The friends of the Fair Play and Westminister R. R. are determined to finish the Road. Over half of the money has already been subscribed here, with Westminister yet to hear from. The next session of the Fair Play High School will commence on the first Monday in July, when it is expected that the attendance will be as large as ever.

Mr. Durham, living in the Fork, Anderson County, reports that a negro boy, aged 16 years, had and thinned out three and a quarter acres of cotton on his place in two days, and he did his work so well that Mr. Durham paid him fifty cents extra. This is no Texas tale.

A Card from Mr. A. R. Campbell. Mr. Editor: My attention is called to the report in the INTELLIGENCER of the difficulty which occurred at Belton on the 24th ultimo, between Lewis, Moorhead and myself, in which you say it originated from disrespectful language I had used about some ladies and attributed the same to Lewis. In justice to myself I desire to state that the cause of the difficulty was not from any disrespectful language used about any lady or ladies nor about Lewis or Moorhead, as several persons fully acquainted with all the facts well know.

The balance of the report is equally incorrect, as will be fully shown at the proper time and place.

Mr. Editor: It has been so long since you have heard from me that I guess you have almost forgotten that I occasionally send you the little news there is in our little "bung" and the surrounding community; however, you have not lost much, for to-day finds us just about the same that we were a month or so ago. The farmers are very busy, and have been for some time.

The crops in cotton exceeds last year's at least twenty per cent, and the part of the crop that has been worked is looking very well. I am sorry to have to report that some of our farmers are in the grass, and the recent rains have not helped them to get rid of it. A short dry spell will put them all right, though. With the seasons we have had both cotton and corn are growing rapidly. The latter for some time past has not been looking well in places, a fact for which I cannot account. The bottom corn suffered some from the rains of June last. If there are no drawbacks to the crop, it will make a handsome yield next Fall. From this time until the middle of July is the critical time with the farmers as regards seasons, and of course a drought would be very disastrous to them. At any rate, let us look at the bright side of the picture, and hope for the best. The farmers deserve a good season for their pains and labor, and in order to make up for the loss sustained by the failure of the wheat crop, which is very poor. In places it is hardly worth harvesting. The average yield can hardly reach five bushels per acre, and the probability is that it will fall far short of five. The oats, too, are very poor. They, like the wheat, have suffered from the rust. The partial failure of the oat crop will be very detrimental to a number of our farmers, who have been depending on it to help them through the summer. Salt has been tried here as an antidote to rust, but I have not heard from the parties as to the results.

Our merchants appear to be getting on very well. I hear no grumbling from them, but, on the contrary, I think they are hopeful for the future.

The political world of Fair Play is quiet. There is too much work just now, I guess, for the people to think about politics, besides Oconee is largely Democratic, and we can afford to be quiet. Oconee will roll up a handsome Democratic majority this Fall for the Congressional nominee of the State officers.
