

# MADE BAD LANDING

## Young Boche Airman Really Deserved Better Luck.

### As It Was, the Youth Probably Only Escaped Ignominious Personal Chastisement by Being Made a Prisoner of War.

Although he was a boche we admired his audacity. He came humming out of the summer blue on a sultry afternoon, swooping from nowhere right in the inner guard of half a dozen of our unsuspecting kite balloons. Swift and straight as a falcon he dived, and at the rattle of his machine gun and the flash of his tracer bullets pigmy figures strangely agitated came bobbing and gyrating earthward under their spreading parachutes.

Whirr! went his gun, and bliff, went the first balloon, a thin train of fire leading to a scarlet blaze and a gossamer wreckage. Before one could count twelve a second sausage had shriveled into skin and the Hun plane was making tracks for home.

The "Archies" had been taken by surprise. For a moment it looked as if the unwelcome visitor would reach his lines. But suddenly the "Archies" ceased firing, and it was then we saw a British plane pursuing at a pace that could only have one result. The German "side-stepped" twice by intention and once involuntarily. He smashed into a cottage like a goat butting through a fence, his propellers going through the thatched roof and his rudder cocking up in the air. The solitary pilot was pitched into a corner of the long orchard, little the worse for his fall. He was a small, thin, rather mean-looking young man, and he blinked stupidly at the remains of what had once been an airplane. A little dog barked at him, half a dozen fussy hens scolded him, and a very angry and very determined old lady came out of the cottage to investigate him.

She was a typical Flemish dame, massive of build, tenacious in character and practical in all things. Deliberately and of set purpose she advanced on the dazed airman. She caught him by the collar of his tunic. She shook her fist in his face, and she asked him in the incisive vernacular of the Flemish peasant what he meant by smashing up her house. She ordered him to look at the mess he had made, calculated the cost and demanded payment, all in a breath. She hooped insults on him, his parents and his airplane.

As she talked all the glory of war and the spirit of conquest evaporated from the flying Hun. He shrank till he looked like a small boy caught in a mean theft; his airplane, with its gaudy splashes, resembled a broken toy, and he tugged ruefully at his hair, and flushed and stammered and edged cautiously away.

As he retired the old woman advanced, and I am convinced that but for the prompt arrival of a guard of grinning Tommies she would have spanked that unhappy Teuton youth. Never did a man surrender so eagerly. When he and his escort had departed the dame "shooed" away the hens and then industriously plucked up the assorted fragments of the airplane for firewood.—Montreal Herald.

### Tunes for Tanks.

Probably no more unique donation has ever been made for the amusement of soldiers than one of \$50 recently given by a charitably disposed lady for gramophone records to equip a tank.

Other donations which have come to light from time to time have not lacked an element of the picturesque, as, for instance, the supplying of a hospital in Paris which was filled with African troops with 700 fans. They were so appreciated during the summer months that the hospital appealed for more. Not long ago a French officer issued an appeal for games for his men. In one regiment in which most of the soldiers were fathers of families the preference was for bowling. The trench does not make a bad alley.

## BAD COLD? HEADACHY AND NOSE STUFFED?

### "Pape's Cold Compound" Ends Colds and Grippe in a Few Hours.

Take "Pape's Cold Compound" every two hours until you have taken three doses, then all gripe misery goes and your cold will be broken. It promptly opens your clogged-up nostrils and the air passages of the head; stops nasty discharges or nose running; relieves the headache, dizziness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed up! Quit blowing and snuffling. Ease your throbbing head—nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only a few cents at any drug store. It acts without assistance, tastes nice, and causes no inconvenience. Accept no substitute.—adv.

## Had Hoped to Go Home.

With the American army on the Seltan Front, Nov. 12.—Germans who came into the American line late yesterday said their orders had been to retire with as little delay as possible. They added they had expected to be back in their homes in Germany a week from Sunday.

## AMERICANS ANNOY HUNS.

### Germans Ask for Cessation of Blasting Activities.

With the American Forces on the Meuse, Nov. 12.—Blasting by American engineers in a road repairing detachment caused the German high command to send a message to the Allies contending that the Americans had not ceased hostilities on November 11.

The message sent by wireless to the Allied high command was timed 2 p. m. and read:

"On the front of Stenay-Beaumont, along the Meuse, Americans continue despite the conclusion of armistice. Please order the stopping of hostilities."

The American reply to the German message read as follows:

"Received your radio. Orders have been given to the American activities signalled on the Stenay Beaumont front to cease immediately."

So the engineers did not blast during the remainder of Monday afternoon. Early this morning, however, they resumed their blasting.

The engineers are repairing a roadway in the region of Stenay. They rushed to a quarry immediately after the armistice conditions became effective, not thinking their blasting would attract attention. The explosions today did not bring any message from the Germans, so the engineers blasted with much energy, endeavoring to make up for the lost time.

## IT SHOULD MAKE A MILLION FOR HIM.

### Cincinnati Man Discovers Drug that Loosens Corns So they Lift Out.

Good news spreads rapidly, and druggists here are kept busy dispensing freezings, the recent discovery of a Cincinnati man, which is said to loosen any corn so it lifts out with the fingers.

A quarter of an ounce costs very little at any store which handles drugs, but this is said to be sufficient to rid one's feet of every hard or soft corn or callus.

You apply just a few drops on the tender, aching corn or toughened callus, and instantly the soreness is relieved, and soon the corn or callus is so shriveled that it lifts out without pain. It is a sticky substance, which dries when applied, and never inflames or even irritates the surrounding skin.

This discovery will prevent thousands of deaths from lockjaw and infection heretofore resulting from the suicidal habit of cutting corns.—adv.

## Willing to Be Taught.

"Diarist" of the Westminster Gazette says he had been hearing much lately of the Americans in France and the impression made by them upon the British there. "Without giving offense to anybody," he remarks, "I hope I may say that British admiration of them has gone far beyond the limits that were considered likely to be reached, and that they have become strong favorites. But there is one point in particular which seems to have impressed every officer who talks to me on the subject. They all quite expected to find the Americans fine men physically, with plenty of intelligence and their full share of courage and dash and endurance; but they agree that they have been surprised to note the eagerness of the new allies to seek advice. 'You have been at this game for years,' is, I am told, the usual formula; 'but we are fresh at it. Tell us what you know.' It is an admirable frame of mind," adds "Diarist," "and one that promises rapid progress on the part of the willing students."—Christian Science Monitor.

## In Defense of Her Flag.

How the union jack was ably defended by an Irishwoman in the streets of Paris on July 4 is amusingly told: "Outside one of the biggest drapery shops of Paris two ladies handled a union jack which lay on a great pile of flags for sale and remarked in French on its cheapness. The salesman, unskilled in accents, was rash enough to explain the low price by saying that 'the union jack wasn't in season.' He received in reply the most eloquent discourse attainable by an indignant Irishwoman of unblemished loyalty; and an Irish brogue speaking French is an engine of war before which the most intrepid must quail. There is one Frenchman who will never again suggest that there is a close season in union jacks.

## A New Fuel.

Because of the fuel shortage that is facing the United States and Canada a new fuel is to be introduced known as "carbocon." A plant is being erected in Virginia for the production of this substance which is a by-product. Its use has been tested by the United States navy and two railroads, which pronounce it a valuable smokeless fuel. By a new process bituminous coal is treated in such a manner as to recover greater quantities of such valuable by-products as tallow, sulphate of ammonia and valuable oils. From the residue is made the smokeless fuel "carbocon" in the form of briquettes.

## No Worms in a Healthy Child.

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Pleasant to take. 50c per bottle.

# TO CUT SHORT A COLD TAKE A CALOLAB

### The New Calomel Tablet that is Entirely Purified of Nauseating and Dangerous Qualities.

Of all the medicines in the world the doctors prize calomel most highly to break up a cold over-night or to cut short an attack of influenza or la grippe, sore throat or a deep-seated cough, and possibly to prevent pneumonia. Now that all of its unpleasant and dangerous qualities have been removed, the new kind of Calomel, called "Calotabs," is the best.

## CAREFUL SHIPPING WILL SAVE LIVE STOCK LOSSES

Columbia.—The attention of live stock shippers is called by the Food Administration to the necessity of careful loading of live stock, particularly hog shipments. While there is no available data at hand giving exact figures, the number of dead or crippled animals arriving at market is large, and, therefore, serious. It is not only a waste of money but a terrific waste of foodstuffs, and during the present crucial period when it is so vital to eliminate waste, it does not reflect favorably on those engaged in the live stock industry to permit such waste. While it has always been customary to lay the blame on the railroads, the Food Administration feels that, although the railroads may have been responsible for a great deal of loss in the past, it has not been a one-sided affair by any manner of means. The utmost care in loading live stock will result in cutting down the losses, and the co-operation of all those engaged in the live stock industry is asked by the Food Administration.

## Engineering Pays.

Basing conclusions upon the income tax returns, the best-paying profession in the United States is that of engineering. It excels even that of law, which long held the record, and is far ahead of those of theology and medicine. The reason for this is not difficult to find. This is a constructive age, even though the war would seem to contradict such an assertion. After the war, when reconstruction generally sets in, the engineers bid fair to become a class of plutocrats.—Christian Science Monitor.
