Editors as Suped building

different Counties we notice the names of two editors: Mr. Jno. W. Holmes, of the Barnwell People, and Mr. M. B. McSweeny, of the Hampton Guardian. We have not the least doubt that both these gentlemen are eminently qualified for their places, and that they will do their duty fairly and impartially but to our mind an editor is the last man that should be a Supervisor of Registration. An editor should keep himself entirely free from entangling alliances with public offices; should be so free that he can criticise the actions of all public officers without even the suspicion of personal feeling, giving cal Seminary. praise or blame whenever needed. him from party or partisan feelings, man's raid. who is to let the people know it? There is no probability that either of these gentlemen will do such a thing-indeed we feel very sure they will not-but we state the case thus in order to illustrate the prin-

The Republican Convention of County Chairmen and State Executive Committee was held in Columbia the 2nd. The Counties were all represented except Abbeville, Anderson, Edgefield, Laurens, Marlboro', Pickens and Spartanburg. PRESIDENT'S OFFICE STATE GRANGE, Newberry County was represented by Henry Kennedy, R. W. Boone and Belton B. Boozer. There was a great deal of discussion; but the only action taken was to instruct the executive committee to take the proper steps to have Republican Supervisors appointed to supervise the registration of voters. The correspondent of the News and Courier says: "From what I can learn on the outside the conference was opposed to making any contest for State officers, but favored coalition with the disaffected elements in the Democratic party, and resolved to make a struggle for the Legislature and the County offices in different Counties."

ciple involved.

Mr. Dibble accuses Mr. Mackey of tampering with the evidence taken in the contested case for a foot to lug the Grange into politics. seat in Congress from the Second I write to you as the Master of our District. He charges that Mackey, by interlineations and erasures, has materially changed the evidence to respect, your friend and Brother, suit his own purposes. Mr. Dibble substantiates his accusation by the affidavit of C. Smith, who took down the testimony, and by others. The election committee will make its report on the case soon. From foot to lug the Grange into politics. the fact that this committee is composed almost entirely of Republicans, and that it has not been disposed to give Dibble a fair showing. it is predicted that Mackey will be bia, named the Reform Signal, and

The propriety of reopening the Citadel Academy at this time may be a matter of doubt; but since the field County. The Master of that Legislature has decided to reopen it, and has appropriated money for this purpose, there can be no doubt that the institution should be put terests of the Grange and agriculture in charge of competent instructors. There is no man in the State better fitted to be at the head of the Citadel Academy than Col. Hugh S. Thompson, of Columbia.

The country along the Mississippi river has suffered greatly from craffows recently. A great deal of property has been destroyed, and thousands of people have been submitted in writing to the Executive rendered destitute. Congress has given temporary relief to the suffering people by issuing rations to them from the commissary stores | was glad to see that a paper was goof the government.

While Queen Victoria was entering her carriage at Windsor the 2nd she was fired at with a pistol by a man named Roderick MacLean. She was not hit. MacLean was closed by saying that there could be smarting is produced by the poison in miserably clad, and appeared to be no political connection between the the blood, seeking an outlet through a lunatic.

been transferred to the new State Executive Committee, Bro. Norris not beautiful appearance. Price, \$1.00 power which was removing them. Instead House at Baton Rouge.

Conkling has been confirmed by the Senate as Associate Justice of the Supreme Court. Four Repub licans and eight Democrats voted against the confirmation: among the Democrats were the two Sena tors from South Carolina. Conkling has declined the office.

We understand that about two hundred hands will be put to work on the Greenwood & Laurens Rail from Feasterville Grange, before stated. Road Monday next, the work to or had but a single patron to talk to begin at the Laurens end.

Quick and Sure.

The Grange and Politics.

What the Master of the Grange has to say on the Subject.

CHAPPELLS, NEWBERRY Co., S. C., February 26, 1882. To the Editor of the Columbia

Register: MR. EDITOR-Enclosed I send you letter from Hon. T. N. Edins, of Marlboro, and my answer thereto on the subject of politics in the Grange or the Grange in politics, which ask you to publish in your very excellent and able paper. As it is a subject of specific interest to every member of the order of Patrons of Husbandry, and they are subscribers in greater or less number to every paper published in the State, I respectfully request each and every paper to copy this correspondence into its columns. Please send me a few extra copies that I may send them to other States. Very respectfully,

JAS. N. LIPSCOMB, Master State Grange.

CLIO, S. C., February 10, 1882.

Hon. J. N. Lipscomb: SIR-I see there is a measure on State Grange for information and ask your views on the measure. Hoping to hear from you soon, I am, in full T. N. EDINS.

Hon. T. N. Edins :

DEAR SIR AND BROTHER: I have just received yours of February 10th, saying : 'I see there is a move on I write to you as Master of our State Grange for information and ask your views on the measure.' I suppose this alludes to a news-

paper recently established in Columits claiming to be an agricultural and grange paper. As I understand it. this paper was established by a number of stockholders, most of whom are members of Feasterville Grange, Fair-Grange wrote me a letter and the Grange passed a resolution and sent it to me, setting forth that such a paper was to be issued to advocate the inwithout setting forth either the name or political tenets of it. To this I replied that the State Grange had acted upon the matter of a newspaper organ for it and its officers, and had placed the matter in the hands of its Executive Committee to carry out. When the Executive Committee takes final action, said action will be mandasory upon me and the other officers of the State Grange, and suggested that any proposition as to being an organ, be Committee. I could, therefore, do nothing as to constituting or recognizing said paper as in any way connected with the State Grange, but I ing to be published that intended to advocate agriculture and grange, as it claimed, and that I or any officer would cheerfully furnish any information from our respective offices that might be of interest to its subscribers

nothing was to be done by the Com mission or me unless some definite proposition was made, and then we would act. Upon this statement the matter stands this way. So far as Feasterville Grange is concerned the "Reform Signal" is an organ, but so there is not the slightest foundation for such an assertion, or so far as I know as to any number of individual members of the order. I have never received but one note, except those me in such a way as to cause me to suppose it was claimed to represent the State Grange or order. The State

Grange adopted a resolution instructing its Executive Committee to make an effort to have the Agricultural Bureau and State Agricultural Society join it in publishing a paper that would serve as an organ for each respectively, and, failing in that, to recommend to the Order in the State the "Southern Patron," a grange paper now pubished in Mississippi. A communication from the Executive Committee of the State Grange is now in the hands of Governor Hagood, Chairman of the Agricultural Bureau, awaiting a meeting of said Bureau, and the Executive

said propers Mississippi paper.
action as to the Grange.
Now, as to political function char-There can be none of a parened, all entirely without appetite the next. This was just the way I felt when the relentless malady which had fastened itself upon me though always considered a rather. though always considered a rathed treme "straight out Democrat," I have endeavored to do no act or say no word that would have the slightest soon pass away. Shortly after this I noticed a dull, and at times neuralgic, pain in land & cultivate hit rite under John semblance of political partiality in my intercourse with the members of the order, officially or otherwise, and I to it. However, my stomach was out of good Due time, the crop is to stand feel confident that such members as order and my food often failed to digest, good for all Expenses under a lean belong to other political parties will sustain me in the assertion. Some, that even in South Carolina there are "Republicans" and "Greenbackers," as well as "Democrats," in the Grange, and some of the most efficient Masters and officers of some of the strongest and most flourishing Granges are of the two first named. In other States the editors of grange organs are divided among the various parties. My views as to politics in the Grange are to discuss anything and everything of benefit or interest to the order or the people, but to do it strictly as Patrons, and not as either Democrats, Republi cans or Greenbackers, and when a conclusion is reached that is deemed wise, true and just, then let each and all go to their political party meetings and work and insist that said party shall act and aid in carrying such conclusions out. On this ground I stand

in the National Grange and in the State Grange. There can be no harm done in distion, if this rule is fairly adhered to. and the Grange would be more useful and better appreciated if it was more

extensively used in this way. Now, I have written you a long etter as Master of State Grange and

an unofficial citizen. There seems a great want of proper understanding among the people, and between the people and their public representatives and officials. Does not much if not all this come from our not fairly and fully expressing our views and wants at the right time and in the right way? Instead of grumbling, abusing and denouncing our representatives and threatening to quit the Democratic party after things are done, would it not be better to determine what we want and what we don't want done, and be sure we select the men that know how and will do things to suit us? No man realizes more fully than I that deep and thorough reform is needed in the public affairs of the State, and also in the Democratic party, and no one will go farther to effect and to secure it than I, within the party; but I fail to see that chances or prospects of reform are any more promising on the out-

side than the inside. There may be a "ring" in the Democratic party, and if there is I will aid all I can to break it up and defeat it; but if it can't be done and I must allow a ring to "run" me, I want to be sure it is a Democratic one, and am not at all disposed to run out of a Democratic ring into unknown rings. If the Democratic party is run by a ring, what guarantee have I that other parties are not run by more objectionable ones? As John Randolph said, when a man bantered him to bet on the race-course, and said: "My friend here will hold the stakes." Yes ; but who in the devil will hold

your friend ?" The Democratic party is bad State Democratic organization and fight for reform within it, but not new ties. Now for reform within the party while organizing to fight all opponents in the coming and future campaigns. As there is some misapprehension as to the Grange, and many false ideas as to its position in this State, I would like you should give as much publicity as you can to what I have written you, even to publishing it in the newspapers. But if so, do ! do ! see that it is done correctly, for I am sometimes made to say things I never thought. Let me hear from you soon and give me your views and those of the order in your

part of the State. Very respectfully and fraternally, JAS. N. LIPSCOMB.

One of the most annoying types of skin or blood diseases is Eczema, "a who were patrons of husbandry. I smarting eruption of the skin." This Grange or any of its officers and a the pores of the skin. A Remarkable Statement.

The Unusual Experience of a Prominent Man Made Public-

The following article from the Democrat and Chronicle, of Rochester, N. Y., is of so far as the State Grange is concerned striking a nature, and emanates from so reliable a source, that it is herewith republished entire. In addition to the valuable matter it contains, it will be found exceedingly interesting.

To the Editor of the Democrat and Ghron-

> Sin:-My motives for the publication of the most unusual statements which follow are, first, gratitude for the fact that I have been saved from a most horrible death, and, secondly, a desire to warn all who read this statement against some of the most deceptive influences by which they have ever been surrounded. It is a fact that to-day thousand of people are within a foot of the grave and they do not know it. To tell how I was caught away from just this position and to warn others against pearing it, are my objects in this communication. On the first day of June 1881, I lay at my residence in this city surrounded by my friends and waiting for death. Heaven

only knows the agony I then endured, for words can never describe it. And yet, if a that I was to be brought so low, and by so and reliable hair restorative. terrible a disease, I should have scoffed at the idea. I had always been uncommonly strong and healthy, and weighed over 200 pounds and hardly knew, in my own extired and cannot account for it. They feel dull and indefinite pains in various parts or the body and do not understand it. Of croppers It is very doubtful whether they are exceedingly hungry one day and such a carelessly drawn up contract

my head, but as it would come one day and land & cultivate hit rite under John be gone the next, I paid but little attention Smith Directions gather the crop in causing at times great inconvenience. Yet I had no idea, even as a physician, that these things meant anything serious or that a monstrous disease was becoming fixed and paster hit and tend to hit rite, upon me. Candidiy, I thought I was suffer- the crop is to Be Delivered at John ing from Malaria and so doctored myself Smith House no biring to Be Done accordingly. But I got no better. I next noticed a peculiar color and odor about the fluids I was passing—also that there were large quantities one day and very little the next, and that a persistent froth and sourn appeared upon the surface, and a sediment ettled in the bottom. And yet I did not realize my danger, for, indeed, seeing these symptoms continually, I finally became accustomed to them, and my suspicion was wholly disarmed by the fact that I had no pain in the affected organs or in their icinity. Why I should have been so blind cannot understand.

There is a terrible future for all physical neglect, and impending danger usually brings a person to his senses even though it may then be too late. I realized, at last, my critical condition and aroused myself to overcome it. And, Oh! how hard I tried! consulted the best medical skill in the land. I visited all the prominent mineral springs in America and travelled from Maine to California. Still I grew worse. No two physicians agreed as to my malady. One anid I was troubled with spinal another, nervous prostration; another, macussing and considering any ques- laria; another, dyspepsia; another, heart disease; another, general debility; another, congestion of the base of the brain; really had. In this way several years passed, during all of which time I was steadily growing worse. My condition had really become pitiable. The slight symptoms I at before closing I want to say a word as first experienced were developed into terrible and constant disorders—the little twigs of pain had grown to oaks of agony. My weight had been reduced from 207 pounds. My life was a torture to myself and friends. I could retain no food upon my stomach, and lived wholly by injections I was a living mass of pain. My pulse was uncontrollable. In my agony I frequently fell upon the floor, convulsively clutched the carpet, and prayed for death. Mor-phine had little or no effect in deadening the pain. For six days and nights I had the death-premonitory hiccoughs constant ly. My urine was filled with tube casts and

albumen. I was struggling with Bright's Disease of the Kidneys in its last stages. While suffering thus I received a call from my pastor, the Rev. Dr. Foote, rector of St. Paul's Church, of this city. I felt that it was our last interview, but in the course of conversation he mentioned a remedy of which I had heard much but had never used. Dr. Foote detailed to me the many remarkable cures which had come under his observation, by means of this remedy, and urged me to try it. As a practicing physician and a graduate of the schools, I cherished the prejudice both nat-ural and common with all regular practitioners, and derided the idea of any medicine outside the regular channels being the least beneficial. So solicitous, however, was Dr. Foote, that I finally promised I would waive my prejudice and try the remedy he so highly recommended. I began its use on the first day of June and took it according to directions. At first it sickened me; but this I thought was a good sign for one in my debilitated condition. I continued to take it; the sickening sensation departed and I was able to retain food upon my stomach. In a few days I noticed a decided change for the better as also did my wife and friends. My hiccoughs ceased and I experienced less pain than formerly. was so rejoiced at this improved cond tion that, upon what I had believed but a few days ago was my dying bed, I vowed, in the presence of my family and friends, should I recover I would both publicly and privately make known this remedy for the good of humanity, wherever and whenever I had an opportunity. I also determined that I would give a course of lectures in enough, but I don't intend to "fly the Corinthian Academy of Music of this from the ills I have to those I know city, stating in full the symptoms and alnot of." Let us all still stick to our most hopelessness of my disease and the remarkable means by which I have been saved. My improvement was constant from that time, and in less than three months I leave it until the last plank sinks. | had gained 26 pounds in flesh, became en-Then it will be time enough to form | tirely free from pain and I believe I owe my lite and present condition wholly to Warner's Safe Kidney and Liver Oure, the

remedy which I used. Since my recovery I have thoroughly reinvestigated the subject of kidney difficul-ties and Bright's disease, and the truths developed are astounding. I therefore state deliberately, and as a physician, that I believe MORE THAN ONE-HALF THE DEATHS WHICH OCCUR IN AMERICA ARE CAUSED BY BRIGHT'S DISEASE OF THE KIDNEYS. This may sound like a rash statement, but I am prepared to fully verify it. Bright's Disease has no distinctive symptoms of its own, (indeed, it often develops without any pain whatever in the kidneys or their vicinity,) but has the symptoms of nearly every other known complaint. Hundreds of people die daily, whose burials are authorized by a physiciau's certificate of "Heart Disease." "Apoplexy," "Paralysis," "Spinal Com-plaint," "Rheumatism," "Pneumonia," and other common complaints, when in reality it was Bright's Disease of the Kidneys. Few physicians, and fewer people, realize the extent of this disease or its dangerous and insidious nature. It steals into the system like a thief, manifests its presence by the commonest symptoms, and fastens itself upon the constitution before the victim is House, in the forenoon, each and every aware. It is nearly as hereditary as con-

whatever, but brings death suddenly, and as such is usually supposed to be heart dis ease. As one who has suffered, and knows by bitter experience what he save, I implore every one who reads these words not to neglect the slightest symptoms of Kidney difficulty. Certain agony and possible death

no one can afford to hazard such chances. I am aware that such an unqualified statement as this, coming from me, known as I am throughout the entire land as a practitioner and lecturer, will arouse the surprise and possible animosity of the medical profession and associate all with whom I am acquainted, but I make the foregoing statements based upon facts which I am prepared to produce and truths which I can substantiate to the letter. The welfare of those who may possibly be sufferers such as I was, is an ample inducement for me to Bibles, take the step I have, and if I can successfully warn others from the dangerous path in which I once walked, I am willing to endure all professional and personal conse J. STATE OF SOUTH CAROLINA. NEWBERRY COUNTY. By Jacob B. Fellers, Probate Judge.

P. O. Box 2767.] 22 Rose Street, New York. Feb. 16, 7-6t.

Whereas, Ebenezer P. Chalmers, Clerk of Court, hath made suit to me, to grant him Letters of Administration of the Estate and effects of Reuben S. Lyles, deceased. These are, therefore, To cite and admon-ish all and singular the kindred and creditors of the said deceased, that they be and appear, before me, in the Court of Probate, to be held at Newberry Court House, on These books are printed in nice style, on the 22nd day of March next, after publiclear white paper, and are very attractive. The low price at which they are sold will cation hereof, at 11 o'clock in the forenoon, to shew cause, if any they have, why the said Administration should not be granted. Given under my hand, this 7th day of February, Anno Domini 1882.

Feb. 9,-5- 6t.
