A Seasonable Publication. The Fall number of Ehrlich's Fashion Quarterly will be found particularly useful to all ladies who contemplate that most delightful of feminine occupations - shopping. Within the compass of its one hundred and twenty pages, it contains a compendium of the latest and most useful fashions, choosing, giving descriptions of the latest styles in every department, with a complete list of prices, and a really bewildering array of illustrations. Aided by this useful publication, a lady can plan out her shopping for the season, with an absolute certainty that the goods she will be over-looked, and that every dollar will be made to do its full and utmost duty. Whether she make her purchases by mail or from storekeepers nearer home, the Fashion Quarterly is equally useful. In either case it shows her just what styles are fashionable, as well as which are most economical; and, studying its pages, a lady can adapt her expenditure to her means, and avoid the vexation of finding, too late, that unwelcome extravagance or out-of-fashion articles in her wardrobe.

The Fashion Quarterly is published by Ehrlich Bros., Eighth Avenue, New York, at 50 cents a year, or 15 cents a copy. It is simply worth its price.

National Surgical Institute. One of the Surgeons of this old and noble Institute will visit Newberry, S. C., October 26 and 27th 1882 stopping at the Newberry Hotel.

The object of this visit is to give the afflicted an opportunity for examination at or near their homes, thus saving hopeless cases the expense of a trip to Atlanta. A careful examination will be made, and patients can learn if their cases are curable or can be benefited, and what treatment is necessary for their relief. In such cases as can be cured, or treatment begun at home, arrangements can be made with our visiting Surgeon, and treatment commenced at once.

Cases of Deformities and Chronic Diseases will be examined, such as Club Feet, Diseases of the Hip, Spine and Joints, Paralysis, Piles, Fistula, Catarrh, Female and Private Diseases, and Diseases of the Eye, Ear, &c.

Some cases, as the visit is limited to the time allotted, for circulars and full particulars, address NATIONAL SURGICAL INSTITUTE, Oct. 5, 40-42, ATLANTA, GA.

Southern Cultivator for October. This standard agricultural journal for October is a treat to the reader, in its variety of interesting and valuable reading. In its columns are discussed everything pertaining to Agriculture, Horticulture, Stock, Poultry, &c., by the best writers of the South. The publishers endeavor to make it the medium through which the thoughts and ideas of intelligent farmers can be communicated to each other.

This long established journal has done an incalculable amount of good. For thirty-three years it has been read and carried there naught but what is good and profitable. Not given to political discussion it has carried this message - improve your farms, beautify your homes, and for the children to love the land of their birth, grow prosperous and be happy.

The leading article in the October number is the address of Judge Furman, of Baldwin county, Georgia, delivered before the State Agricultural Society. His portrait is accompanied by the article and the address of a cultured and intelligent gentleman. That he looks young, almost boyish, need not deter any one from giving careful heed to his words, for he has proven himself a practical and progressive farmer, and has demonstrated that even our old (so-called) Georgia land can be made to produce a bale and a half of cotton per acre, being brought from extreme fertility to this productive condition in four years handling.

Every farmer in the South should send a dollar and fifty cents to James P. Harrison & Co., Atlanta, Ga., for a year's subscription to this standard monthly.

Spoken-English. The second lecture under the auspices of the Y. M. C. A. was delivered by G. B. Cromer, Esq., Tuesday night. The lecturer took for his subject "Spoken English," and pointed out some of the abuses that were frequently seen and heard in the use of the language. We can notice only a few of the points that were discussed.

We learn our language under many difficulties. First we hear the "baby talk"; and in childhood we are thrown into the world with no other knowledge of the language correctly. Besides this there is no uniformity in the pronunciation or the grammar of the language. For pronunciation he recommended Webster's Unabridged. For learning the language in its purity he recommended the reading of such authors as Burke, Milton, Macaulay and Carlyle.

Every one should endeavor to speak his language correctly. An early habit of critical observation will greatly aid in this. Let the dictionary be a constant companion, and consult it in all cases of doubt.

Men of eminence may disregard inaccuracies in small matters; but ordinary individuals cannot afford to do so. While studying the best authors do not try to imitate their style; preserve your individuality, and let your style be your own.

To be able to write well one must study simplicity and perspicuity; to speak well, he must first have something to say, and then know how to say it.

Avoid pedantry and slang. The lecturer mentioned a few words that were frequently pronounced wrong, and giving the correct pronunciation: Alumni retains the i sound; exquisite has the accent on the first syllable; patent is patent, not patent.

He also mentioned several incorrect expressions that are in vogue. A thing is absolutely necessary. Equally as good is wrong - leave out the as. One young lady had a gorgeous time; another had a delicious time - such expressions are wrong. Do not say I feel badly. Never say that a previous engagement will prevent, simply an engagement. An individual is not a party but a person. I had rather go is incorrect; I should rather go is correct. Do not say, I taken, but I took. Say, I differ from you, not with; corresponds to, not with. It is preventative, not preventive. Those molasses, or these molasses, is incorrect; molasses is always singular. Politics is, not are. A lecture was well prepared, and was listened to with pleasure by the audience, and no doubt with profit. The above hurried sketch doesn't do it justice. We hope that Mr. Cromer will consent to the publication of the lecture in full.

The Madison Square Company. Visited Newberry last week. Thursday night the Company played "Hazel Kirke" rather than "Emeralda" as the name Kirke was here by the same Kirke last March to a very full house. "Hazel Kirke" did not feel to do so. "Hazel Kirke" did not feel to do so. "Hazel Kirke" did not feel to do so.

Friday night the Company played "Emeralda" to a good house. The scene is laid in North Carolina, where Esmeralda Rogers and Dave Hardy, devoted young lovers in humble station, have just parted. Dave is being married, when the Rogers family become suddenly rich, and the ambitious mother of Esmeralda separates the lovers and takes her daughter to Paris, where she attempts to marry her to a Count. Dave follows her. It turns out that the Rogers are not as rich as they thought they were; and the devoted young hearts find a happy end to all their troubles. Jack Desmond, an artist, and his two sisters act a very charming part as friends of the lovers. The best character of the play is Estabrook, by Mr. F. M. Burbeck. The parts were all well sustained, except that of Dave Hardy. Mr. Arden, who assumes this role, is entirely too manly in his devotion. The tears and groans and the inglorious affection indulged in by Dave are neither natural nor manly. And then there is a painful incongruity toward the close of the play when Esmeralda appears as the polished, refined woman and Dave as still the lubberly, uncouth youth whose highest ambition is to spend his days with "Bum-bum" in the tent under the chestnut tree in Western North Carolina. We think he misconceived his part. In other respects the performance was admirable, in all its parts.
