In his message the President sets forth the manner in which Cuba agreed to every demand that the United States had made, and promptly ratified the treaty. He urges that the treaty be ratified forthwith.

Attorney General Curran on Criminal Statistics. Columbia, November 14.—All of the state officers are busy engaged in making up their annual reports, but none more interesting and important than that of Attorney General Curran. This year he expects to incorporate in his annual statistics than has been done before. For the purpose of comparison, Mr. Curran will bring together statistics from various other States. It is too early yet to say definitely how the State will compare with the other States, but the figures so far received give a most unfavorable record in the matter of homicides. It is thought that the publication of these statistics will bring directly to the attention of the people the State's fearful record in this particular, and that the members of the Legislature will be creating public sentiment against pistol voting and its resultant evil.
