We have nothing very new in our midst except a runaway marriage on last Sunday morning. The bride, when he found his daughter absent unpermitted what was up, and started out to hunt her, and met her in a narrow aisle walking up the road, from the house where they had been so recently united. He ordered his daughter home, which she obediently went, while the groom went on his way alone, a sadder if not a wiser man.

It is useless to comment on the cold weather of the last few days, as no doubt the people of this county are fully aware of it. But the old saying holds good: "It is an ill wind that blows nobody good." The high wind which prevented the frost from falling, and killing all the fruit and early vegetables. If the cold weather had killed what could have been planted, and there should be not a hop on the vine, it would be a public calamity of a kind that should bring up the price of cotton we would say the latter.

The young folks in this section and about it are making fine preparations and looking forward with pleasant anticipation to the picnic at Fort Hill this Saturday in May, the 6th. Come up yourself, Mr. Editor, and printers, too, and bring all the young folks you can with you. We promise to enjoy it as good time. JEAN PAUL.

Caution. Mr. Edron: My attention has just been called to the fact that some of the young folks in this city, who are opposed to the establishment of a Dispensary, have signed the application of men for Dispensary on the false idea that the signing of these applications was not an application for the establishment of a Dispensary. Do not be deceived. The signing of these applications is the signing for the establishment of a Dispensary, for without a Dispensary there can be no Dispensary sign no applications. Whenever any one gets on his petition "a majority of the freehold voters of the city," he may be given a "permit" to dispense liquors, and thus the Dispensary is established. Don't sign anybody's petition or application unless you want a Dispensary established. N. D.
