Case of White Murder. Enoch Williams, the negro who was shot by Joe Wright, also colored, on the 28th, at a festival in Williamson, lingered until last Wednesday afternoon when he died. An inquest was held and the evidence brought out makes it a case of willful and premeditated murder. Williams was accused by Wright and without warning received the fatal shot before he could make any resistance. Wright is in the Anderson jail.

Tragedy at a Negro Dance. COLUMBIA, S. C., November 6.—(Railroad negroes working on the Seaboard at Cheraw, S. C., were on duty in which the respectable negroes of the town were engaged last night, and ran things in the style that is sometimes depicted by the evidence. A contest was fought by the toughs and Ed Sellers of Cheraw, was killed. No arrests have been made because the rioters are unknown. The town negroes are much incensed.

Count Esterhazy Convicted. PARIS, November 6.—Major Count Esterhazy, the reputed author of the bordereaux which brought about the conviction of Alfred Dreyfus on the charge of treason, was sentenced to five years imprisonment and a fine of 50 francs. JACKSON, Miss., November 6.—Hunter Jackson, a white man, who was out hunting in Pearl River Swamp, east of the city, several days ago, discovered a box containing nearly \$50,000. GRAND JURY PRESENTMENT.

Very Few Persons Presented—Jury Hopes the Commissioners will Recommend Sufficient Tax Levy to Meet all Expenses.

WALHALLA, S. C., November 8.—To His Honor, Ernest Gray, Presiding Judge, Oconee County, S. C., Fall Term of Circuit Court, 1890: This is the grand jury, beg leave to make this our general presentment:

By direction of Judge Gray, at the last term, we have, by special committee, visited all the changing camps in the county, to-wit: At Glenwood College, at E. P. Earle's farm and the county chancery, which just now is at the county poorhouse. At the Glenwood College, we found 25 convicts, at Earle's farm about 25 convicts, all of them were being well treated and the camps properly conducted so far as we could see. We have also in the same way visited the jail and found 22 United States and 10 State prisoners.

Since our last presentment the County Commissioners have placed waterworks in the jail, as recommended by us, and its sanitary condition is now greatly improved. We found everything neat and in good order.

We have also visited the poor farm and are glad to report the County Commissioners our last presentment at the suggestion of conducting and keeping the poor farm accounts of crops, &c. We find the papers well kept and the farm in good condition—the farm having produced this year about 575 bushels of corn, 6,000 bundles of fodder, and about \$25,700 worth of stock and eight milch cows to be turned into pork for use on the farm. We find 14 white and 3 colored inmates, from whom we heard no complaints as to their treatment.

In our last presentment, during the progress of our examination of the county, we found that Magistrates, Clerk of the Court and County Treasurer had failed, in some cases, to report the same to the County Auditor, as they are required to do. We call attention to the fact that the books of these different offices lack \$220.50 of balancing.

We desire to present one Thomas Bennett for carrying concealed weapons, to-wit: a pistol on the 24th of December, 1889, and on other occasions, and give the names of Henry and James Bennett and James Bennett as witnesses to prove the same.

We desire to present one John Chamberlain for carrying concealed weapons, to-wit: a pistol on the 24th of December, 1889, and on other occasions, and give the names of Henry and James Bennett and James Bennett as witnesses to prove the same.

Others, Why Not You? My wife has been using Chamberlain's Pain Balm, with good results, for a lame shoulder that has pained her continually for nine years. She has tried all kinds of medicines and doctors without receiving any benefit from any of them.

Long Creek Items. LONG CREEK, S. C., November 7.—The people of this section is very busy gathering and sowing grain.

Arbor Day Must Be Observed. Last they forget Superintendent McMahon calls attention to the school authorities to the law relative to Arbor Day. He hopes all schools will take an interest in the occasion. He has written as follows:

THE NEWS FROM SENeca. SENeca, November 7.—A heavy freeze on Friday night last made us realize that November was with us at last.

NEWS IN AND AROUND WESTMINSTER.

The News Told Briefly and Interestingly, The Passing Throng.

WESTMINSTER, S. C., November 8.—Mr. Saco, Hunter, of this vicinity, will open school at Westminister next Monday, November 13th.

On last Sunday morning, November 5, the Westminister Baptist church extended a fraternal and physical visit to benefit a unanimous call to Rev. N. G. Christopher, of Georgia. The church is to be congratulated on securing a man so well fitted spiritually and intellectually, to perform the various duties of pastor.

Mrs. Dr. C. B. Floyd and her little daughter, of Fairburn, Ga., are expected to arrive to-day to be guests of Col. H. E. Mason and family for several days. The innumerable friends of Mrs. Floyd will be delighted to see her.

Mr. W. D. Lesly and children are on a visit to his sisters, Mesdames Auld and Irvine, at Elberton, Ga. Mr. Lesly can be seen looking towards sunset quite often.

Mr. H. A. Davis is now flagman of the local freight on the Southern Railway. His run is between Greenville and Toccoa.

Rev. N. G. Christopher, who has been called to become the pastor of the Baptist church in Westminister, is expected to arrive here on the 10th inst. He is a native of Georgia and was reared near Blairsville. His family consists of wife and one child.

Mr. W. A. Dodge, Jr., of Atlanta, Ga., was in Westminister yesterday on business. A. L. Gosssett.

It will not be a surprise to any who are at all familiar with the good quality of Chamberlain's Pain Balm, to know that people everywhere take pleasure in relating their experience in the use of this splendid medicine and in telling of the many cases in which it has relieved them of all kinds of ailments.

Another great discovery has been made, and that, too, by a lady in this country. "Disease fastened its clutches on her seven years, she went through its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed and spit blood, and could not sleep.

The committee from the grand jury of Spartanburg has been steadily pursuing its work of investigating the county's affairs and has made discoveries of peculiar interest. The grand jury has been tampered with and the amounts raised. Some time ago "timely" was heard over the radio, but he has since disappeared and it is asserted in Spartanburg that he has gone to Canada.

Jesse W. Johnson, a farmer living near the upper part of Greenville county near Maryville, was shot and instantly killed on the road near his own home last Tuesday afternoon by a party named George Johnson. The cause of the killing is unknown.

SUNSTROKE in Battle.

J. L. SPENCER, of Plantersville, Wis., formerly of Co. B, 3rd Wisconsin Heavy Artillery, died on the 10th inst. from the result of a sunstroke. He was found lying on the ground in a field near the good of other veterans. He says: "At Petersburg I was sunstruck and carried off the field for dead. Later resuscitation of my heart developed as a result and physical. Struck to benefit me in the spring of '95 began using Dr. Miles' Heart Cure and Dr. Miles' Nervine and now my health is better than for 30 years before."

100 Filipinos Killed. The war department, at Washington, has received the following from Gen. G. W. Vint: "On the 10th of November (at Whenton's expedition, 2,500 soldiers, transports Sheridan and Aztec and two coasting steamers, conveyed by three boats from Angeles to Manila, on the morning of the 10th, the enemy at different points, O'Brien, with a detachment of 17th Infantry, two troops of 4th Cavalry and Slavov's scouts, moving in the direction of Angeles, on the 10th of the field. O'Brien captured 28 prisoners, 4 killed, and destroyed the other battalions, Seventeenth, Hamilton's battery, first artillery, and engineers and signal detachment, moved on direct road from Angeles to Magalang, capturing latter place and inflicting about 100, capturing 50 prisoners and large amount of stores and baggage. Our casualties reported at twelve wounded. Severe heavy rains for the last three days rendered decisive movements by the troops impossible. The country has abundant supplies at San Isidro, further north and will operate to the north and westward when the country now submerged rains."

Baby's Coming. Nature intended that every woman should look forward to the coming of her child with joy and hope, unclouded by anxiety or sorrow. In the case of the robust health, and looking bright and bright, it is a grand, good medicine. For sale by J. W. Bell, Walhalla; W. J. Lunney, Seneca; H. B. Zimmerman, Westminister.

A Costly Fire in Kansas City. KANSAS CITY, Mo., November 5.—The million dollars' worth of property was destroyed by a fire that started at midnight in Jones Brothers' big department store, on Main and 6th streets, and spread to a block of other buildings on Main street and Walnut street. The aggregate insurance is estimated at \$75,000. The heaviest losers are Jones Brothers, who estimate their stock, which was totally destroyed, at \$200,000. The insurance carried by this store was \$2 per cent. of the loss. It was a fire in most street, New York, on Friday killed five men.

Have You Heard of It? You may have heard about SCOTT'S EMULSION and have a vague notion that it is cod-liver oil with its bad taste and smell and all its other repulsive features. It is cod-liver oil, the purest and the best in the world, but made so palatable that almost everybody can take it. Nearly all children like it and ask for more.

SCOTT'S EMULSION looks like cream; it nourishes the wasted body of the baby, child or adult better than cream or any other food in existence. It bears about the same relation to other emulsions that cream does to milk. If you have had any experience with other so-called "just as good" preparations, you will find that this is a fact.

The hypophosphites that are combined with the cod-liver oil give additional value to it because they tone up the nervous system and impart strength to the whole body.

The manufacturers of Castora have been compelled to spend hundreds of thousands of dollars to familiarize the public with the signature of Charles H. Fletcher. This has been necessitated by reason of pirates counterfeiting the Castoria trademark. This counterfeiting is a crime not only against the proprietors of Castoria, but against the growing generation. All persons should be careful to see that Castoria bears the signature of Charles H. Fletcher, but he has since disappeared and it is asserted in Spartanburg that he has gone to Canada.

The Black Diamond Railroad. EARLE'S MILLS AND TOKEENA. TOKEENA, November 6.—The biting frost has come at last and everything, which looked so beautiful and green, has dropped from its poisonous bite into blackness. The Black Diamond Railroad project has come to the front again. The Advertiser Mail prints an interesting story about the situation and says: "The Black Diamond Railroad are jubilant over certain recent developments connected with that proposed trunk line. As was stated in the columns of the Mail several days ago, surveying in the South Carolina, Georgia is practically at an end, but that in North Carolina is yet to be finished. It seems now that a preliminary survey has already been made along the route to be pursued in the Tar Heel State, and in view of this fact the Lenoir and other applicants are informed that no funds would be expended to make a second survey unless the English capital syndicate would foot the bill.
