SERVICE.
Because of the fact that I have been engaged exclusively in the insurance business for fourteen years, I have built it from top to bottom and am still at it, and represent the oldest and strongest companies, I do not believe there is an agency anywhere that is in position to render better or more Accurate Service to the person who wants any kind of GOOD insurance, than mine. If you place your fire insurance with an agent who knows little, if any, more about the insurance business than you do yourself, it will not make a particle of difference whether the insurance is properly written or whether the company is "vime tried and fire tried," and noted for its liberality in adjusting losses, if you never have a fire, but in case you do have a fire you may find when it is too late that there is really a difference in companies and agents. Others have, and why not you? When it comes to Life Insurance no man can successfully contradict the assertion that the Mutual Benefit Life Insurance Co. is the best in the business.

ELLWOOD POULTRY AND RABBIT FENCE.
THIS IS A FENCE—NOT A NETTING.
A strong and all-important distinction. Is especially designed as a poultry and rabbit fencing, it is sufficiently strong to stop all larger animals. Costs practically the same as the lighter nettings, while in the matter of service and durability it is worth ten times as much.
