The necessity for life insurance was never so great as at present. The poverty of our people is a strong argument to induce them to husband their resources to make provision for the necessities of their wives and children, and by no means can one so effectually make the provision as by a policy of life insurance in a strong and reliable and well tested company. Such a company we have in the Piedmont and Arlington. It has conducted its business in this State for nine years, and secured a larger business than any other company in the South. It meets its claims promptly; it invests its assets in sound securities; and altogether conducts its business upon plans ascertained by long experience to be sound and equitable. (eow)

THE China, Glass and Crockery Store of Messrs. Kingsland & Heath, of Columbia, is in keeping with the times—goods at prices cheaper than ever before, and now is the time for the thrifty housekeeper to lay in her stock of such things as are indispensable for use. Their stock is kept full of everything in their varied line, and every novelty is added as fast as it comes out and is proved worthy of being offered to the public. Orders accompanied with cash promptly attended to, and visitors to the city cordially invited to call in and examine. Store under Columbia Hotel. 16—tf.

EARLY.—Mr. R. L. Luther, of Prosperity, laid on our table Saturday last a few potatoes, Early Rose variety, about the size of a guinea egg. They are the first that we have heard of.

Friend Foot has always held a high place in our estimation, having long ago been ranked as a "good brick," and we now find that in connection with Mr. Fowles he is going into the manipulation of bricks. We don't know any two men better qualified. They will also keep the market supplied with fresh ground meal—not made of brick dust.

WANTED OVER HERE.—How they do things in New York was shown during Messrs. Moody and Sankey's late revival meeting, in which a collection was taken up in one afternoon and evening amounting to $200.000. Oh, for a Moody and Sankey in Newberry, to help out the official members of the various churches. They would feel like "Holding the Fort" till the end.

TRANSFERS OF REAL ESTATE.—
Mary Y. Garlington and G. F. Young, to Martha Massabrant and Eliza Ferguson, 300 acres, $1,420.10.

B. H. Mathews to W. H. Whitmire, 143 acres, $775.

YOUNG MEN'S C. A.—A highly interesting meeting was held by the Young Mens' Christian Association, at Temperance Hall, on Sunday afternoon last. After a voluntary hymn was sung, the regular exercises were commenced by Mr. Walter Hodges, with singing and prayer, followed by an appropriate exhortation, after which singing and prayer occupied the hour till the close. The next meeting will be held at the same time and place, and will be conducted by Mr. Robert Leavell. We were pleased to see so large an attendance of ladies and gentlemen, and of all ages, and particularly that there were so many young persons out, who by their recognition of and sympathy with the object of this Association, give earnest evidence that the christian young men of Newberry will do a good work. We wish them God speed. The following are the officers: L. C. Moore, President; W. W. Hodges, Vice-President; A. C. Jones, Secretary; J. E. Chapman, Treasurer.

TO CORRESPONDENTS.—We respectfully urge our correspondents, and particularly 'Countryman,' 'One of the People,' and 'Pomaria,' and any others who may feel inclined to enter the list to write concisely. Short articles are decidedly more interesting to the general reader than lengthy ones, and carry more weight, and besides what is of great moment to us give more space for other matters of equal interest to our readers. While we are willing and glad to hear from any and all, yet we must beg our correspondents to condense their thoughts so as not to exclude other interests.

A large assortment of the celebrated Charlottesville (Virginia) Cassimeres in all of the different styles, just received at

BIBLE SOCIETY.—The Newberry District Bible Society held its meeting on Sunday night in the Methodist Church. The following officers were elected for the ensuing year: President, Rev. R. A. Fair; Vice-President, Rev. H. W. Kuhns; Secretary and Treasurer, Mr. J. A. Chapman. Executive Committee—Messrs. T. S. Moorman, J. O. Peoples, O. L. Schumpert, J. N. Martin and J. R. Leavell. It was wisely determined that the next meeting of the Society be held at 3 o'clock on the afternoon of the day which may hereafter be designated, and not as heretofore at night and after a regular church service, a plan which has very seriously militated against the interests of the Society.

PERSONAL.—The Rev. E. R. Miles, on the way to his home in Camden, paid his old charge a visit last week. He was gladly received, and discovered with pleasure that the congregation of St. Luke's, as well as the citizens of Newberry generally, held him in lively remembrance.

Col. Whitfield Walker, who for some time has been on a visit to his old home in Newberry, departed for Florida on last Wednesday where he has located. Our best wishes attend him.

Mr. B. H. Lovelace and family have gone to Spartanburg, where they will summer it. We trust that they may have a good time.

Lieut. Miller, formerly garrisoned in Newberry, passed through a few days ago in company with his wife, after enjoying the Moultrie Fair at Charleston. They did not stop over.

The Scriptures say that Naaman would not believe when told that to be cured of leprosy, he had only to bathe in the river Jordan. His unbelief brought days of suffering upon him, as it does upon those who delay taking MERRELL'S HEPATINE for the Liver. When the skin and eyes become yellow in the spring season, with pain in the head and bones of the body, and a heavy feeling about the stomach after meals, there is but one chance to escape. Sickness of some sort is sure to come, unless the bile and bad blood is carried out of the system. Go to your druggist, Dr. S. F. Fant, and get a bottle of MERRELL'S HEPATINE, that cures all diseases of the liver. 16—5t.

SUNDAY SCHOOL CELEBRATION.—On Saturday and Sunday last the New Chapel congregation, which embraces one of the best sections in this County, had an interesting and very profitable Sunday School Celebration, and which we regret being prevented from attending by reason of indisposition. We learn from the Rev. Coke Smith, who attended and who made a short address, that it was a very happy affair. The Rev. M. H. Poozer of the Edgefield circuit also made an appropriate address. The superintendent of this school, Mr. Pettus Boyd, is a worthy son of a worthy sire, the Rev. M. M. Boyd, who has contributed largely to the church which he loves and which he has so long labored for. It is always pleasant to hear from New Chapel Church and its happy neighborhood, and especially now to hear that the Sunday School is in a prosperous and growing condition, much of which may be attributed to the sweet singing of Miss Mattie B., and the bright examples of the many Christian families in that remarkable neighborhood. With such people the church will always be in a progressive state.

VOUCHED FOR.—Mr. Jack Henderson—everybody hereabouts knows Jack—told us a remarkable tale of a dog the other evening, which he desired printed for the benefit of mankind as well as the canine species. A Mr. Gist purchased a hound dog from a man in Simsville, Union County, and took him by rail and water to Florida, somewhere in the neighborhood of Ocala. He kept him there a month, when he and the hound one morning took a deer hunt, which was kept up until 10 o'clock of that day. At this time the deer was found and killed, but the dog was lost. Mr. Gist supposed the animal had either been swallowed by an alligator in some one of the numerous bayous which abound in that region, had been stung to death by gallinippers, or had run out of his hide and was ashamed to present himself in that naked condition. He mourned the hound as lost. His tears were shed, however, without cause. none of these things happened to the dog, for four days after, as it was proved on comparing notes, the first owner—the Simsville man—on going out in the morning found the hound standing without as had been his old custom. He had travelled across country without any other compass than his nose, or rudder than his tail, as near as Jack could compute it, eight hundred miles, and reached his former home inside of four days. Though this happened before the war, Jack thinks it no reason why it should not be published. If the dog were alive we would insist on his being produced and asked what he knows about it. Alas! however, he is dead. For further information inquire of Jack.

NO HALF WAY MEASURE.—Mr. C. F. Jackson, the popular dry goods dealer of Columbia, is not a man to do things in a small way, and recognizing the necessities of the public in the hard times which are upon us, he offers his entire stock, new and old, at reduced prices. Surely the public can ask no more, satisfied that he has done all that can be expected of him. His stock is very complete in staple and fancy goods. Send for samples.

AT NEW YORK COST!
I will sell, for the next twenty days, my stock of Watches, Clocks, Jewelry, &c., at cost, for cash only. Now is your time to get bargains in my line. All persons who have work in my store for repairs must call, pay charges and take it away by the 20th of May, otherwise it will be sold for the repairs.
1t. JOHN F. SPECK.

COURT.—The Court of General Sessions convened on Monday, Judge Northrop presiding, and Solicitor Fleming in attendance. His Honor's charge to the Grand Jury was clear and comprehensive, and indicative of his purpose to push the work of the session in a business like manner, and we take occasion to compliment him on the favorable impression already created. True bills have been handed in in the case of the State vs. George Washington for burglary, and in the case of the State vs. Jacob H. Boozer for obstructing the public road. This latter case was the first called and is now before the Court, and is one which excites a good deal of interest. The State is represented by Solicitor Fleming and Maj. J. M. Baxter, the defence by Col. Y. J. Pope and Geo. S. Mower, Esq. The Pomaria murder and arson case will probably come up on next Tuesday. From what we can see and from information gathered, our new Judge means business, and that he will not suffer valuable time to be lost.

OFFICE OF COMPTROLLER-GENERAL,
Columbia, S. C., April 28, 1876.

The County Treasurers in the several Counties in the State are hereby notified that by virtue of Section 4 of the Act approved April 13th, 1876, all taxes due and uncollected for any and all years preceding the present fiscal year may be paid in Bills of the Bank of the State, "which shall have been proved, stamped, or found genuine." Tax Payers who have, prior to the present fiscal year, made tender of these Bills in payment of their taxes, either for State or County, will be allowed until the 16th May, 1876, in which time to pay in the Bills without penalty. After this time the delinquent property, if real estate, for which Bills of the Bank of the State have heretofore been tendered, will be advertised and sold on June 5th, 1876, as other delinquent property of 1875, and then can be redeemed as forfeited lands prior to November 1, 1876, according to Section 1 of above named Act. Personal property, for which a similar tender was made, will be proceeded against by execution.

County Treasurers will give prompt notice to Tax Payers to bring in all Bills heretofore tendered.

Respectfully, etc.,
THOMAS C. DUNN,
Comptroller-General S. C.

ROSEMONT CEMETERY.—We are glad to learn from Mr. Robert McCaughrin that a neat and appropriate summer house will soon be erected in Rosemont Cemetery, and that wells are also to be dug. Both of these are felt wants and when accomplished will add much to the satisfaction of lot-holders. We are pleased to notice that many of the lots show signs of attentive care, and that the living have not forgotten the dead, shrubbery and flowers being seen on every hand, while handsome monuments also evince affectionate regard. Rosemont will some day—and we trust in the not far distance—be equal in beauty if not in extent to cemeteries in other cities. It may not be inappropriate in this connection to remark that there is a sacredness of character in a cemetery where our loved ones lie, which is sadly marred by levity of conduct, such as loud conversation and laughter, and of all places it is not a fit one for the idling away of time. When the summer house is erected, we trust that it will not be used for any such purpose. Other improvements than those mentioned above are also in contemplation.

Doctors are guessers. If they guess right, you are all right—provided you pay the bill. If they guess wrong, you go to the graveyard—they go to their dinner. MERRELL'S HEPATINE has cured more cases of liver disease, indigestion, constipation and dyspepsia than all the doctors and pills in the world combined. Ask your druggist, Dr. S. F. Fant, about this medicine—HEPATINE. Each bottle contains fifty doses, and will cure any case of liver complaint in the world. 16-5t.

Newberry now has a Young Men's Christian Association, and the boys up here at last know what Y. M. C. A. stand for.—*Progressive Age.*

Well, Mr. Progressive, the boys perhaps don't know all the sublime mysteries of those initials. We had a young friend once who had fallen in love. Of course, there is nothing mysterious in that, but he was so extremely bashful that when he went to call on his adored he would always take a friend along to do the talking. One night she handed him a little visiting card with those mysterious initials Y. M. C. A. on it. He studied for a good while and next morning he thought he'd be a good boy and join the Young Men's Christian Association. Next night his face was radiant with satisfaction as his friend communicated the information to his beloved; of course he himself could not talk—he was too happy; she wasn't, though, and told him to study his lesson over again. This Local finding his young friend in despair, got all the facts of the case, and knowing a little more of the wiles of womankind advised him to leave that talking friend of his at home next time. He did so, and is now the happy husband of one of the sweetest little wives about. This Local read the letters thus: You May Come Alone.

P. S.—Any deciphering done at this office at ten dollars a letter—cash. Love matters double price.

DOM PEDRO IN NEWBERRY.—The Emperor of Brazil, who is travelling incognito under the name of Dom Pedro, is now, by special permission from his wife, inspecting the Mormon establishlishment of Salt Lake City. He is a man of advanced ideas and a great desire to learn, so that by his gathered knowledge he may benefit the people of his vast empire. On his return from Utah he is expected to traverse the Southern States. We learn from the *Chronicle & Sentinel* that an invitation will be sent him to inspect the Augusta Canal, with all its locks and sluices and ingenious machinery. We are of opinion that Newberry can boast of evidences of modern improvement which no other place in the United States can offer, and we propose to send Dom Pedro an invitation to pass a pleasant week in looking at those admirable improvements of which our city can boast. First, we would mention our College building which sits like a queen on her raised throne. For comfort and safety it cannot be equalled, and it deserves its reputation of being the best ventilated college in the Southern States; by what ingenious contrivances the air gains admission Dom Pedro and his engineers must see for themselves; we cannot describe them. Next we have the model Depot platform of the world. The elegance of its mosaic flooring is unsurpassed; the artistic skill displayed in the manufacture of the balnster, which protects the multitude from falling into the yawning chasm in the rear, is worthy of the handiwork of Benvenuto Cellini; it is the pride of the city; the arrangement of trap-doors by which a person at any part of the platform may be thrown under the crushing carwheels by the touch of a spring in the telegraph office, might prove of great use to the Emperor to get rid of any of his unpleasant state officers; he would simply send a message to the telegraph office to touch spring No. 3 for some uncomfortable Brazillian Bristow. Next we have the great Sugar Mill—mostly run by lawyers—who manipulate the process of granulation with wonderful skill. The amount of sugar from sorghum juice realized by this unique process is unequalled in the world. The sugar is especially adapted to Rio coffee, and the molasses candy made from its treacle will quiet any Brazillian brat in less than two minutes. Then we have that enormous cotton factory in Prospect township, covering some five hundred acres, with a capacity of three million spindles, which manufacture long cloth that cannot be surpassed for summer wear at the Amazon. One of the greatest inducements, however, for Dom Pedro's coming would be the Newberry beef. It is so soft and juicy that we are only afraid that the Emperor might mistake it for some kind of brown butter. Some villam has said that from what's left at the table the best India rubber overshoes are made; but that's a vile slander. Then there is that beautifully laid out park, superior to the Prater of Vienna, commonly called Johnstone's Woods, designed by that colebrated French landscape gardener, Monsieur Vindabout, who left his unfinished plans in the hands of the Town Council, who no doubt would take great pleasure—but enough. Write to him, he'll come.

GLOBE FLOWER COUGH SYRUP cures cough, colds, and will positively cure consumption. For sale by Dr. S. F. Fant. 16-5t.

ABOUT THE TOWN AND COUNTY.—

The weather is still fruitful as a topic.

The topic is that the weather has been injurious to fruit.

There was a very narrow escape from frost on Wednesday morning last.

Blankets thrown off from beds Monday night were restored on the night following.

The new moon revealed itself several degrees farther North than is agreeable—the sign is cool weather.

Wheeler, the Photographist, did not get away on Wednesday, in consequence of a rush of sitters. He proposes now to send his brother here from Greenville, and keep the Gallery open.

Speaking of opening reminds us that flowers are showing the genial influence of warm sunshine—gardens are looking charming. Flowers and children, who can resist their beauty.

More new houses are going up in Gravel Town. and so fast is it assuming the proportions of a city, that we may soon look for it to secede from the town of Newberry. Many of the buildings are quite handsome.

It is deeply regretted though that while improvement and thrift are seen in one direction of that section, the old burying ground is not only sadly neglected, but actually shows the signs of sacrilegeous hands. Many of the tombs have been desecrated. None but the most depraved would wantonly injure a tombstone.

Silver dimes, quarters and half dollars are now in order elsewhere, but have not come into fashion here. It is advised that when this kind of money is available, that it be used freely. A small quantity of it will be taken at this office in exchange for the HERALD.

This reminds us that there are a few men in town who appreciate the HERALD, but still are not subscribers. They are invited to call.

From present indications the Hook and Ladder Company will inaugurate the Pic Nic season—their frolic is to come off on the 12th inst., and will be a big affair.

Little girls believe in a man in the moon—but not so the big ones, who are satisfied that there is a man in the honeymoon.

White's mineral spring is growing in favor, and it is hoped he will realize largely from it.

Dickert has in a lot of nice fancy confectionery—and little people are cordially invited to call and get a pound, a pound and a half or two pounds. He has closed his restaurant for the season, and will serve only sweets.

Several handsome monuments have been placed in Rosemont Cemetery lately by Mr. Leland Speers, which reflect great credit on his skill and taste.

White perch and trout are being caught in Bush river now, and several of our old time piscatorial sports, who have for some time thrown aside their tackle, have again resumed operations. On Tuesday one expert caught thirty. This looks like old times. We hope seining will be relinquished, that anglers may have no check to their fun.

The streets did not present as lively appearance on Monday as is usual on sale-days, farmers no doubt occupying their time in a better way at home. There were no sales of real estate.

Remember that the Bank of Newberry now closes at 2 o'clock, p. m. No business transacted after that hour.

A big promise of a shower Friday afternoon—result a small sprinkle. Monday a good season.

The promise of an abundant grain crop has brought down the price of fodder. It will come down still lower. Eggs and chickens, however, are still up in price and scarce.

Linen coats may now be worn without infringing any of the rules and regulations of the clerk of the weather. This was written before the cold snap set in; last advice, hold on to overcoats.

There is quite a lively trade now in fish hooks, and Bush river will soon be cleaned out. Commodore Harris has built him a batteau so that he can fish undisturbed by the scores of men and boys who line the banks.

Capt. J. F. Speck offers rare bargains in watches, clocks, jewelry and fancy articles. He will sell at cost for cash. Now is the time to buy one's self rich.

The Hook and Ladder pic nic will be held at Cline's Spring—a convenient distance from town.

The population of the town is larger by one than since the last issue of this paper. The new comer is stopping on the other side of the railroad bridge.

The streets were quite lively on Saturday last, with farmers who were resting from their labors, while hunting supplies.

The foundations of Mr. Jos. Brown's house were in a sad state of decay, but Mr. Wallace Cline is skillfully putting the building in perfect order.

Field workers who happen to get snake bitten are advised to apply Kerosine oil to the wound. It is said to be a certain cure.

Printers who wait for their pay may be called Job Printers.

Having a large experience we are prepared to execute all kinds of Job Printing in a neat manner and with despatch.

To the Newberry girls—if you wish for hearts' ease, don't marigold.

He has stopped visiting her for awhile, because she told him "don't come to see me any more just now, John, father has had his boots half-soled with two rows of nails around the toes." John, like a sensible fellow, tunes his harp under a willow tree now.

Bush river presented a lively appearance on Saturday last. Those who could not ride there, footed it. Fish were scarce though. Out of about twenty anglers—only two little chaps, one white and one black, succeeded in hooking any. Five little fish only were caught.

A horse who took one party to the river on Saturday, strayed into a dense bottom and was not recovered until next morning.

A double buggy while crossing Lindsey's bridge on Saturday last, was run into by a mule and a negro, and came very near being thrown off. The buggy contained a lively and interesting freight.

River thieves are at work—on Friday night last a raid was made on the hooks of Mr. Nichols, and about forty of them hooked. Whether any fish were hooked on the hooks is not known. The same night Mr. Hawkins' gill nets were lifted.

Stealing is becoming so common now that we will not be surprised soon to hear of men having their coats stolen from their backs.

Cats, red-horse and hickory shad are being furnished plentifully from the Saluda river.

Mollohon reports now that the blackberry crop is safe, but alas, wheat has taken the rust and flour will be scarce, consequently there will be no pies. As there will be nothing to roll the berries in they will have to be eaten straight.

From the same section comes report that more cotton is planted than ever before, and corn very much in the minority. We are glad to say that we have information which is of a more hopeful character.

As a valuable remedy for Dyspepsia, Sick Headache, Torpid Liver, and such like diseases we can recommend Dr. Bull's Vegetable Pills. They are for sale by all druggists at 25 cents per box.

A Widely Applicable Remedy.

Few remedies are applicable to such a wide range of disorders as Hostetter's Stomach Bitters, and this not because it has special properties adapted to the cure of each—such a pretence would be manifestly absurd—but on account of its wonderfully improving effect upon the general tone of the system, and its alterative action upon the organs of nutrition, secretion and discharge. Besides its well known properties as a remedy for intermittent and remittent fevers, dyspepsia, constipation, torpidity of the liver, general debility, urinary and uterine difficulties, it invariably proves to be highly serviceable in overcoming anæmia, hypochondria, rheumatism, insomnia, and many other disorders and disabilities originating in poverty or impurity of the blood, nervous weakness or over-excitement, or an imperfect performance of the physical functions. 13—5t.

To the Ladies who Organized and Conducted the "Wayside Homes" of the Confederate States for the Relief of Wounded and Sick Soldiers during the Late War:

Having been solicited by a distinguished gentleman of my profession in the North to furnish him with all the facts in connection with the above institutions, he desiring to place the ladies of the Southern States properly before the world for their great, oft-repeated and innumerable charities and untiring labors in behalf of the needy, I take this means of begging these ladies to furnish me, *as early as possible*, all necessary information, so as to enable my correspondent to make properly this part of his report to the International Congress of Physicians, to be held in Philadelphia on the 4th of September next. Those who will respond to my inquiries will please answer the following questions:

What system was adopted in these charities?

At what date were the "Homes" organized in your city, town, village or vicinity?

How many ladies (and their names) were engaged in the work?

How many soldiers did you receive and feed per day, per week or per month?

How many during the existence of the "Homes" did you accommodate?

If clothing, shoes, hats, &c., were dispensed, how many pieces, either during a given time or the whole time?

If money was expended, how much in a given time or the whole time?

If you cannot give exact statements, be so good as to give me some idea.

Very respectfully, your obedient servant, E. B. TURNIPSEED.

COLUMBIA, S. C., April 24, 1876.

To the Southern Press:

As this is certainly the quickest and perhaps the only means to get the above information, I should feel greatly indebted to the press *favorably disposed to gratuitously* give this card a few insertions. The importance to the ladies in making public this matter is conveyed in a single sentence in the letter of this searching after truth. He says: "To-day, I find in a small book, entitled 'La Guerre et La Charite,' page 100, *allusions* to associations formed in Carolina." This seems to be all he has ever heard of these charities, which certainly should have been known wherever the history of the late war has been properly promulgated. Very respectfully, &c.,
