Sharon, Monday, April 1st, 8 O'CLOCK P. M.

After two years of phenomenal success in their home city and surrounding Canadian territory, the Toronto Male Quartet is now making its second tour of the United States.

The sympathetic blending of voices in ensemble, precision of attack, and selection of effects produced, make it equal, if not superior, to any quartet now before the public. The repertoire is varied and extensive, including both classical and popular music, rendered in such a manner as to please the most critical audiences. Scotch selections in costume and the playing of the novelty instrument, Maroharp, add variety to the entertainment.

SLIDE, KELLY, SLIDE

The good old summer time is almost here, and with its coming the red blood coursing through the veins of the real live members of the younger generation, is beginning to make the arms and muscles tingle for the feel of the Baseball Grounds. If you are a live member you must certainly be interested in Baseball, either as a player or as a spectator. If you are a player you want to begin to harden up your muscles for the coming games; if you are a spectator you want to begin getting your voice in shape for the right kind of "rooting"—if you care nothing for baseball, why you need a spring tonic and herbs. After which preamble, we just want to tell all Lovers of the Game that we are ready to supply them with all the paraphernalia of the great National Game—BASEBALL—COME AND SEE US FOR—

THERE IS A REASON

Johnson & Clark of Detroit, are state agents for the Mutual Benefit Life Insurance Company for the state of Michigan, and their agency is among the best in the amount of new business produced in the United States each year. For the past several years an increasing number of our customers are increasing their insurance. In 1911 this class of business amounted to 40 per cent. There is a reason for this and it is simply because of the fact that those Michiganers fully appreciate the fact that NO Life Insurance Company in the United States has such a Record as Mutual Benefit for giving Every Member a Square Deal, and that no Company Guarantees as much in its written contracts. During the thirteen years that I have represented the company I have had the pleasure of writing applications for the same men as often as from Two to Five Times, and I am morally certain that there are few if any Mutual Benefit policy holders in this section who feel that they have all the life insurance they care for in this company, provided that they feel able to carry more. Don't you think you should like a policy in such a company, too? You owe it to yourself to investigate its record and policy contracts.

SAM M. GRIST, Special Agent.

For the satisfactory manner in which you settled my claim, I desire to express my appreciation. My dwelling was burned down Thursday afternoon (the 11th), and without notice from me, Mr. D. E. Boney, your Agent, and Mr. W. S. Wilkerson, Director for Broad River Township, were on the ground the next morning with a check for \$1,050.00—the full amount of my claim.

Several years ago when I insured my property, your Agent insisted that I take more insurance, but the above amount was all I wanted to carry.
