

W. W. KEYS, LOCAL EDITOR.

BRIEF MENTION.

Next Monday is Valentine's Day. Good muddling cotton is worth 12 cents. Paul Stephens and Fred Clark left Anderson on Monday for Texas.

Rev. J. R. Earle, of Savannah township, has removed to Hartwell, Ga.

In the past five months \$351.40 has been paid into the Town Treasury in the way of fines.

Willhite & Willhite have recently replenished their stock of drugs, garden seeds, cigars, etc.

There are not less than two hundred dogs in this town, and yet only eighty-five have been returned for taxation.

Messrs. Moss & Brown have just purchased and put up in the rear of their store a coffee and planter roller.

Mr. D. B. Tate and Miss Janie Snipes were united in matrimony on the 20th ult., Rev. W. H. King officiating.

Without a mishap, we will get the town clock; and then let's work for a weather-cook out the Court House steeple.

Mr. Hamilton Stewart and Miss Mary White were married on Sunday last by A. E. Scuday, Esq., at his own residence.

The Bergers gave a chaste and elegant entertainment in Masonic Hall on Friday night to a large and appreciative audience.

Mr. Joseph Cox, of Belton township, fell the other evening while walking over his plantation and broke two or three of his ribs.

Capt. W. J. Kirk and Col. D. F. Bradley left Easley on Tuesday for Cincinnati in the interest of the Atlantic and French Broad Railroad.

The Williamson Female College opened on Monday with 98 pupils, 56 of whom are boarding in the College. This excellent institution of learning is gradually increasing in popular favor.

Rev. W. H. King performed the marriage ceremony of Mr. J. B. Leverett and Miss Lily Roseman, daughter of the late David L. Roseman, at the residence of Mr. G. I. McGee, on the 28th inst.

The Town Council has invested about one hundred dollars in twelve tubular street lamps, which are to be placed around the square in the places of the old ones, which will be moved out on the streets. A good investment, gentlemen.

We are requested to announce that there will be no preaching at Good Hope Church on the fourth Sabbath in this month, as the pastor Rev. R. C. Ligon will be unable to attend on that day. The Sabbath School exercises will, however, be held as usual.

The contract for grading the Savannah Valley Railroad was executed on Monday, the terms of which require work to be begun within ten days from that date. Dirt will be first broken near the residence of Rev. W. H. King, two miles south of town.

The Council fined two men on Tuesday for carrying concealed weapons—one \$20 and the other \$25. The only way to correct the evil is to impose the heaviest penalties of the law upon those who practice it, and that is what the Council seems disposed to do of late.

Mr. A. H. Osborn has just returned from a trip to Florida, and tells us that with some sections of the State he was very favorably impressed, while with others he was not. The three principal money-making industries of Florida is the fruit, vegetable and lumber business.

The moon entered the second quarter on Saturday, and ever since the weather has been extremely bad, the rain pouring down almost incessantly from Monday night to Wednesday evening. The water courses are considerably swollen, and the roads are in bad condition again.

"Any man who would take his county paper and then not pay for it ought to be drummed out of the State." That's what a prominent citizen of the Fork said to us the other day. We would like to have about 25,000 men in Anderson county with such consciences as his.

The Cowpens Centennial Committee have appointed Wednesday, the 11th of May, as the day for unveiling the Morgan statue at Spartanburg. The pedestal with the inscription is prepared and in Charleston, waiting shipment to that place. The statue will be ready in due time.

Appointments of the Y. M. C. A. for next Sunday: To conduct the afternoon meeting, J. H. Clark; Poor House Committee, J. W. Daniels, R. R. Todd; Jail committee, G. F. Tolly, A. P. Hubbard. Appointees are expected to serve or provide suitable substitutes, as it is important that the appointments be filled.

Mr. C. S. L. Stewart, of Savannah township, presented us on Saturday last a boll of cotton with eleven full and fully matured locks of cotton, which was taken from one of his fields last November. It is the largest we ever saw, and was produced from a mixture of the Simpson and Cheatham varieties.

Mr. J. E. Boggs, a rising young lawyer of Pickens, and Mr. Elias Day, of Easley, one of the Commissioners of Pickens county, paid us a call on Tuesday while in town on business. They speak well for their county, and are particularly hopeful as to the future of the Atlantic and French Broad Valley Railroad.

At the meeting of Pomona Grange of this county on last Saturday, the following persons were elected and installed officers for the present year: J. P. Smith, W. M.; T. H. Burris, O. A. B. Snipes, L.; Jephtha Harper, C.; A. E. Bowden, S.; P. F. King, A. S.; Rob't Moorhead T.; J. E. Breazeale, S. C.; C. Armstrong, G. K.

A Township Singing Association will be organized at Whitefield church, in Hope-well township, at 10 o'clock a. m. on the third Saturday in this month. All persons interested in music are requested to attend, and to carry their baskets. Prominent musicians from Greenville and other places have been invited and are expected to attend.

The Monthly Report of the State Agricultural Department for February is full of interesting information and reading for the farmers. We publish on our first page an article taken from the Report about the clay beds in Aiken county that is well worth perusal. They are mines of wealth that few people in this section knew existed in South Carolina.

The stockholders of the cotton factory to be erected near Williamson have organized under the name of the Pelzer Manufacturing Company, with the following board of directors who will serve the ensuing year: Francis J. Pelzer, Wm. Leiby, Wm. B. Smith, David Lopez and Ellison A. Smythe. The directors are all gentlemen of recognized worth in the business world, and will doubtless make their factory one of the finest in the land.

Judge Mackey says that no liquor has been sold in Marlboro in thirty-five years, and that the County is a perfect Paradise. Prosperity prevails, and the criminal record is exceedingly small. At the Judge's last sitting in the General Sessions the calendar was cleared in ten minutes, while in an adjoining County where liquor is sold the criminal business occupied the Court fifteen days.

Charleston News and Courier: The Rev. J. I. Bonner, D. D., the editor of the Associate Reformed Presbyterian, and president of the Due West Female College, is at the Charleston Hotel. He was married on Thursday morning last to Miss A. Lila Morse, of Lansingburg, New York, for several years a teacher in the college of which he is the presiding officer, and is attended by his bride on his visit to the city.

A dispatch from Hampton C. H. to the Atlanta Constitution, dated February 5, says: "Rev. Sam Jones arrived yesterday and preached last night to a large congregation at the M. E. church. People flocked from the country to hear him—some coming a distance of six or seven miles. He will remain several days and seems hopeful of a season of refreshing." Dr. Jones is one of the ablest ministers in the South, and wherever he goes is much admired for his eloquence and power.

There were a great many people in town on Monday, and from 12 m. to 5 p. m. things were particularly lively. The day was most favorable to a free use of ardent spirits, and the amount of drunkenness was distressing to behold. Taking everything into consideration, however, the order of the day was very good, the only thing occurring to create any excitement of consequence being the effort of two young men to resist arrest by the police. Out of the two or three thousand people in town only seven or eight were calabossed.

Mr. Kidd, of Oglethorpe county, Ga., sold out his possessions in that county recently and moved to Texas, but he was so disappointed in the country that he at once came back to his old home in Georgia, where he expects to remain contentedly the remainder of his life. Those who are thinking of emigrating from Anderson county to Texas, or any other section of the Union, are admonished to profit by this man's experience by remaining where they are. There is no better section of country on the continent than Anderson county, when everything is taken into consideration.

We are indebted to the Hon. Walter M. Gibson, of Lahina, Sandwich Islands, for a number of copies of the Commercial Advertiser, the official organ of the Hawaiian government, published at Honolulu, of which we learn that His Majesty King Kalakaua has departed his kingdom on a pleasure voyage around the world, leaving the reins of government during his absence in the hands of his sister, Her Royal Highness the Princess Liliuokalani, heiress to the Crown. The United States is on the programme of King Kalakaua's voyage.

The total amount of property returned for taxation in the town is \$331,309, of which \$144,725 is real and \$186,584 personal. Two hundred and forty-eight persons have returned for street duty, against 249 for last year. The amount of taxes that will be raised this year on the levy of 14 mills will be \$1,200 and \$1,300, besides the street tax of about \$500. The amount received last year for taxation was \$761,045, of which \$357,580 was real and \$403,465 personal, showing an increase in the value of real estate for the past year of \$57,145 and in personal property of \$13,110.

One of our merchants the other evening detected a negro man with a piece of meat he had stolen from his store, and gave him his choice between going to jail and taking a whipping. The thief preferred the whipping, and the merchant accordingly administered it in the best manner he knew how, and to the entire satisfaction of all concerned, the thief not excepted. This is the third or fourth case of the kind that has occurred in this place within the past twelve months, from which it seems that the petty thieves themselves would be accommodated by the re-enactment of the old ante-bellum whipping post law.

During the past week there has been an almost deadlock at Columbia in the shipment of freights to the up-country from Charleston, by the C. & G. R. R., and considerable complaint from merchants has been made in consequence. The block has been caused by the failure of the wood supply of the Greenville Road, extremely bad weather of the last two or three weeks and the delay in the receipt of a cargo of coal for use in the freight engines of the road, which have generally been converted into coal burners. At one time there were seventy loaded cars at Columbia awaiting transportation, but a break has been made, and the authorities are sending forward the freight with all possible dispatch.

The stock law goes into effect in that portion of Oconee county lying south of the Air Line Railroad on the 1st of March, and as might have been expected there is a good deal of dissatisfaction in that section in consequence, and some of the disgruntled citizens have employed counsel to resist its enforcement by legal process. The Wall-halla Courier of last week contains an excellent article on the subject, directed mainly to the opposition party, advising them to discontinue their opposition and to quietly submit to the change, as there is little hope of success for their efforts. The Courier's advice is good, and in less than twelve months those who are making so much fuss about the change will be its strongest friends—or we will be surprised.

Bushyhead, Chief of the Cherokee Indians in North Carolina, was in town last week soliciting contributions to purchase clothes and food for his tribe. He represents them as destitute of both. The tribe consists of about four hundred men and eleven or twelve hundred squaws and children. They cultivate a little corn and wheat, but have never sufficiently caught the inspiration of civilization to be successful in agriculture. This tribe received a pension from the United States until the war, since which time they have been cut off from the pension rolls for going into the Confederate cause. It is a pitiful sight for a civilized government to punish half-civilized Indians for going with the people by whom they were surrounded, especially when it is known that they would have been exterminated had they gone otherwise. Mr. Bushyhead received a number of donations while here.

An old well was discovered on the vacant lot belonging to Mrs. Lucy Langston on Hampton street last week by the falling in of the top of the ground the size of the well's mouth. The lot has been in cultivation two or three years, and the well repeatedly ploughed and worked over, and what has supported the two or three feet of earth that has concealed it from view is a mystery. It is ten or fifteen feet from the bed of the old General road, and is square and about 25 feet deep. Mr. J. F. Wilson, who has probably more knowledge of the immediate vicinity of Anderson prior to its settlement as a town than any other citizen in the county, says the only knowledge he has ever had of it is that it was one of the PAXAGA superior to all for Liver, Stomach and Dyspepsia.

IT IS FOUND AT LAST! SOMETHING NEW UNDER THE SUN.—A new era is dawning upon woman. Hitherto she has been called upon to suffer the ill of mankind, and her own besides. The frequent and distressing irregularities peculiar to her sex have long been to her the "dreadful spring of woes unnumbered." In the mansion of the rich and hovel of poverty alike woman has been the constant yet patient victim of a thousand ills unknown to man—and without a remedy for her soul, hath she cried. But now the hour of her redemption is come. She will suffer no more, for Bradfield's Female Regulator, "Woman's Best Friend," is prepared only by Dr. J. Bradford, Atlanta, Ga., and sold at \$1.50 per bottle by Willhite & Willhite, and Simpson, Reid & Co., Anderson, S. C.

There can be no question as to the wisdom of inducing white immigrants to the State from either the North or Europe. Those who have come from the North and settled permanently in our midst have always been valuable acquisitions to our population and society, and it mattered not whether they came as day laborers or as men of means. The European immigrants have likewise proven their worth and efficiency, and are slowly but surely working their way into the good graces of our people, and will soon take that position in the South that their thrift and industry entitle them to. It is true many of those who came into the State six or seven years ago, when the subject of immigration was first agitated, were worthless from having remained in Northern cities long enough to acquire bad habits, but with the exercise of proper care in selecting laborers good and reliable men can be obtained.

In this County, and probably throughout the whole up-country, Senator Clayton has doubtless tested more thoroughly than any one else the efficiency of European labor for farming purposes, and has satisfactorily demonstrated the practicability of employing it upon the farms of the South. He recently gave a reporter of the News and Courier the benefit of his experience with immigrants, which we reproduce on account of the general information furnished on this important subject. He said:

I think it was about five years ago that I got out into the country to work on my farm in Anderson county. I first got one man and his wife from Castle Garden, and next season I brought out from Germany three or four and eight other immigrants. The following season I brought out fifteen or twenty families, who are now located on my place and the places of my neighbors in Anderson county.

The cost of transportation from Germany to New York or Baltimore is about \$30 per immigrant. From New York to Anderson, by way of Charleston, the fare is \$15, and from Baltimore, by way of the Air Line Railroad, the cost is \$10.50. Arrangements have recently been made by Mr. Melchers, however, by which the cost from a Charleston to Anderson has been fixed at \$2.50. I pay them for their work on an average of \$12 a month for males and \$8 a month for females, and out of this they have to find themselves.

The wages are about the same as are paid for negro laborers, and the quality of the work is better. They are as fine ploughmen as I have ever seen. The women do cotton very well indeed. They work a little slowly but do the work well, and make expert cotton pickers. My experience with them is, remain remarkably healthy and keep their homes and themselves strikingly cleanly. They are constant workers and expect but three holidays in the year—Christmas, New Year's Day and Good Friday. I have both Protestants and Catholics on my farms, and they are of Polish descent. They have for the most part come from Posen, a province of Prussia.

I have at present about twenty of these immigrants in my employ, and I suppose there are as many more working on the farms of my neighbors. They have remained more contented and I have had less trouble with them than any class of laborers I have ever had to deal with. They all read and write German, and the younger ones acquire English with facility. I look upon these immigrants as the very class of people we want here in South Carolina to supplement our negro labor. I do not think they will supplant the negroes, but there is an actual scarcity of labor, and there is ample room for thousands of them. They are thrifty and economical, and have a tendency to strike out for themselves as soon as they have accumulated a little property. In this way we secure the services of first-class laborers for several years, who, by their own exertions, elevate themselves to good and prosperous citizens. Where persons propose to bring these immigrants from Germany they are required to give notice of their intention to the landowner to leave, otherwise their landlords can hold them.
