

sticks of wood, in the neighborhood of Bennett's lumber mill, we are told, were flying about in the air as if they were so many reeds. It passed over Ashley river, took the form of a water spout, followed the bank of the river, and exploded over James' Island.

We have heard of several other incidents connected with this phenomenon, but not with sufficient particularity as to warrant us in attempting to detail them.

FOREIGN NEWS.

ARRIVAL OF THE CAMBRIA.

On Friday night we received the following despatch, which we issued in our extra on Saturday morning to our town subscribers:

The most cheering intelligence is the continued advance in cotton, which has not only gone up one-eighth since the last steamer, but is still rising.

In consequence of the advance in the raw material and a consumption greater than ever known, [the words of the despatch,] spinners have advanced a half-penny on the price of their goods.

Parliament has been prorogued until the 9th August. The Cholera is raging badly in London. A severe fight occurred in Ireland between a party of Catholics and Orangemen, in which fifty were killed and wounded.

No material change has taken place in the political condition of France.

The Hungarians have gained other victories over the combined army of Austria and Russia.

The belief exists that the Pope will soon return to Rome.

Since then we have received the following additional items of the news:

From the Baltimore Sun, August 3.

England.—The Parliament is to be prorogued on the 9th of August. The motion which Lord Brougham previously announced his intention of making in reference to the French expedition at Rome, was laid on the Peers' table on Friday. The resolutions embraced a wide range of subjects, and implied direct censure on the foreign policy of the government. Of this fact it is understood that the envoys and agents of Northern Italy and Sicily will be duly notified.

During the last week there were 339 deaths of cholera reported in London, double the number of the preceding week. Along the whole of the southern coast it is raging in a very malignant form, and the mortality is very great. At Liverpool the disease is rapidly increasing.

Ireland.—This country continues generally exempt from the scourge of cholera.

On the 7th of July a very serious collision took place between a party of armed Orangemen and a party of Catholics near Castle Willan. The Orange party having celebrated the day at Tallymore, while passing a defile called Dally's Brae, on their way home, found themselves waylaid and all the passes and surrounding hills occupied by innumerable Roman Catholics, armed with picks and firearms, plainly contemplating a general massacre. The Protestants, aided by a small police and the military, stood upon the defence. They succeeded, after a short struggle, in forcing their way through the pass. In the contest forty or fifty persons are said to have been killed and wounded on both sides—much the greater number being Roman Catholics. Thirty-eight Catholics were taken prisoners. The Cork Examiner alluding to the potato crop, says that the disease has certainly appeared in a few fields, but it is equally certain that the general crop is safe.

France.—The committee of the Legislative Assembly to which the question of prorogation was referred, has come to the unanimous decision of recommending that the Assembly should be prorogued from the 15th of August to the 15th of October.

The Nationale announced that the Prince of Canino, son of Lucien Bonaparte, and ex-President of the Roman Constituent Assembly, had been arrested by order of the Government.

It is said that, having claims against his cousin, Louis Napoleon, for money lent in aid of his election, the Prince came to France to demand it, the cousin's conduct against Rome having stirred up his anger. The Prince, however, it is believed, will not be imprisoned, but forced to embark either for England or America.

The election to fill the 35 vacancies in the Legislative Assembly, has turned out much more favorable to the Government than was anticipated. With one exception, all of the newly elected members will support the government as long as a majority holds together.

The questions of a Consulate for life—the Empire—Henry the Fifth, and the Count de Paris—are openly discussed in the Assembly. A change of Ministry is considered an event almost certain to occur within a very short time.

The progress of investigating the affairs of the 18th of June has become active, owing to some arrest recently made, there having been a discovery of an important correspondence.

Italy.—The Pope has addressed an autograph letter to General Oudinot on the occasion of receiving from him the keys of the city of Rome. His Holiness congratulates the General on the triumph of order in Rome, and expresses a hope that Divine Providence will remove any difficulties that may still exist.

He adds that he has not ceased to direct his prayers to Heaven for the General, the city, and the French nation. This letter was dated Gaeta, July 5th. Cardinal Pirol and the Marquis of Cachety had arrived at Rome from Gaeta on the 8th.

Preparations are making at Rome which leads to the supposition that Pius is expected to return to the Quirinal, all the wounded having been removed from that Palace. The French are doing all they can, and distributing money freely to get up a cry in his favor but in vain.

The Roman troops which had at first agreed to do duty conjointly with the French, are leaving, and the whole remaining force of Roman soldiers is less than one thousand. Of these latter many were anxious to leave, but General Oudinot would not permit it.

The Pope's engineers having been asked to make a demonstration in his favor, refused, preferring to quit the service. Thirty-nine out of forty-three resigned, and the whole rank and file disbanded.

The same thing occurred in the artillery—all the officers having resigned, with the exception of three captains and a sergeant, giving as a reason that the authorities had refused to give them any precise guarantee as the protection of the rights of the people. Garibaldi succeeded in making his escape from the French division, which was put upon a false scout. He is now in the mountain of Abruzzi. Previous to his departure from Rome he had secured a large quantity of ammunition and military stores.

Another account states that Garibaldi is on the Neapolitan frontier, where he has been joined by another body of troops, and formed, it is said, a body of 20,000 men.

The recent expedition against Venice has been discontinued, in consequence of the fatal prevalence of fever and other sickness amongst the Austrian troops, caused by excessive heat and hard work.

Hungary.—The Turkish ambassador at Paris is said to have received a despatch on the 19th, by courier, that the Polish General Bem had again completely defeated the Russian forces.

Advices from Vienna of the 13th July, state that Buda-Pesth surrendered to the Austrians and Russian troops on the 11th, without resistance.

From a report of Gen. Haynan, addressed to the Emperor of Austria, it appears that a very sharp conflict took place on the 11th, before Comorn, between the Hungarian forces and the combined armies. The Magyars fought fiercely, but the Austrians claim the victory.

Another account of this battle states that 180 pieces of cannon were brought into the field by the Hungarians, and the loss sustained by the latter in artillerymen may be estimated among the circumstances. Nothing could be more complete than the defeat of the united Russian and Austrian armies under Haynan. He was obliged to fall back on Raab, where his headquarters are at present, which city is filled with wounded, 5000 of whom he has been obliged to send to Presburg. But for the timely arrival of the Prussians to cover his retreat, Haynan and his staff would have been captured.

POLITICAL MOVEMENT IN CANADA—A FEDERAL UNION CONTEMPLATED.

MONTREAL, August 1.
The Convention which assembled here has determined upon recommending a consolidation of the North American provinces. The address to the people of Canada was to have been brought up and read yesterday. It will be a recommendation of the Federal Union to their constituents. It is the intention of the city of Kingston to present to the convention an address intimating their entire concurrence in their deliberations.

CANADIAN AFFAIRS.—MADAME LABORDE.
The convention has declared itself "on permanence." The proclamation, calling the Provincial Parliament together, is to be the notice for the convention to assemble. The address to the people of Canada has been carried unanimously. A fracas occurred at Madame Laborde's concert room last evening. The French Canadians called for the "Marseilles," and the result was that some of the officers and civilians drove them out of the house.
