

HAIGHT & CO'S MAMMOTH CIRCUS.—We had the pleasure last week of seeing this mammoth concern in Charleston, and we can say in truth to all who have seen their bulletin board on our streets, that they "fill the bill." The balloon ascension, and Harry Wambold's aerial pedestrianism—walking a wire three hundred feet in length from the ground to the top of the pavilion and return—both gratuitous, are sufficient inducements to bring together the largest number of people ever assembled at our Court House, to say nothing of what will be seen within their large pavilions. While one fare will carry one to both the Menagerie and Circus, yet those who from religious scruples do not desire to go to the Circus, will be amply repaid when they have seen their large collection of foreign animals and beautiful birds. Probably a better collection will never be exhibited at Marion again. Then come and bring your families with you and let them see the wild representatives of Asia, Africa, Mexico, Java and Australia, and an endless variety of beautiful birds from Sunny and Winter Lands.—*Marion Star.*

Mapes' Phosphate the Cheapest and most Reliable Fertilizer in the Market.

ANDERSON, S. C., Jan. 30, 1872.
Mr. C. A. Reed, Anderson, S. C.—DEAR SIR: Your favor requesting my experience in the use of Mapes' Superphosphate of Lime last season was received, and in reply will state that I used it on gray, sandy soil, at the rate of 150 lbs. per acre, side by side with several of the most popular fertilizers, and its result was equal to any. In short, I am much pleased with its effect, and feel assured it yielded me 100 per cent. to where there was none applied. I expect to use it more largely this year, it being one of the cheapest, reliable fertilizers in the market.
Yours respectfully,
J. C. HAYNE.

Sinking Slowly.
Diseases that progress rapidly to a crisis are not the only ones to be dreaded. Canker or dry rot does not blast a tree as suddenly as a stroke of lightning, but unless arrested it destroys it as certainly; and in like manner chronic debility, although it does not kill with the swiftness of yellow fever, is as sure to sap the springs of life eventually as any acute disease, if not checked by invigorating medication. There is something inexpressibly touching in the spectacle of premature decay. Languor, pallor, emaciation, depression of spirits, and a distaste for exertion, are its ordinary symptoms, and they should be promptly met by tonic treatment. The best invigorant and exhilarant that can be administered in a case of this kind is Hostetter's Stomach Bitters. The stimulating principle of the preparation rouses the dormant energies of the system, and the strengthening and regulating properties give a permanent and healthful impulse to the vital forces thus brought into play. The failing appetite is re-awakened, the process of digestion and assimilation are quickened, the quality of the blood is improved, the secretions become more natural, and every organ that contributes to the nourishment of the body undergoes salutary change. By these means the repair of the physical structure is effected and its health and vigor restored. In no class of diseases has the beneficial operation of the Bitters been more marked and striking than in those characterized by general debility and nervous prostration. Ladies affected with these ailments find in this most wholesome of all tonics and correctives the safest and surest means of relief. It is strong to restore and powerless to injure. Such is the uniform testimony of "clouds of witnesses."

FROM DAN TO BEESHEBA.—From Charleston to Dahonoga, from the seaboard to the mountains, can be seen a marked improvement in the style of buildings in the last five years. Villages and farm houses all present a more elegant and comfortable appearance. The reason is well known. It is because in that period the whole country has learned to patronize that celebrated manufacturer of Doors, Sashes and Blinds, Mr. P. P. TOALE, Charleston, S. C.
