The State Convention.

To-morrow meets the Democratic State Convention. The delegates are sent to elect representatives to the National Nominating Convention at St. Louis. In an article of the most scathing nvective and an exceedingly clear and convincing statement of all the corrupt practices of the present National Government in its different branches, the New York Sun expresses its decided opinion that the nation cannot be saved without the utter destruction of the Republican party. There is a very skillful summing up of the facts, from which it appears to the clear eyes of the Sun that reform from within is impossible. We only have space to insert the concluding paragraph:

Yet with all these developments and others which are sure to come, the surface has barely been scratched. The bottom facts cannot possibly be reached and the whole truth known until this Administration is driven root and branch out of power and the Republican party is crushed into powder. The two are inseparably connected together, in spite of any personal antag onisms which may exist, or the indi vidual purity of some leaders and many followers. Corruption has so spread through the whole machinery | M. has been fixed as the time for asof Government that reform is impracticable without new heads and new hands. Thrilling Adventure (With a Maniac.

It was in the Spring of 187-, that the following incident occurred, the exact time, locality and the name of the principal actor being withheld. In the lively town of the young people had for some days been on tip toe in preparing for a masked party or ball. It was to be a grand affair, nothing half way, but in every particular the chief end aimed at was success. It was to be on a large scale too, and invitations, therefore, were not limited to the immediate section in which the ball was to be given. The gay. lively and beautiful were invited from far and near. The evening arrived, and though not given to the indulgence of light fantastic toe exercise, the pleasure of witnessing the gay assemblage could not be resisted and we entered the hall and became a looker on. We will not attempt a description of the various masked characters, suffice it there was the usual complement, and the dance commenced merrily, the dancers in blissful ignorance, except in a few instances, as to who this or that masked figure could be. No one thought of anything else than pleasure, least of all did we have an idea that the light laughter would ere long be succeeded by shricks of horror, or that faces wreathed in smiles would soon be blanched with terror. Alas! how often do we stand upon mines

dy, played as never men did before. It was about eleven o'clock perhaps when there was a slight commotion at the door, and all eyes were turned in that direction. A new figure was on the point of entering, his unusual height, peculiarity of costume and a belt around his waist, filled with long, keen, glittering knives attracting general attention as he strode into the centre of the hall and stood for a moment, as it were, inviting scrutiny. An unaccountable feeling of dread, that some terrible denouement would follow the appearance of this unknown late comer, took possession of us; we could not shake it off, and spell-bound we followed his every motion with intense interest. Whether this feeling of uneasiness was experienced by others we know not, anyhow the dancing soon recommenced and apparently the unknown was forgotten by the happy party. But soon the scene shifted, the first act

was over, a change had come over the spirit

of the dream, light comedy had turned into

heavy tragedy, the entrancing music had

died out in a wail, the nimble feet of the dancers were still and rigid as if hewn from solid marble, and scores of terror-stricken eyes were turned to the far corner of the hall, where could be seen the unknown with mask stripped from his face and body almost denuded of clothing, brandishing a huge knife in each hand and giving vent to fearful in Washington, and the Treasury cash | war-whoops, all the while leaping and dancing in a perfect state of phrenzy. It took but a moment to see that he was mad-mad as a March hare, and intended mischief. As he turned his face full upon ours, we recognized in him an old acquaintance, or friend, and called him by name-George. At the sound of his name his violent gestures ceased, and believing that we had the power to control and lead him out, and thus save an effusion of blood, we moved toward him. but it must be confessed, in terror, and with hairs which stood on end like porcupine quills. He suffered as to approach and touch him, and finally to lead him to the door and outside, the appalled crowd falling back and hugging the walls affrighted. It was our hope that some of the boldest and strongest of the men would follow, and at a convenient time rush up behind and pinion the maniac. It was a vain hope-no one followed. In the meantime we walked on, and although his phrenzy did not return, it was apparent that we were in imminent peril, for he seemed possessed with the idea that his keen-pointed knives were harmless, and he drew them across our hands and face with such horrible nearness that we could feel the touch. One of his knives fell to the ground, and unobserved as we thought, we endeavored to throw it over a fence close by. But his sharp, restless eves saw the attempt and he at once jumped to the conclusion that we were playing him false. Fancy our feelings then when he made a spring at us, and clutching our throat commenced again his demoniac war dance, brandishing a horrible, keen-bladed knife in our face. It was a supreme moment-where were the strong arms to pinion the monster -would help come-were we to be butchered? Oh, horror! We tried to grapple with him and throw him off-an infant might as well have attempted to throw off a giant. Every moment seemed an age, and growing weaker and weaker we felt that it would soon be over, unless something could be done. So summoning all our remaining strength, we made one mighty, powerful effort to free ourself from his grasp and-woke. We had been

But the Republican party allows all to vote, regardless of property or education. So we are at a loss to know the exact difference between the two parties as regards platform and principle We know what is understood by the Democratic party in South Caralina, it is the white people; and we treated in our other article the two names as synonymous. So if by Democrat we mean white, what is this white or Democratic platform that every man must publicly avow his adherence to before he can be "nominated as a candidate." same platform, and made the same piedges. Who made greater pretensions to reform, to model ex-Governor, F. J. Moses, Jr., while he was a candidate? "Promises like pie crust are made to be broken." (I wish knew the Latin for this "refreshing- adage," then I would write it in Latin, the country people would understand it better you know.) But enough of this at present. We will await a full explanation of these much vexed questions by some one that knows, and watch with interest the proceedings of the State Democratic Convention, as everything depends upon what action is taken by that

The acceptance is on our lips, perhaps, but it has never taken root in our hearts. We likewise adhere to the old, time-honored practice of party organization; we have imbibed it when we were little chaps, and it has become part of our constitution-impossible to get rid of May 3,18-1t. It is well known that the members of Democratic clubs are greatly outnumbered by the non-republican citizens who expect to vote the Democratic party-slaves by just such resolutions, will support the Democratic nominees

Yet this very element of success is deliberately slapped in the face-"no name is not on the roll of some Demoparty and its platform"-whatever that may be. If by such means it is the club, except by the addition of a few office-seekers, human nature must in their heads that as they were so utterly ignored they might be justified in ignoring the club ticket. These doings are, no doubt, all in accordance with strict party politics, but these old not suit the present situation, and are destined to insure defeat, and we halfway feel it. Hughlitt's lyory Wheat!

MAKE MONEY AND BENEFIT YOUR

NEIGHBOR. DEAR SIR: Allow me to call your attention to a new kind of Spring Wheat that will yield from eighty to a hundred bushels per

cre. This wheat was grown in Africa, and has seen grown in the United States with unper-Heled success for two years. The grain of this wheat is small, plump and heavy, of a whitish color, and weighs 70 pounds to the measured bushel. Its growth is quite different from all other grades of wheat, one being sufficient to plant an acre. One dred grains of the seed is sufficient for any farmer to plant, in order to obtain an abun-

dance of seed for twenty to forty acres the ollowing year. Its great value consists:

1. In its abundant yield. 2. In its flour qualities. 3. In the quality of bread made from its flour, being equal to that made from the best white wheat.

4. In its great yield of flour. 5. In the facility in which it is harvested. 6. In its making a good yield on any kind

not liable to rust. 8. In its being easily threshed on our com mon threshers.
