P. H. McCully of the First regiment with a view to having the militia sent to the mill. Information furnished to the papers of yesterday morning by Mr. Manning, however, in this statement was denied.

Look Before You Leap. DURING the past six or eight years I have frequently heard the statement made that people had learned a great deal more about Life Insurance than they used to. And I believe that the individual who made up his mind to insure his life was pretty apt to Look Before He Leaped.

My observation is that "some" people have learned that all legal reserve or so-called "old line" companies, ARE NOT that "some" people have learned that all of their members in the same way, and that all have not records extending long over the years of years of a Square Deal to each policy holder, whether he knew what was his due under his contract or not—such a record, for instance, as the Mutual Benefit HAS. It is a fact that the average buyer of Life Insurance buys from an agent who "knew" after his regardless of what company the Agent represents, or the nature of the contract he sells. He is comparatively few seem to understand that while there is little difference in the net cost of insurance in any of the old, established, legal reserve companies, there is a vast difference in the Contracts. In view of the fact that the individual who buys the insurance "knew" after his regardless of what company the Agent represents, or the nature of the contract he sells.
