& Co., advertise to sell to-day at the British brig Rothsay, lying at Accommodation Wharf, a select quantity of sugars, molasses and wines. These stores are imported direct from Cardenas, and are of a superior quality. They will be sold for the lowest market prices, and we advise a general attendance, as it will probably be the last sale of the AMERICAN SCALES AT THE PARIS EXPOSITION.

A dispatch by Ocean Telegraph announces the fact that these celebrated scales take the first niums (two medals) at the Paris Exposition. and are mentioned in the award as the Standard Scales. Le Moniteur Universel, the official journal of the French Empire, says:

Among the expositions of the American section which attract the greatest interest, it is necessary to specially mention the collection of weighing instruments exhibited by the house of Fairbanks & Co., of 8t. Johnsbury, Vt., which has, for a long time, sustained a great reputation in this branch of manufactures. This collection embraces the most complete assortment of balances, from a single gramme to thirty thousand killogrammes cancity. The same house manufactures scales most complete assortment of balances, from a single gramme to thirty thousand killogrammes capacity. The same house manufactures scales espable of weighing five hundred thousand kilogrammes. These weighing instruments, universally used in America, are adapted to all the different systems of weights and measures in use in every country. This exposition deserves to be recommended to all our mechanics and farmers, and to everybody interested in perfect weighing instruments. Messrs. J. & F. Dawson, No. 96 East Bay, are

the Charleston Agents for these unrivalled scales. SHADE TREES.—It gives us great pleasure to oberve the care which is being taken of the trees nd the City Hall and Guard House, and to note the airy and strong boxes which have been built to protect them. This good example of the City Fathers, we hope, will be generally followed by that portion of our citizens who have planted them in front of their residences, thereby beautifying the streets and making their houses at least appear more comfortable. Some of our people, we regret to say, have been very careless in this ng out good and shady trees and ting to box them, while others have neglected to plant at all. But we think the pecuhar heat of our present season should prompt all to prepare for a coming summer, which no doubt ch this in warmth; and there is nothing, in our mind that can promote comfort as well as health in a city as its streets being well lined with rageous trees. Charleston never was more than when her sidewalks were crowded with them, and the folly of a city administration who had them destroyed brought an unusual ent of sickness on the city for many years after. With the exception of the burnt district-they are now replanted and quite numerous, and in the Upper Wards really abundant; but, as wo have hinted before, they generally lack the same ruction, and we bring the good and timely action of Council before our readers, hoping they may profit by so excellent a precedent.

REAL ESTATE SALES.—The following property was sold yesterday morning at the old Custom House by Mosers. LEFFOR & BRUNS, for J. W. Guay, Master in Equity:

A plantation on the west side of Wando River, in the Parish of St. Thomas and St. Dennis, containing 580 acres. This plantation being distant from the city twelve miles by water and fifteen miles by land, a fine beach extending along the whole river side, the land being partially cleared, and the balance well wooded with oak and Terms-One third cash; balance on a credit of

one and two years, secured by the bond of the purchaser and mortgage of the premises.

That lot of land, with the buildings thereon

tuate on the east side of Rutledge Avenue, in Ward No. 8; bounding to the west on Rutledge Avenue; east on land of Chamberlain; south on land of Dr. M. E. CARRERE, and north on land of JOHN E. PHILLIPS \$1650. Terms-One-third cash; the balance in one, two

and three years, secured by the bond of the purchaser, with interest payable semi-annually until the whole amount be paid, and mortgage of the premises; the buildings to be insured and kept inured, and the policy assigned, until the mortgagees are satisfied.

At the same time and the same place, Messrs. Bowers & Sucox sold all that lot of land, with the buildings thereon, situate on the east side of Coming street, between Morris and Cannon streets measuring in front on Coming street 34 feet 31 inches, and on the back line 30 feet, in depth from east to west 146 feet \$475.

AN AID TO THE FIRE DEPARTMENT.-The Board of Underwriters have for some time been preparing the necessary paraphernalia for a Protective Company, in order to secure the property usually destroyed or wasted at a fire. This company is composed of the present city detective force, who are required to be at every fire and to aid in preserving the property from loss or destruction. In order to effect this end, they have been furnished with six tarpaulins, which are to be spread over the goods in the store or building and thus preserve them from any damage by water, and in case the fire should render a removal necessary, the same tarpaulins can be used to transport the stock to a place of safety. Since this Protective Company was organized, Lieut. HENDEICKS, and his corps have been present at every fire and have had the tarpaulins ready in case there should be any need of their services. Fortunately the dam age has been so slight that it did not require the aid of the Protectives to secure any property and the office has almost been a sinecure; but the Board are determined to be prepared for all emergencies and have, in addition to the tarpaulins, ordered a wagon to be built that would transport the cloths to the fire. This wagon was received

yesterday, and from a personal inspection, we are prepared to state that it is admirably adapted for the purpose intended. This wagon was built by Mr. C. D. FRANKE, of No. 28 Wentworth street, at a cost of \$100, and is both light and well balanced. It has two lanterns, the first of a blue color, but both bearing the initials B. F. U., viz.: the Board of Fire Underwriters. There is ample space in the front for the clothes, while in the rear is a compartment under lock and key, designed for axes, hatchets, or other tools that may be necessary for the company. The wagon is designed to be drawn by hand, and has been made extremely light, the wood employed being oak and poplar. It is beautifully painted, and will be quite an ornament to the Fire Department. The recent frequency of rates as reasonable as the stringency of the money marmonished the Insurance Companies, that something must be done to avert the evil, and, by appointing Lieutenant HENDRICKS and his corps to be a protective force, they have acted wiselyand we can now confidently anticipate a great savtion in the fires that have heretofore been of fre-

quent occurrence.

REPRIEVE. - John Jenkins, who was convicted of the murder of RICHARD M. BRANDFORD in last July, was yesterday reprieved by order of General SIGKLES, until the 26th instant, the fourth Friday in the month. This is the second reprieve that has been granted to Jenkins on account of some doubts as to his complicity in the murder.

MAYOR'S COURT, July 11.-John Chisolm, a ragged, dirty negro boy, who had been taking healthful exercise in the streets by throwing bricks, was fined \$2, which not having exactly in change, he consented to remain in the guard house for two days, and agreed also to accept some sedentary occupation. A Teutonic individual, who looks upon all Gen-

eral Orders not written in Dutch as "void and of no effect," and, therefore, did not feel tound to obey No. 32, was picked up in the street in a state of rag-drunk. As his hat and shoes had been stolen while in that delightful situation, he was fined only \$5. Peter Brown, a colored boy, who had gone on

the wharf to pick chips, but who thought he would vary his employment by taking a piece of iron off the door of an office, was locked up for five days.

GOOD NEWS FOR INN-KEEPERS .- Since the pronunciamiento of the City Council, the hotel bar rooms have been closed, but, from the length and breadth of the land, the wail has gone forth, water, water, everywhere, and nothing else to drink." Variety is the spice of life, and an enforced temperance code can never be made binding, beside, the natural proclivity of man to evade oppressive laws will prevent the order from being beyed implicitly. We learn that, notwithstand ing the fine imposed by Council for the violation of Order No. 32, they will relax somewhat of their severity, and will grant licenses to inn-keepers. As there are numbers in the city who come under this category, the announcement will be received with pleasure, not only by them but by the numerous sufferers who have been deprived of their daily beverages, and who trust that the action of Council will not be long delayed.

A CHARLESTON LADY IN ANDERSON.—The many friends of Miss Bares will be pleased to learn that her lectures in the country have been a decided success, and that her known talents have induced numbers to attend and contribute their mite to the cause of charity. The Anderson Intelligencer says: "The citizens of this village will be delighted to learn that Miss Batts, of Charleston, will give one of her attractive readings in the Court House, on to-morrow (Thursday) evening, at 8 o'clock. The subject, "Eight Days in Scotland," will prove interesting to the public generally, and we are confident that the accomplished lady will find her efforts appreciated on this occasion. Her attainments and vast research into the dusty tomes of the past, and personal observation while on a recent visit to Scotland, will render a description of that country at once graphic, entertaining and instructive. Besides, the proceeds are to be do- TOSTORES, HOTELS, STEAMBOATS AND BOARDING we presume that this charitable disposition will augment the receipts of the evening."

THE FAIR.—The absence of any other attraction last night proved that the fair was not forgotten, and at an early hour the floor was crowded with gay promenaders. The band was stationed on the outside piazza, and the sound of the music proved a potent inducement for many to pay a visit to the penetralia once inside, the final step was taken, and there was no retracing it. As a consequence of this rush of visitors many wares were sold, and the exchequer of the church made somewhat heavier. It would be useless to refer to the appearance of the booths; for so much taste was displayed in furnishing and docorating them that no comparison could be drawn. They were each of them chef douvres, and reflected the greatest credit on the fair constructors. The amusements of the Fair were the same as in the past few nights, with the exception that the fairy forms flitted across the hall more frequently, and the domand for a purchase was reiterated oftener than before. It is well known that the object of KING AND MARKET STREETS this Fair is to repair St. Stephen's Church, and all who wish to give their mite to a good cause, and at the same time enjoy themselves, should not neglect to pay St. Stephen's Fair a visit.

planters, factors, and all others who are interested in packing and baling, is resquested to the advertisement of Mr. Wm. Roach, which appears in another part of our paper, in reference to a valuable band and tie for cotton bales. This useful invention, which gives good promise of superseding the old practice of baling with rope, was patented by Mr. Robt. Dillon, of New York, in February last, and from its striking convenier and usefulness, is coming into rapid notice. It possesses the following advantages: "the hoop bears evenly across its whole width, and across its entire breadth, cannot be put on wrong, and does not require one-fourth of an inch slack to admit of inserting the pin. The "universal tie" weighs no more than the usual rope-planters can avoid the frequent loss of cotton from broken bales, heavy men bills, &c. The inventor of the "tie" has had thir ty-six years practical experience in mending, packing, baling and compressing cotton, both in New York and the South, and the "tie" is the result of his observation and experience. The numerous advantages this improvement is said to possess renders it necessary that our cotton growers should give it an early trial. The agent, Mr. Wm. ROACH, of our city, will afford every necessary information to parties who may be desirous of trying this valuable improvement.

TO THE LADIES .- STOLL, WEBB & 'Co., will open this morning another case of those best quality prints, which they will sell at 124 cents at retail only; also, one case good longcloth at 121 cents.

PHLEBOTOMY. When Dr. Sangrado found his patients weak he gav ther: water gruel. When they got weaker he bled them and dosed them with calomel and jalap. Gil Blas tells us they almost invariably died. A good many people are killed that way yet. The world in general, however, has cay, HOSTETTER'S STOMACH BITTERS is the true life-sustaining cordial. This tonic is a powerful and perfectly harmless restorative. But it does more than nvigorate. It regulates and purifies. While it builds up the strength and infuses vitality into the blood. it orings all the secretions into harmony with the laws of nealth. The feebler sex find it invaluable in the various physical difficulties to which their organization renders them subject. In all hysterical and hypochondriaca cases its effect is magical. The infirmities of age are aleviated by its use; and where the circulation is torpid, and there is a tendency to paralysis, HOSTETTER'S BIT-TERS are recommended as a means of re-invigorating

the system and prolonging life. At this season of the year, particularly, when midsum mer's scorehing heat does so much toward reducing the vital energies of the body, this inestimable tonic and stomachic produces a wonderful effect. By it the strength is increased, the appetite preserved, and firmness and elasticity given to the system.

> OPINIONS OF THE PEOPLE: ALLENDALE, BARNWELL DISTRICT, S. C., March 1, 1867.

Mesers. Little & Marshall:

Gentlemen: I used, during the past season, one of fingersoll's Portable Cotton Presses," purchased of you last September. I have always been prejudiced in favor of the "Screw Press," and nothing but dire necessity induced me to try any other. I take pleasure, however, in adding my testimony in favor of its entire adaptation to the wants of a cotton plantation. It has surpassed my most sanguino expectations. I have packed with but two hands, yet I prefer four—two at each lever. My bales all weighed over 500 lbs. The first lot I sent to market averaged 562 lbs. My impression is that 500 lbs. is about the capacity of the Press, and a greater number of pounds subject the follow-block to too much risk, unless the sides of the cotton box was increased. It would add greatly to the value of the Press if the cotton box was ten inches longer. In haste, I am, very respectfully. Your obedient servant, &c., B. W. LaWTON. P. S. I took my Press down and carried it some four miles to pack the crop of a neighbor, who failed to have a "Screw" built; he was so much pleased that he has determined to abandon the "Screw" and purchase "Ingersoll's Press."

Gentlemen: I have just received your letter of February 14th—upon my return to this place, after an absence of two months—and this reply may be too late for your "Descriptive Circular of Ingersoll's Cotton Press."

The Press I used in packing my cotton last year worked admirably, packing, with case from 500 to 525 lbs. With good active hands to work it, I am satisfied that from eighteen to iwenty bales might readily be nacked in a day. packed in a day.

This Press combines the advantages of lightness, and

consequent portability and simplicity (being easily man-aged by any one of ordinary intelligence). Great com-pressing force, with little motive power, and "last, but not least," it is worked entirely by hand, thus saving for the farm horses the hard labor in He use of the ordinary "Screw."

Respectfully, &c., yours,

The proceeds of the Lottery, less the current ex-penses, have to be applied to the building and endowing of the

MASONIC ORPHANS' HOME, and being devoted exclusively to such a charitable purpose, permission has been granted by the Commissioners of Internal Revenue of the Treasury Departmentat Washington, to draw said Lotteries exempt from all charge, whether from special tax or other duty.

Hundreds of thousands of friends of the Masonic Fraternity in the United States, and all good citizens, will be rejoiced to see the "MASONIC ORPHANS' HOME'

ected and endowed, and be the pride and glory of the rand Fraternity, for the great institution of FREE AND ACCEPTED MASONRY hovers, like God's Angol of Mercy, over the widows and orphans. It ministers its loving charities to those in want, and its principles of liberality, brotherly love and charity will endure for ages, and their binding force be strong as links of steel.

PLAN OF THESE GREAT LOTTERIES AND EXPLANATION OF DRAWINGS.

EXPLANATION OF DRAWINGS.

The numbers from 1 to 30,000 corresponding with the numbers on the Tickets, are printed on separate slips of paper, and encircled with small tubes and placed in a glass wheel—all the prizes in accordance with the Scheme, are similarly printed and encircled, and placed in another glass wheel. The wheels are then revolved, and two boys, blindfolded, draw the numbers and prizes. One of the boys draws one number from the wheel of numbers, and at the same time the other boy draws out one prize from the wheel of prizes. The number and prize drawn out are exhibited to the addience, and whatever prize comes out is registered and placed to the credit of that number—and this operation is repeated until all the prizes are drawn out.

The Tickets are printed in the following style: They are divided into Eighths, printed on the face of the Ticket. S Eighths bearing the same number consitute a Whole Ticket. Prizes payable without discount.
