SUNDAY, JULY 7, 1912.

Subject: "Malignant Unbelief." Mark III:20-35.

Golden Text: This is the condemnation, that light is come into the world, and men loved darkness rather than light because their deeds were evil." John III:19.

1. Verses 20-21—Why did the relatives of Jesus think he was beside himself?

2. Why does a state of intense religious experience still impress the average man as insanity?

3. If the preachers who are infested with empty pews would become intensely spiritual what effect, if any, would that have upon the size of their congregations?

4. Verse 22—Where is the scene of this lesson laid?

5. Are Christians who earn their living by teaching religion liable to backslide in their own souls? Give your reasons.

6. What reason had these scribes to think that Jesus was possessed with the devil and cast out devils by his power?

7. What is that dangerous and subtle power in human nature which enables a man to believe almost anything in the line of his interests or prejudices?

8. Verses 23-26—Why may not Satan cast out a small demon in order to make way for a bigger one?

9. These scribes admitted the fact of Christ's wonderful miracles; why, therefore, and by what power were they performed?

10. Why is it that so many men, in spite of the fact that Christ's claim is so well established, continue to make such foolish attacks on Christianity?

11. How do you account for these scribes making such a foolish statement that Christ cast out devils by the power of Beelzebub? (This is one of the questions which may be answered in writing by members of the club.)

Hadley Deserts Roosevelt.

Jefferson City, Mo., June 27.—Governor Hadley on his return from the Chicago convention, reiterated his determination not to join Roosevelt's third party movement.

"I believe I can render more useful public service as a member of the Republican party than by joining in the formation of a third party," he said.

"While I have in no way changed my mind as to the correctness of that for which I have contended, I undertake to say that no political party ever did, or ever will, exist in which at times men will not use authority unfairly and to accomplish improper ends."

"In my opinion, the best way successfully to fight such men and methods, and also the best way in which to fight for correct principles of government is within the party, rather than by leaving it."

An increasing number of people report regularly of the satisfactory results from taking Foley Kidney Pills and commend their healing and curative qualities. Foley Kidney Pills are a carefully prepared medicine, guaranteed to contain no harmful or habit-forming drugs. They can have only a beneficial effect when used for kidney and bladder troubles, for backache, rheumatism, weak back or lumboago. J. W. Bell.

American Education for Children.

New York, June 28.—Mrs. Grover Cleveland, widow of the deceased ex-President, has brought her children back to this country to be educated in schools here. While they have been attending schools abroad it was only that they might learn languages.

In speaking of American schools Mrs. Cleveland said: "Education in America no longer means books entirely, but it means the drawing out of the best that is in a child from all points of view. Through the newer methods of schooling children are allowed to develop as naturally as a rose unfolding its petals when growing in the right soil and in the right surroundings. That is exactly the way education should affect the child."

Jocassee Jottings.

Jocassee, June 27.—Special: Miss Lizzie Crow and Linn Galloway, of North Carolina, were happily married recently. The bride and groom left the day after the marriage for North Carolina, where they will make their home. We extend congratulations and best wishes.

Bulus Burgess lost a fine horse a few days ago. The loss falls very heavily upon Mr. Burgess.

Farmers are badly in the weeds and grass on account of so much rain. Crops are very sorry.

If the Farmers' Union designated for any particular county is no longer active, names should be sent to Prof. Harper, as in the case of counties having no organization.

The co-operation of our agricultural people is earnestly requested in order to get the new law into effect, and in order that no county shall miss the opportunity of getting its scholarship.

It is expected that in addition to the one-year agricultural scholarships at least fifty others will take the one-year course. Applicants for admission to this course may stand entrance examinations along with the scholarship applicants at the county seats, or at the college in October.

CLEMSON EXTENSION WORK.

One-Year Agricultural Scholarships and Course at Clemson.

Beginning next session Clemson College will give an intensive one-year agricultural course to young farmers who desire to learn the important yet simple fundamental principles which underlie successful agriculture.

This course will begin October 1st and close June 1st, and will be open to young men eighteen years old and over. The course includes none of the usual academic branches such as mathematics, English, history, etc., but is confined to a study of the principles of crop production, horticulture, animal husbandry, dairy, etc. Agricultural arithmetic and simple course in parliamentary practice and public speaking will be given, sufficient to enable the student when he returns to his community to preside at a public meeting or to hold a farmers' institute.

The purpose of the course is to take young men 18 years old or older, who know the practical side of farming and make of them better and more scientific farmers and community leaders and builders as well.

An elementary rural school education will be required of those who apply for the course. Ability to read and write intelligently, and a fair knowledge of arithmetic constitute the requirements. The cost of the course, including fees, uniforms, board, lodging, heat, light and laundry, will be \$17.55. Those who are able will pay \$40 additional for tuition.

The Mims scholarship bill passed at the 1912 session of the General Assembly provides for scholarships in the one-year course as follows: One from each county, and seven from the State at large. Each scholarship is worth \$100 and free tuition. The trustees designate in each county the most representative organization of farmers. The executive committee of this organization, on or before July 1st, recommends to the president of the college three or more young men over eighteen years old, who have done worthy agricultural work during the preceding year, or in any previous year. These young men are notified of the recommendation and go up for competitive examination on July 12th at the county court house. They stand their examinations along with regular four-year scholarship applicants, but the examination is different and covers only the elementary common school branches. In any county where there is no organization of farmers, the director of the agricultural department of Clemson College solicits opinions from representative farmers of the county, and their recommendations are used as would be the recommendation of an executive committee.

The seven State-at-large scholarships are recommended in the same way, except by the executive committee of the most representative State organization of farmers. The young men recommended for scholarships at large stand their examinations at their county seats.

The examination papers are prepared and graded by the Clemson faculty and the award announced by the secretary of the State Board of Education.

Only young men recommended will be allowed to compete for the one-year agricultural scholarships.

The board of trustees has designated the Farmers' Union of Oconee county as the most representative organization in this county, and that organization will make recommendations from Oconee. For the other counties see Keowee Courier of June 19th.

It is earnestly requested that in counties having an organization, that interested parties give to the members of the executive committee of the organization names of desirable applicants. In those counties having no organization, farmers are requested to write to Prof. J. N. Harper, giving names of worthy young men who would like to compete for the scholarships. Recommendations from the seven scholarships from the State-at-large should be sent to E. W. Dabbs, President of State Farmers' Union, Mayesville, S. C.

If the Farmers' Union designated for any particular county is no longer active, names should be sent to Prof. Harper, as in the case of counties having no organization.

The co-operation of our agricultural people is earnestly requested in order to get the new law into effect, and in order that no county shall miss the opportunity of getting its scholarship.

It is expected that in addition to the one-year agricultural scholarships at least fifty others will take the one-year course. Applicants for admission to this course may stand entrance examinations along with the scholarship applicants at the county seats, or at the college in October.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh, being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials. Address—

Don't Suffer!

"I had been troubled, a little, for nearly 7 years," writes Mrs. L. Fincher, in a letter from Peavy, Ala., "but I was not taken down, until March, when I went to bed and had to have a doctor. He did all he could for me, but I got no better. I hurt all over, and I could not rest. At last, I tried Cardul, and soon I began to improve. Now I am in very good health, and able to do all my housework."

TAKE CARDUL The Woman's Tonic

You may wonder why Cardul is so successful, after other remedies have failed. The answer is that Cardul is successful, because it is composed of scientific ingredients, that act curatively on the womanly system. It is a medicine for women, and for women only. It builds, strengthens, and restores weak and ailing women, to health and happiness.

If you suffer like Mrs. Fincher did, take Cardul. It will surely do for you, what it did for her. At all druggists.
