NEWS SUMMARY.

-Gold closed in New York yesterday at 34%. -Cotton in New York yesterday was steady;

sales 2000 bales at 28\u00e4a28\u00e4c. -Cotton in Liverpool closed yesterday quiet at 11id for uplands; Orleans 12id; sales 10,000

-The bridge across the Mississippi, at St. Louis, is to be at once begun.

-The London Fun proposes to re-christen the Russian capital "St. Pattisburg."

-The very long gauntlet kid glove still retains its great popularity among the fashionable young ladies. -The Richmond Whig says it has gratifying

assurances that General Grant will give Virginia a fair election. -The slave trade is said to be extinct, the English squadron to suppress it being w.th-

drawn from the African coast. -The Cornell University, at Ithaca, N. Y., as said to be negotiating with John Stuart Mill,

to get him to accept a professorship. -The "Nonpareil" and "Red, White and Blue" are to be matched across the Atlantic, the one making the longest time over to be the winner.

-An able-bodied negro died of starvation at Columbus, Ga., recently, the evidence at the inquest showing that he starved rather Than work. -The faro bankers of New Orleans are try-

ing to make the United States Assessor call their game a lottery, so that they may be taxed and find a legal existence. -- William Sturgis, of Chic go, who hast just

gone into bankruptcy, reports his liabilities at four nillion, four hundred and fifty-five thousand dollars. They do everything on a liberal scale in Chicago. -It is reported that on the 1st of July the

emigrant will be able to leave New York city and make the through trip on the railroad to Sacramento for less than \$100 in currency; cost for passage and through tickets for passage in first-class cars will not cost over \$100 in gold. -Incredible as it may seem, a three story

brick house, eighteen by forty feet, and in the construction of which 42,350 brick were used, was built in Lancaster, Pa., last week, in nineteen and a half hours, and persons were living in it within three days from the time it was -The Massachusetts Senate has concluded

to exempt lager from the catalogue of intoxicating drinks which are to be forbidden by the prohibitory law, provided that the article does not contain more than three and one-half per centum of alcohol. Furthermore, it is not to be sold at a public bar or to be drank on the

-Mr. Patrick Henry Jones, late registrar of New York city, has been appointed postmaster of New York city, in place of Mr. Kelly, who was nominated but not confirmed by the Senate. He is the same gentleman who generously came forward and accepted the registrarship of New York city, made vacant by the death of Charles G. Halpine, (Miles O'Reilly) to whose widow he turned over the full salary of the office for the unexpired term.

-General Howard proposes to continue the educational work at the South, which was commenced while he was at the head of the Freedmen's Bureau. It is stated in recent reports that State Superintendents, under the Bureau, show a desire for a continuance of this work at all points except in Texas, where prejudice is so strong that it is found impossible to do the proper educational work, and within a brief period not less than sixty school-houses have been closed. For the purpose of continuing the work, General Howard proposes to raise the funds in the North.

-It is said that General Lee who was, at last accounts in Baltimore, is about to visit President Grant. A dispatch to the New York Herald says: "A gentleman who professes to know the facts connected with this projected visit states that General Lee, who is now in Baltimore, where he has been staying for a week past will come to Washington shortly, and will be the guest of Montgomery Blair. It is stated that the General will visit the White House during his stay here, and will have one or more interviews with the President, who has requested General Lee to call upon him. It is intimated that the object of the interview sought for by the President is to obtain from General Lee his opinion in regard to the working of the reconstruction laws in the State of Virginia, and of the present temper of the leading citizens of the South. What other matters are to be touched upon by the two principal military chieftains is not definitely known, but from all that has leaked out concerning the proposed conference it is fair to infer that it will be of more than ordinary significance."

-A New York letter, of Tuesday, says: "It is a long while since anything has orcasioned so much remark in newspaper circles as the scandalous developments contained in the Sun, of this morning, concerning the way in which, it is alleged, Mr. John Russell Young, managing editor of the Tribune, has been using the influence of his position to promote his own pecuniary interests at the expense (as it is further alleged) of Senator Cameron, of Pennsylvania, Judge Chase, and other promiu nt politicians; also, the Tribune stockholders; also, the New York Associated Press. The whole press feel that the profession has been disgraced by these doings of one of its members, if true; and, if not true, that it has been not less disgraced by the publications in the Sun. It is due to Mr. Young to say that he is yet to have a hearing before the public, and that it would be unfair, in the meantime, to condemn him, unheard, however much appearances may be against him. And yet, it must be added, that at a meeting of the Tribune stockholders last evening, he was deprived of his position—though, for some reason or other, the vote was reconsidered, and so the gentleman still holds on."

-The project of a ship railway across the Isthmus has been discussed of late, and a memorial in that behalf was lately offered by Mr. Wilson in the Senate. The idea is of loading ships upon a railway track by the common principle of the floating docks, and transport-a ng them over the Isthmus rather than through chemistry.

THE DAILY NEWS. it. The scheme is said to have the endorse ment of some of our ablest engineers and naval constructors. The magnitude of the pecuniary interests involved is presented by some tables. prepared with great care by F. W. Kelley, Esq., of New York, which show that the saving of distance by this route from New York to Calcutta will be 9600 miles; to Canton 10,900; to Shanghai 11,600; to Valparaiso 8100; to San Francisco, 14,000. From a table showing the trade of the United States that would pass through the canal, taken from the official returns of 1857, the total value of ships and cargoes is \$193,168,937; tonnage, 1,857,485. The annual saving to the United States in insurance on vessels and cargoes, interest, wear and tear of ships, time, wages of crews and provisions for the same, he estimates at \$35,995,930. The estimated saving to the trade of the world, based on the official returns of 1857, is \$49,530,208. To these figures Mr. K. adds the statement that the exports of Great Britain increased in ten years 107 per cent ; of France, 130 per cent.; of the United States, 93 per cent. "If the trade of the world increases 100 per cent. in ten years, the saving will be \$99,060,416 per annum." The savings of a sinple year, then, far exceed the estimate of the cost of building the proposed ship railway. Mr. Hanscom, engineer and naval constructor, and builder of our monitors, estimates the cost of a ship railway at one-eighth of the probable

CHARLESTON.

SATURDAY MORNING, MAY 1, 1869.

The Future of the South, as Seen Through Northern Spectacles.

If anything were wanting to reassure our people in regard to the prospect that is before them, it might be found in the remarkable change of tone noticeable of late in all the allusions of the Republican press of the North to Southern affairs. The New York Commercial Advertiser tells its readers that "all classes of our people have a "common interest in the prosperity of the "South. Another season's good crops in "that section of the country will do more to "place the nation in a condition to resume specie payments than all the theories of 'politicians, or the long-drawn out wisdom of Congress. Through much distress and "misery the South, in spite of politicians and the blunders of legislators, is now entering upon a new and substantial ca-"reer of prosperity that may soon eclipse "the glories of the West and North," The Philadelphia North American, hitherto one of the bitterest and most uncompromising of our enemies is in high glee at the signs of our material recuperation. In its issue of Wednesday it says: "It is found by a careful investigation into the amount of last year's crops, and their selling prices, that the South retains about \$200,000,000 "gold from them. It is known that there is little debt there, the general crash hav-"ing cleaned away everything down to the "foundation, and economy of expenditures "having been substituted for extravagance. Taking one State for all, Texas, that suffered as much from the war as any, has "over 3,000,000 head of cattle within her "limits, and can export 1,000,000 annually -better beef at lower rates than can be "furnished from any other section. The "freed people are working contentedly for

wages. The old credit system that ruined the planters is dying out. The planters "are using their current profits to stock "and improve their lands. The books of our manufacturing establishments and "shipping lines show the value and amount of material that is weekly going forward to enable greater production. This will be wealth, since it is paid for beforehand, and not by mortgages on hope. These facts come directly home to our own interests. They underlie a good and growing demand for our manufactures of every sort, with a pleasing assurance of payment and a comforting certainty that the raw material will sustain the consumption, and that prices will slowly tend downward. They are the very facts that 'are wanted to give to our commerce the

'has so long been without on the Atlantic." These are fair specimens of the spirit in which the whole Radical press of the North. just now, not excepting the "two papers. both daily," of the notorious Forneytreat the affairs of the long maligned and persecuted South.

impetus it feels on the Pacific coast, but

Pacific Railroads.

To-day, we are told, the last rail of the Pacific Railroad will be laid, and within a fortnight passengers will be able to sweep brough on a continuous line from Washington to San Francisco. The completion of this great work, which was begun only ave years ago, marred as it is, by gross defects incident to hasty construction by a pack of greedy speculators and sculless contractors, is yet a mighty stride in the progress of the country. The next step in the same direction must be taken by the South. That the Southern Pacific Railroad is to be built, and built soon, is one of the facts of the future, although Congress has denied to such a road even the right of way. It will be constructed probably without the use of money abstracted from the peckets of the people, and, rightly managed, it will accomplish for the South double what the other railroads to the great Western ocean can achieve for other sections. Let the Southern press see to it that the subject is incessantly agitated.

Technical Education.

The latest recognition of the importance of technical education in this country, is afforded in a report transmitted by General R. E. Lee, President of Washington College, Virginia, suggesting a plan for the extension of the scientific and practical departments of that institution. The main points of the plan presented are as follows: . The establishment of new departments of agriculture, of commerce, and of applied chemistry. 2. A more complete development of the engineering schools now in operation, so that to the ocurse in civil and mining engineering shall be added a distinct course in mechanical engineering, to embrace, besides machinery, the most important branches of practical mechanics. 3. The opening of a farm and workshops in connection with the instruction in agriculture, industrial mechanics, and practical

The Stream of Immigration

We are glad to see that business organizations at the North are at last actively interesting themselves in the good work of forwarding immigrants to the Southern States, and so far, with the most encouraging success. It is true that their operations, for the present, look mainly to the establishment of colonies in Virginia; but, now that a beginning has been made, the movement must inevitably extend Southward, and when inquiry is made as to natural advantages of the States, South Carolina certainly need not fear the result of a comparison with the best of her neighbors. The following from the New York Times, of Wednesday, shows the HOMESTEAD BUILDING AND LOAN character and extent of the movement to

which we have referred: "The Manhattan Company have sent Southward within two weeks 416 persons, and many "others are leaving daily. The locations chosen are south of the James River, in Kemble, "Amherst, Bedford, Franklin, Mecklenburg "and Halifax in Virginia. Each settlement "numbers from twenty-five to fifty families, and the lands have cost them, in a state of "half cultivation, from \$1 50 to \$10 per acre. "The colonists have purchased from 20 to 300 "acres each. The payments may be made as "follows: Some quarterly, in advance, some 'semi-annually, and some in labor. The Old "Dominion line of steamers carry Southward "every trip some member or family of this col-"ony. The next regular batch will leave May "2, and 5000 members are expected to leave "within the next three months. The com-"pany have added \$850 to its treasury within "the past week, making \$3000 therein at pre-"sent, with a reserve fund of \$14,000 deposited "in city banks."

APPLETON'S JOURNAL continues to improve with each succeeding number. Its issue for this week is accompanied by the second of a series of beautifully-executed steel engravings, which the Messrs. Appleton intend to make a feature of their journal. The one with the present number is from a painting by Mr. A. F. Bellows, and is entitled "The River Road." This series of engravings will, in the course of a year, include landscapes by Church, Casilear, Durand, James Hart, and other wellknown artists, and of figure subjects illustrative of American life, by F. O. C. Darley. The other features of the journal are scarcely less attractive than the engravings. Of all the great Northern publishers, the Appleton's alone have kept aloof from sectional bias, and nothing has ever issued from their presses intended to wound or defame the Southern people. We hope that the journal will attain the wide circulation which it so well deserves.

JUDGE GREEN has fellowed the lead of Judge Carpenter in deciding that the Homestead law does not protect from levy and sale any land, when the judgment is older than the law.

THE OHIO LEGISLATURE has authorized Cincinnati to create a loan of \$10,000,000 to secure the connection of that city with the Southern railroads centering at Chatta-

Wants.

fot Sale.

FOR SALE, THE 'HORSESHOE'

FARM, on French Broad River, North Carolina, well known in the vicinity as one of the most produce tive and desirable in that romantic region. The tract contains 650 acres, 300 of which are river bottom, and produce largely—these are thoroughly cleared and free from stumps, allowing freely of machine culture; 350 acres of mountain side, passent a fine pasture. There are 500 or 600 apple trees bearing and about 1000 young trees, a number of fine grape vines and other fruit. The dwelling is substantial brick with six fine rooms, pantries and closets; abundant outbulldings, several of brick, including a fine dairy, through which runs a never falling stream from the mountain. The place is but seven and thirteen miles respectively from the thriving Towns of Henderson and Asheville; from the latter a railway will soon be completed to Enox-ville and the East and far West. A few fine stock catile and hoge, and a flock of sheep, all of mixed imported breeds, will be sold with the place. Terms very easy to parties designing to occupy the place as a home. Apply to SAVAGE D. TREENFOLM, Ro. 14 Boyce's Whart.

New Publications.

APPLETON & CO.,

Commenced April 3d, APPLETON'S JOURNAL,

A WEEKLY PAPER, Devoted to Literature, Science and Art.

Omitting ordinary news, and avoiding partisan ad-coacy, both political and sectarian, the Journal will be devoted to general literature, to science, art and ducation, and to the diffusion of valuable informabe devoted to general literature, to science, art and education, and to the diffusion of valuable information upon subjects of public importance. It is intended to make use of all resources, original and selected, domestic and foreign, which can give interest and variety to its pages; and neither exertion nor expense will be spared to secure the aid of the best talent of the time. We abstain from the large professions and the parade of conspicuous names so common on these occasions, and, trusting to the intelligence of the reople, shall be content to let the journal speak for itself.

The department of Literature will embrace:—Fiction, in the form of both Serial Novels and Short Stories; Essays upon Literary and Social Topics; Sketches of Travel and Advanture; Discussions upon Art, Books and Kindred Themes; Papers upon all the various subjects that pertain to the pursuits and recreations of the people, whether of town or country, and Poems by our foremost Poets. Illustrations will form an important feature in the plan of the Journal. Nearly every number will be accompanied by either an ILLUSTRATED SUPPLEMENT on some popular theme, a STEEL ENGRAVING, in the best tyle of the art, or a large Cartoon engraved on wood.

No. 1. Contains a Cartoon of the grand drive in

some popular theme, a STREL RNGRAVING, in the best style of the art, or a large Cartoon engraved on wood.

No. 1. Contains a Cartoon of the grand drive in the Central Park—a spirited and animated scene.
No. 2. Contains an Eight-page Supplement of Underground Life and Mining, with ten Illustrations.
No. 3. A Steel Engraving of Noon on the Seashore, from a Picture by Rensett.
No. 4. An Art Supplement, containing New York Illustrated, with thirteen superb Illustrations.
No. 5. A Superb Cartoon of the Levee at New Orleans.
No. 6. A Superb Cartoon of the Levee at New Orleans.
No. 6. A Superb Cartoon of the Levee at New Orleans.
No. 6. A superb Cartoon of the Levee at New Orleans.
No. 6. A superb Cartoon of the Levee at New Orleans.
The Hustrations will be simed at in this department. The Illustrations will usually be valuable as works of art; there on Steel and the Cartoons, ornisting of Views of American foce ery, by our most distinguished Painters, and Illustrations of Character and Life, by our foremost Draughtsmee. They will be printed with extra care on separate sheets, and may be either bound in the volume at the close of the year, or framed to hang a point of the wall. The Journal in this feature will be unlike any other.
Each number of APPLETON'S JOURNAL CONTAINS 32 PAGES OF READING MATTER. The great novel of Victor Hugo, entitled "The Man who Laughs, or by the King Enommand," was begun in the first number.

Price 10 cents per No., or \$4 per annum, in advance.

Insurance. THE CAROLINA LIFE INSURANCE COMPANY,

OF MEMPHIS, TENNESSEE. M. J. WICKS, President. W. F. BOYLE, Secretary.

THIS PURELY SOUTHERN INSTITUTION BE-3AN business September 1st, 1867, and issued over 2200 Policies in its first eighteen months. Sub-agents wanted throughout the State.

B. J. MAGILL, General Agent. No. 65 Broad-street.
Dr. J. S. MITCHELL, Medical Examiner.
April 15 theta1mo YOU OUGHT TO INSURE IN THE

CHARLESTON BRANCH LIFEASSOCIATION OF AMERICA. FOR THE FOLLOWING REASONS: 1st. Because it is a home institution managed and controlled by your own citizens.

2d. Because it is the only monied institution of the kind that loans its funds in the States from which

2d. Because it is the only monied institution of the kind that loans its funds in the States from which they are derived.

3d. Because it is purely mutual; all policy holders shere in its profits or earnings. Its large and increasing assets belong exclusively to the policy holders.

4th. Because its rates are lower than those of most other companies. And its dividends will be larger. 5th. Because it invests its funds at rates of interest averaging ten per cent, while Eastern companies' rates average less than seven per cent. This makes the dividends of the Association larger and the rates of premium smaller. One hundred dollars improved at six per cent, for fifty sears will amount to \$1,642.01. The same amount invested at ten per cent, will produce \$11,739.99. Difference in favor of the ten per cent, investment \$9,897.08.

5th. Because you ought to insure in a successful institution, and the Life Association of America is acknowledged by its enemies as well as its friends to be by fir the most successful life insurance institution of its age in the United States.
