WHITNER & WHITNER, Atty's, &c. Jan 24, 1867 18 8

Philadelphia University

OF MEDICINE AND SURGERY. ORGANIZED, 1848.

Chartered by the Legislature, Feb. 26, 1853. Amendments to Charter, Feb. 15, 1860, and March 15, 1865.

TWO full sessions of Lectures each year, commencing the first of October, and continuing until April. The Dissecting Rooms are open, and private lectures and quizzes continue during the entire year. The first session continues until Christmas, or for three months, and the second until the first of April, or three months; the two constituting one full course of lectures. Examination of candidates for graduation will occur at the end of each session.

REQUISITES FOR GRADUATION.—The requisites for graduation are three sessions of lectures, and three years study; or four sessions, including two years spent at the University.

THE SYSTEM OF MEDICINE TAUGHT.—The University is a liberal medical school, in which all branches of medicine and surgery are taught, including the preparatory studies, without regard to any sectarian views. Hence, while they deprecate the exclusiveness of Allopathy, Homoeopathy, Eclecticism, Hydropathy, etc., they believe that all principles of cure and therapeutical agents should be taught in all well-regulated medical schools, and that every intelligent, honest, and thorough practitioner is entitled to all the courtesies and privileges of the profession, without regard to his peculiar notions in therapeutics.

FEE.—The fees for all branches, including all the tickets, matriculation, and dissection, are \$60 a session, or \$120 per year. Those who purchase tickets only have to matriculate once, which makes the second session \$55, including demonstrator's fees, or \$115 for a full course. To aid young men of moderate means, the University has issued five hundred scholarships, which are sold to first course students, for \$75, and to second course students and Clergymen for \$50, each constituting the holder a life member, with the perpetual privileges of the lectures, and all the teachings of the school. The only additional fees are a yearly dissecting and matriculating ticket, each of which is \$5.

THE ADVANTAGES OF SCHOLARSHIPS.—The student holding a scholarship can enter the College at any time during the year, attend as long as he chooses, and re-enter the Institution as frequently as desired.

It requires no previous reading or study to enter the University on scholarships, hence all private tuition fees are saved.

Students, by holding scholarships, can prosecute other business a part of the time.

The candidate for graduation can present himself at any time and receive his degree as soon as qualified.

In case a student should hold a scholarship and not be able to attend lectures, it can be transferred to another, thus preventing any loss.

Parents, guardians or friends of students wishing to purchase scholarships for them a year or more before their attendance at the University, can secure them by advancing one-half the price, and paying the balance when the student enters. Physicians and benevolent men can bestow great benefit upon poor young men, by presenting them a scholarship, and thus enabling them to obtain an honorable profession.
