtained. These goods are not supplied to Pedlars, at any price. Oct. 5, 40-1y.
