ESTABLISHED RULES FOR SUCCESSFUL POULTRY RAISING.

In raising poultry or stock it should be the aim of every one to keep it healthy and improve it. You can do it very easily by adopting some systematic rules. These may be summed up in brief as follows:

Construct your house good and warm so as to avoid damp floors and afford a flood of sunlight. Sunshine is better than medicine.

Provide a dusting and scratching place, where you can bury wheat and corn, and thus induce the fowls to take needful exercise.

Provide yourself with good, healthy chickens, none to be over three or four years old, giving one cock to every twelve hens.

Give plenty of fresh air at all times of the year, especially in summer.

Give plenty of fresh water daily and never allow the fowls to go thirsty.

Feed them systematically, two or three times a day, and scatter the food, so that they can't eat too fast or without proper exercise. Do not feed more than they will eat up clean, or they will get tired of that kind of feed.

Give them a variety of both dry and cooked food; a mixture of cooked meal and vegetables is an excellent thing for their morning meal.

Give soft feed in the morning, and the whole grain at night, except a little wheat or cracked corn placed in the scratching place to give them exercise during the day.

Above all things keep the hen house clean and well ventilated.

Do not crowd too many in one house. If you do, look out for disease.

Use carbolic powder in the dusting bins occasionally to destroy lice.

Wash your roosts and bottom of laying nests with white wash once a week in summer, and once a month in winter.

Let the old and young have as large a range as possible—the larger the better.

Don't breed too many kinds of fowls at the same time unless you are going into the business. Three or four will give you your hands full.

Introduce new blood into your stock every year or so, by either buying a cockerel or sittings of eggs from some reliable breeder.

In buying birds or eggs go to some reliable breeder who has his reputation at stake. You may have to pay a little more for birds, but you can depend on what you get. Culls are not cheap at any time.

Save the best birds for next year's breeding, and send the others to market. In shipping fowls poultry to market send it dressed. [Poultry Nation.]

## THE USES OF LEMONS.

The lemon tree is a native of Asia although it is cultivated in Italy, Portugal and in the South of France. In Europe, however, it seldom exceeds the dimensions of the smallest tree, while in its native State it grows to over sixty feet in height. Every part of this tree is valuable in medicine, though we rarely employ any of it but its fruit, that is the lemon itself. And every one knows how to employ this, as in lemonade: To squeeze the juice into cold water—this is the shortest way; or to cut it in slices and let it soak in cold water or to cut it in slices and then boil it. Either way is good. Lemonade is one of the best and safest drinks for any person, whether in health or not. It is suitable to all stomach diseases, is excellent in sickness—in cases of jaundice, gravel, liver complaints, inflammation of the bowels and fevers. It is a specific against worm and skin complaints. The pippins, crushed, may also be used with water and sugar, and taken as a drink. Lemon juice is the best antiseptic remedy known, and it not only cures this disease, but prevents it. Sailors make a daily use of it for this purpose. We advise every one to rub their gums daily with lemon juice, to keep them in health. The hands and nails are also kept clean, white, soft and supple by the daily use of lemon instead of soap. It also prevents chilblains. Lemons are used in intermittent fever, mixed with strong, hot, black coffee, without sugar. Neuralgia may be cured by rubbing the part affected with a cut lemon. It is valuable also to cure warts, and to destroy dandruff on the head by rubbing the roots of the hair with it. In fact, its uses are manifold, and the more we employ it internally, the better we shall be ourselves.—Exchange.

**SUBSCRIBE FOR THE NEWBERRY HERALD!**  
ONLY TWO DOLLARS A YEAR.

## Miscellaneous.

## A GRAND MUSICAL DISCOVERY! THE STUDY OF MUSIC SIMPLIFIED.

The Labor of Years Accomplished in Weeks by the New Inductive Method for the PIANO AND ORGAN!

**Mrs. W. H. Clark**  
Has Opened a STUDIO over R. Y. Leavell's Furniture Store for the Reception of Pupils.

Having Taught this Method in the North with Unparalleled Success; also in Greenville, S. C., now Offers her services and the Method to the CITIZENS OF NEWBERRY AND VICINITY.

It is impossible to set forth ALL THE ADVANTAGES this Method has over the Old System, in an advertisement, but invite all interested to Call at the Studio, or send for Circular.

IT SAVES TIME AND MONEY. It is so simple that even a Child of Five Years can understand it. It does away with years of drudgery. It takes the Pupil almost immediately into the Science of Musical Compositions, and continues the same throughout the whole Course of Instruction.

It is not a superficial method, but applies to all Music precisely as it is written, without any change whatever. It commences itself at once to the educated class of the community. This Method is entirely different from the Old System.

An opportunity is offered to all to gain a Musical Education in a short time and for less Expense than ever before.

Many of my Pupils in the South are now successfully Teaching this Method, which was gained at a nominal expense, while my expense for Tuition alone was FOUR DOLLARS per Lesson. This Method fulfills the maxim that "Whatever shortens the road to learning, lengthens life and increases usefulness."

**Terms, 50 cts. Per Lesson.**  
Books and Sheet Music will be Furnished on Moderate Terms. FOR FURTHER PARTICULARS, CALL ON OR ADDRESS.

MRS. W. H. CLARK, Newberry, S. C. Feb. 20, 8—ly.
