

LOCAL MATTERS.

Our small grain crop is looking beautiful and promising.

Richard Lewis, Esq., our Probate Judge and Master, has moved into town.

We call attention to the registration law, which appears on our first page this week.

Hon. D. Wyatt Aiken will accept our kind thanks for five volumes of the Reports of the United States Commissioners to the Paris Universal Exposition in 1878.

It is a singular coincidence that the Citadel Academy bill and the bill to establish the University passed the Senate by the vote of Gen. J. D. Kennedy, President of that body.

It will be seen elsewhere in our columns that "Up Country" has announced our young friend, W. P. Calhoun, Esq., as a candidate for Congress in the Third Congressional District in this State at the next general election.

Mr. John C. Mickler has been appointed and confirmed as Supervisor of Registration for Oconee County. Messrs. B. Frank Sloan and Silas K. Cannon have been appointed his assistants.

The State papers are almost unanimous in the opinion that the rise in the price of peanuts is the result of the long legislative session at Columbia.

The new Postmaster General has decided that postmasters who fail to notify publishers when subscribers remove or fail to take papers from the post office, shall be responsible for the subscription.

Business men should have two signs—one on the building they occupy and one in the newspaper. Where there is a chance of one hundred persons seeing a street sign, two or three thousand will see one in a newspaper.

Johnathan Crow, of the Cheochee section of our county, died suddenly on the 2d instant, of heart disease. An inquest was held over his body by Trial Justice Gibson.

Mr. W. H. Heiley takes the place of Mr. Evans as agent at the depot at this place. Mr. Heiley comes from Greenville and is highly recommended for the position.

Excursion tickets to Charleston, good for eight days, will be on sale at the depots on the Blue Ridge Road until February 24. The fare from Walhalla for the round trip is \$8.20, we learn.

The Governor has appointed and the Senate confirmed the following persons to office in this county: Auditor, John J. Smith. Trial Justices: Samuel H. Johns, R. A. Matheson, D. T. Carter, John T. Daniels.

The present session of the Legislature cost the people \$150,000, registration \$20,000, militia \$10,000, Citadel Academy \$15,000 and State University \$12,000. Total, about \$207,000!

The ten plagues of a newspaper office are boro, poets, cranks, rats, cockroaches, typographical errors, exchange funds, book canvassers, delinquent subscribers and the man who always knows how to run the paper better than the editor himself.

Next Tuesday, the 14th, will be St. Valentine's Day. Our young people will no doubt pass many missives of love, comic and otherwise, through the postoffice to each other. We have heard of no Valentine Drawing of ye olden time.

Mr. William A. King, one of our best citizens, has about made up his mind to make Texas his home. We hope he will not regret this decision. Nevertheless we will welcome him back at any time. The latch string always hangs on the outside in Oconee.

Great men, as a rule, are born and reared in country places, generally remote from great centres. They grow up in obscurity, become giants in intellect without knowing it and finally find their way to the great centres, where they become the admiration of the world. History shows that it has always been the same as now.

We understand that our Presbyterian friends intend soon to make some improvements to their church, such as repainting, inside and outside, besides overhauling and changing and lengthening the steeple of their church. We are glad to note these contemplated changes for the better.

The new council, we understand, intend to make several substantial and permanent crossings on main street, at suitable and prominent places. The feasibility of paving main street by sections is also receiving favorable consideration by the town council. These are very important matters and we do hope something will be done to give us good side walks and streets.

The benefits of advertising in the COURIER is well illustrated by the statement of one of our druggists, who informs us that he put in the local columns of the COURIER an advertisement of a remedy for asthma and in a short time received from one of our subscribers in Montana, over one thousand miles distant, a cash order for the article. He is satisfied that advertising pays as well abroad as at home.

Mr. R. S. Thompson, one of Oconee's most promising young men, now has charge of the telegraph office and is depot agent at Clinton on the Laurens Railroad. Mr. Thompson began the study of telegraphy the latter part of last year and by dint of perseverance and close application to business made such proficiency as to receive the approbation of the officers of the Columbia and Greenville Railroad, and as a just reward of merit they have assigned him to the above responsible position. If we are not very much mistaken, "Bobbie" will go up much higher and will be the President of some of the great railroads in the South before many years.

We regret to announce that on the 5th instant a serious accident befell Master George Strother, while engaged with others in riding on a crank car near the depot. In endeavoring to turn the crank while in rapid motion he was thrown headforemost to the ground. It was first thought the skull was fractured, but we have since learned such is not the case, the fall only causing a slight concussion of the brain and some contusions of the face and breast. He is, however, we are glad to learn, getting better and will soon be well again. Keep off crank cars, boys, on Sunday.

The weather has been so cloudy ever since December that Prof. Legare has not been able to take observations on the sun till last Monday, when it was found that the town clock was 14 1/2 minutes slow. During the Christmas holidays the clock was allowed to run down once or twice and the warping of a plank interfered with its rate for a while. This has been remedied and the clock is set again for the true Walhalla time. It has been found that the clock does not vary more than one or two minutes in a month, which shows it to be a fine time piece. Prof. Legare informs us that he can regulate it even closer than this, if it is not allowed to stop between the observations. Some persons think that we should keep the Blue Ridge Railroad time, but we can see no reason why Walhalla should be guided by Washington or any other time than her own. It would not be the correct thing to make the sun get up a half hour before his time in the morning and put on his night cap a half hour too soon. The old gentleman makes his appearance now 14 minutes too late, and if we put extra work on him he might take a snooze of 24 hours, and thus get his whole apparatus out of tune and play fog with us all the year. Give him his time.

Dakota will be created into a State, with a population of 175,000. The cash valuation of property is put at \$18,000,000.

A destructive fire occurred at Johnston's, in Edgefield county, on the 7th instant. Loss about \$60,000, with small insurance subscription.

Twelve tramps visited Columbus, Ga., a few days ago and a few hours afterwards they were beginning a thirty days' sentence on the rock pile. This treatment generally and vigorously applied will reach the very marrow of the tramp nuisance.

Confederate bonds are still in demand in Charleston at \$3.50 per thousand, notwithstanding Mr. Benjamin, the Ex-Confederate Secretary of the Treasury, in a letter from London, completely dispels the hallucination that large Confederate deposits are in that city.

The South is slowly but surely moving in the right direction. Manufacturing interests are rapidly spreading over her domain; steam and water power are being utilized; her cities and towns are slowly but surely building up, trade and traffic following hard on their wake and sooner or later, this more desirable climate and portion of our country will become a formidable rival of the North.

Grave's defence before the court was insanity. Dr. William O'Gorman, a leading physician of Newark, testified that in his opinion the prisoner was of sound mind. Abner Kalish, Grave's lawyer, asked: "Do you believe in insanity at all, doctor?" "Not," said Dr. O'Gorman, "in the insanity that begins when a man has his finger on the trigger and ends when he has shot his victim."

CHARLESTON, S. C., February 4.—The jury of inquest in the case of George E. Osborn, killed in the recent railroad collision on the Charleston and Savannah Railroad, to-day returned the following verdict: "That the deceased came to his death from injuries received on the Charleston and Savannah Railroad on the 21st of January, caused by the collision between trains numbers 40 and 43, and we find that Conductor H. L. Pinkney and Engineer Burns disobeyed orders to meet and pass."

KAUQUITA INDIAN WORM PELLETS SOLD EVERYWHERE. TRY THEM.

A PRAYER INSTANTANEOUSLY ANSWERED.—A friend describes to us a remarkable scene witnessed by him at a religious meeting on Whidby Island, W. T. A member of the church, while praying, called upon God to strike him dead if a certain statement made by him in the strongest and most unequivocal manner was not literally and exactly true. He had barely uttered the last word when he fell dead. Coming as this did in the church and upon a leading member the effect upon the congregation can only be imagined.—Florida Key of the Gulf.

Valentines! A beautiful assortment of Valentines, both comic and sentimental, at NORMAN'S. Fresh candies at NORMAN'S.

A SMALLPOX REMEDY.—At the time of the small pox scare, in 1872, when Boston was sorely afflicted, a recipe for a remedy was twice published in the Hartford Times, and some one in Boston obtained a copy accompanied by a letter from the editor who stated that there were people in Hartford who could vouch for its efficiency. It was said that a person who tried it in Ohio in a case of confluent small-pox, where the doctor had little hope, found that it saved the patient's life. Other cases were then tried and every one was successful. The remedy was said to be equally sure in scarlet fever, and to prevent or cure the small pox, even though the pittings were filling. The recipe was as follows:

"Sulphate of zinc, one grain; foxglove (digitalis), one grain; half a teaspoonful of sugar; when thoroughly mixed add four ounces of water. Take a spoonful every hour. Either disease will disappear in 12 hours. For a child, smaller doses, according to age."

Of this recipe a physician said: "When Jenner discovered cow pox in England, the world of science hurled an avalanche of fame upon his head; when the most scientific school of medicine in the world—that of Paris—published this panacea for small pox it passed unheeded. It is as unfeeling as fate and conquers in every instance. It is harmless when taken by well persons. It is remarkable that this remedy should not be more widely known, if it is what it is claimed."

—Mr. James P. Wood was killed accidentally at a sawmill near Rock Spring, Laurens county, on the 28 ultimo.

—A drummer engaged in the sale of tobacco, an elderly gentleman by the name of Louke, was robbed of \$65 at the branch of the Clinton road, three miles from Laurens, on last Monday afternoon by negroes.

—Mr. Olem Wion, aged 85 years, a resident of Pickens County, fell from his wagon, near Greenville, on Thursday last, and broke his neck.
