THE RAFFLE OF THE PRUSSIAN NEEDLE GUN will positively come off this evening, 16th instant, at 8 o'clock precisely, at the Segar Stand, Mills House. Parties interested are hereby notified that if they are not present others will throw for them.

—o—

HIGH WIND.—The high wind which preceded the rain of Tuesday proved to be almost a tornado. It raised terrific clouds of dust, blew down fences in different parts of the city, and tore a tin roofing from the new custom house. A derrick was also blown down, and some damage inflicted on the masonry.

—o—

VALUA . . CARGO.—The ship *Mary Ogden*, Capt. COLDREY, having on board the following valuable merchandise, was cleared at the Custom House yesterday by Messrs. W. B. SMITH & Co.: 595 bags of Sea Island Cotton, 2345 bales of Upland Cotton, and 100 bbls. Rosin; the cargo valued at the sum of $371,262.

—o—

MESSRS. CLARK & Co., Chemists, Syracuse, N. Y., would call attention to the advertisements in another column, headed "Reparator Capilli," "Crisper Coma," and "Circassian Balm." These, undoubtedly, are the most perfect and efficacious articles of the kind ever offered the American public. To unbelievers, we would say, "try them and be convinced."

—o—

THE EASTERN JOURNAL, published in Bennettsville, S. C., we see in its last issue has changed ownership. It brought us the valedictory of Mr. C. P. TOWNSEND, the old, and the salutatory of Mr. WM. LITTLE, the new editor. We have known Mr. L. personally for the last seventeen years, and can speak confidently of his fitness for the position. He is a practical printer, a young man of considerable reading, and has recently been admitted to the bar. Mr. L. is at present in Charleston, on business connected with his paper, and we take pleasure in recommending him to the favorable consideration of our merchants, who will find it to their interest to extend their acquaintance in the direction of the rich Pee Dee country.

BURNING OF THE STEAMER KATE.—Yesterday morning at 4 o'clock A.M., the steamer *Kate*, of the Florida line, while lying at the head of Marsh's Wharf was discovered by several persons attached to the vessels in the neighborhood to be on fire. It was but a few minutes after this discovery before the whole vessel was in flames, and MARSH'S Dry Dock, the steamship *Falcon*, the bark *Ange Guardienne*, and the British bark *Seaman*, which were lying in the immediate vicinity, came in great danger of taking fire. This was so evident that several parties attached to these vessels severed the lines that held the *Kate* to the wharf, and the wind fortunately being from the west, the doomed boat was rapidly drifted into the river, where she soon burnt to the water's edge, and now lies a stranded wreck on the marsh of Schutes Folly, opposite the city. Captain LOCKWOOD visited the wreck during the day, and will endeavor to save the engines and the hull of the boat.

The origin of the fire is unknown, but is supposed to be the work of an incendiary, as it was under headway when first discovered.

The prompt action of the officers and crew of the adjacent shipping, in cutting her lines and letting the boat drift clear of the wharf, was the means of saving half a million dollars worth of property from certain destruction.

The *Kate* had recently been thoroughly overhauled and refitted by her owner, and had only left the dry dock a short time before the occurrence. She was insured for $25,000 in different Northern companies, but this sum will not cover the loss, as she was valued at $55,000. The *Kate* was a staunch and reliable boat, and has long been a favorite with the travelling public, who will miss the accustomed trip to the Land of Flowers. We condole with Captain LOCKWOOD on his loss, but hope soon to see him in command of a similar craft.

THE GERMAN SCHOOL, in Meeting street, opposite the Citadel Square, under the charge of Mr. A. J. HOFFMAN, is one of the most flourishing institutions of our reconstructed city, counting at present one hundred and seventy-five pupils. Germans it is well-known, are always desirous of having their children learn to speak and write their mother tongue, as well as the vernacular English. With this view they send them to Mr. HOFFMAN'S school, where both languages are taught. We paid a visit yesterday to this establishment, and were surprised at the proficiency exhibited by the pupils, by far the greater number of whom are small of stature, and of tender years. They recite with equal facility in English and German, and their writing also was very creditable.

Mr. HOFFMAN is an old and experienced teacher, having enjoyed in Germany a long and thorough special training for this profession, and what is perhaps still more to the purpose, is "apt to teach." He is ably assisted by Mr. BERGMAN, also a regularly educated teacher. There are several other assistants, we believe in the English branches.

We are not prepared to say that the children of German parents are more intelligent, more attentive or more studious than those of other "nationalities," but from what we saw yesterday, we are inclined to believe that either their home training or their school discipline is more conducive to forming habits of study than we generally find to be the case among the children of our native citizens. It may be that the simultaneous instruction, from their earliest youth, in two languages, is in itself a wholesome mental discipline. We have not given the subject the attention it merits, and only throw out this idea as a guess.

—o—

PIC-NICS—THE FREUNDSCHAFTSBUND.—The merry month of May has always been the favorite season for maroons, pic-nics, and all that class of rural sports and pleasures. In climates further North the weather is not unfrequently too cold to make "Maying" pleasanta, raw wind and a moist atmosphere rendering shawls and even furs sometimes very comfortable. It is otherwise here. The middle of May finds summer fairly under way. The trees afford a grateful umbrageous covering, the air is soft and balmy, and the breezes healthful and refreshing. We cannot say much for the birds, which are usually considered an essential accessory to a rural scene, as the feathered tribe in the vicinity of our city is represented almost exclusively by the buzzard, a very grave, useful and highly respectable looking fowl, but not generally considered ornamental in a landscape, or in place in a pastoral description.

Owing to the peninsular situation of Charleston, we are restricted within a comparatively narrow sphere for our pic-nic places. "Up the road" is the only outlet from the city by land. Mount Pleasant has always been the choice of many of our pleasure seekers. In former days Sullivan's Island also was much frequented, and while the new bridge was in existence, St. Andrews sometimes would receive its share of merry young marooners. The country above the city affords many excellent places for such recreation, but none so beautifully situated, or in all things so well adapted as the Schutzenplatz.

We yesterday took the South Carolina Railroad cars, and, in company with many others, bent on the same errand of pleasure, soon arrived at this delightful spot. A double row of young elms has just been planted, which, in a few years, will form a handsome avenue from the Railroad to the Club House on the "Platz." The grounds are quite extensive, and afford every facility for gymnastic exercise. The main building is quite large, the entire upper floor being one spacious ball-room. Here Mr. METZ'S Band discoursed in lively strains, and here to the tune of genuine fatherland music the merry dancers tripped the live-long day.

The day passed off pleasantly, diversified by the usual incidents to be looked for on such occasions: catching grass snakes and chasing lizzards, swinging, tumbling, etc. The comforts of the inner man were not forgotten, thanks to the illustrious Œkonom, Mr. NOLTE, and the assiduous attentions of the very efficient Committee.

PERSONAL.—Professor MAC EVOY and family, after a brief but most successful season at Hibernian Hall, left in the steamer *Falcon*, yesterday afternoon, for New York via Baltimore.

—o—

THE TRINITY CHURCH Sabbath School Pic-nic came off yesterday at Mount Pleasant. There was quite a large attendance, all enjoying themselves. In to-morrow's NEWS we shall give full particulars of this interesting festival.

—o—

WE INVITE the attention of farmers and shippers of vegetables to the advertisement of Messrs. KINSMAN & HOWELL in another column. These gentlemen are prepared to furnish crates for shippers, and to offer every facility for the transportation of produce.

—o—

A LA VILLE DE PARIS.—The "Grand Exposition" of elegant yet amazingly cheap dress goods opens this day at the above-named place. From Homespun to Grenadines, [The printer will please not print *Grenadiers*,] from calicos and longcloths to Mozambiques and crape d' Espange, every style of dry goods is offered at this Exhibition at greatly reduced prices. Also white and red check matting on the same accommodating terms. The Exposition is worth a visit.

—o—

MAYOR'S COURT, May 15.—A white youth, who had assaulted a colored man without cause, was fined $5.

Ella Snyder and Isabella Belmont, two colored dames, who had had a difficulty about the fashions, or some other matter that excites the female character, were brought up for fighting in the street, and amusing an audience without license, and were fined $5 each.

John Singleton and William Gibbes, two little colored boys, who had quarreled extremely about an India rubber ball, and had determined "to do or die" by a resort to brickbats, were arrested, just as they were loading their arms in preparation for the conflict, and fined each $5, which had such an effect upon them as to bring an apology from both, and it is hoped will make them friends forever.

Six hack drivers, who had not the rates of charge hanging in their carriages, as directed by Ordinance, were fined $1 each, and ordered to conform to the law, which will be very pleasing to the riding public, who have for some time past been dissatisfied with the trifling charges made.

—o—

COURT OF COMMON PLEAS.—Hon. R. MUNRO, presiding.—The Town Issue docket was called, and though no cases were tried a large number of verdicts were taken by consent. By far the majority of the cases were enjoined under Order No. 10 of General SICKLES and the verdicts rendered were of no public interest.

—o—

UNITED STATES DISTRICT COURT.—The Grand Jury, who were charged with the case of the United States *vs.* BARNEY MCBRIDE, of Columbia, for passing counterfeit United States currency, returned the indictment with the finding of true bill.

The petition of B. PAULEY BARRON, Esq., to be admitted to practice in the Circuit Court of the United States in South Carolina, was read by HENRY SEABROOK, Esq., and on his motion the petitioner was admitted and commissioned.

R. S. DURYEA, Esq., presented the petition of JOHN N. KORNAHRENS for citizenship, and the petitioner admitted to all the rights and privileges.

—o—

MASONIC JEWELS.—The Masonic fraternity were among the numerous sufferers by the late war, and in many instances their regalia and jewels were captured or destroyed by the enemy. During the siege of Charleston the property of many of the city Lodges was removed to Columbia, for greater security, but it either fell a prey to SHERMAN'S Bummers or was destroyed at the burning of that city. Landmark Lodge, No. 76, was a sufferer from these causes, losing their regalia, jewels and tools. At the close of the war the few surviving members endeavored to collect their companions and to rebuild the Lodge. This has been done, but the regalia, jewels and other implements of the craft had to be replaced, and it was decided to have them made in Charleston. It was ascertained that the work could be performed as well and as cheap here as in the Northern cities.

We had the pleasure yesterday of examining the new regalia and their appurtenances, and can safely say that they are in every respect equal to those made elsewhere. The jewels were made by Mr. JOSEPH BOCK, and the engraving and decorating by Mr. WM. FISCHER. They are of pure silver, and are elaborately worked and ornamented. The other articles are in keeping with the jewels, and the regalia and tools are worthy of the Lodge, which though young, has an abundance of life and energy among its members.

The work on the jewels and tools is extremely neat and ornamental, and reflects great credit upon both Mr. BOCK and Mr. FISCHER. We understand that the articles will be soon placed on exhibition at Messrs. WHILDEN & Co.'s Jewelry store, where the curious in these matters will be able to inspect them more closely.

—o—

MAROON OF THE CHARLESTON FIRE COMPANY.—On Tuesday last the Charleston Fire Company' knowing that "Merrie May" was the month for out door sports and communings with nature, took the Mount Pleasant Ferry Boat by storm, and accompanied by a band of music, were carried to that village, where preparations had been made to spend the day. TIENCKEN'S Hall at the head of the long wharf, was impressed for the occasion and the gallant firemen with their invited guests and a number of ladies, were soon engaged in the pleasures of the merry dance. The morning hours passed quickly away, as the amusements were varied and the whole party were evidently determined to enjoy themselves.

A luncheon served to divide the morning pleasantly, and when the Caterer announced dinner, it was unanimously conceded that Mount Pleasant should no longer be called Hungry Neck, and the name was rated obsolete. The rain storm which came up at this time, though it kept the party in doors, cooled the atmosphere and laid the dust, and when the skies had resumed their serenity, TIENCKEN'S was like a banquet hall deserted, for the guests gladly availed themselves of the opportunity to stroll in the woods along the bluff, and in the village, while some of the ladies were invited to take seats in the large swings on the ground, and were sent to dizzy heights by the strong arms of their firemen beaux.

The Company had chosen Mount Pleasant for their company ground, knowing, from experience, that there would be no lack of enjoyment, and the result proved the correctness of their choice; for the party did not return to the city until the last boat, and then with the firm conviction that they had spent a pleasant day.

All the World Over!

There are but few spots on our globe where HOSTETTER'S STOMACH BITTERS are not known; and, when known, appreciated.

In the United States and British America it has become a household word. As a protective against malaria, epidemic fevers, fever and ague, and other diseases produced by miasmatic influences, it stands far ahead of all other preparations, and is so considered by the most eminent physicians of the day.

In South and Central America, Mexico and the West Indies it has obtained a firm hold upon the minds of the people, and is implicitly relied upon as a certain preventive and cure for the many malarious diseases incident to those tropical regions.

In Australia, Tasmania, New Zealand, and adjacent Islands, its progress has been marvelous. Merchants, Miners, Farmers, Manufacturers and Squatters all endorse it. Thousands already has it saved from the pernicious effects of miasma arising from the low, swampy grounds so prevalent in those countries.

In China and the East Indies it is working its way with rapid strides, and is extensively used in the hospitals.

In conservative Europe, even, its influence is being felt; and the day is not far distant when

HOSTETTER'S STOMACH BITTERS

will become in the old world what it is now in the new—a never failing joy to the afflicted. 6 — May 13

MAPES'

NITROGENIZED SUPER PHOSPHATE

OF

LIME.

THE SUBSCRIBERS ARE NOW PREPARED TO FURNISH a limited quantity of this popular STANDARD FERTILIZER for top dressing. It may be used before or after the planting of the crop, for even when applied as a top dressing, it cannot be lost by evaporation, as no part of its constituents are volatile. It may be applied at each hoeing of Cotton, and in the hills during the cultivation of Corn, Potatoes and other crops. When crops have been previously manured in the usual way, and found to be of sluggish growth, it may be augmented by the use of this manure. To the Horticulturist it is invaluable, as it may be applied to fruit trees at any season of the year. Sold by

CROASDALE'S

SUPER PHOSPHATE.

THE STANDARD FERTILIZER.

THIS ARTICLE HAS BEEN THOROUGHLY TRIED in the South, for the last nine years.

It permanently enriches the land, and will pay three hundred per cent. profit upon investments the first year.

This Fertilizer will do as well if placed on top of the ground after the crop is up.

An effectual preventive to rust in Cotton. Have used it nine years.

DOOLY COUNTY, GEORGIA,
January 2, 1867.

To J. H. ZELIN & Co. Macon, Ga.:

I have been conversing with several of my acquaintances on the subject of Super Phosphates as a fertilizer; they are anxious to get something that will prevent rust in Cotton. That is a quality I can vouch for in Croasdale's Super Phosphate; that it effectually prevented rust in my Cotton through the whole time I have used it, which has been nine years. I think now I shall use about six tons myself out of the twelve ordered.

Very respectfully yours,
JACOB FUDGE.
