FIRE. -An alarm of fire was sounded at halfpast one o'clock yesterday, caused by the burning of a chimney in Church street, near Tradd. The flames were communicated to the shingle roof, but a few well applied buckets of water stopped the conflagration before the arrival of the engines. The damage done was trifling.

At 3 o'clock another alarm was given, caused by the burning of the roof of Mr. W. T. Burge's house in Doughty street. Assistance was promptly rendered and the furniture speedily removed across the street. The firemen were soon on the ground, and prevented the fire from making any headway. The damage to the property was principally done by the water. The origin of the fire was traced to a defective fine.

At the entertainment of this troupe, last night, the utmost satisfaction was evinced by the select audience present. The choruses and ballads were rendered with fine effect, exhibiting the full strength of the accomplished vocalists. Hugh Hamall was successful in winning the plandits of the audience in acknowledgment of his superior vocalization. Ricardo, with his fine soprano voice, afforded much pleasure, and gave additional subject for wonder at the remarkable perfection of his prima donna attainments. The clog medley of Rogers was enthusiastically cheered, while the jokes, conundrums and the humorous repartee of Talbot and Billy Reeve gave good sauce for the entertainment. The fiageolet solo of Monsieur Louis was excellent, and earned the appreciation of the audience. The entire company were well up in their parts, and, combined as a whole, gave one of the most pleasing entertainments which has been upon our boards n the shape of a minstrel troupe for several years. They perform again to-night, and an excellent opportunity will be afforded to get a good antidote for dyspepsia.

Hump'y Dumpty. The prospective sensation at the Academy of Music is the expected production next week, by the Oates Troupe, of the splendid extravaganza and pantomime entitled "Humpty Dumpty, or the Fair One with the Golden Locks." Five housand dollars and weeks' of labor have been expended in its preparation, and we are confident it will be produced in good style. The extravaganza is a translation of the French fairy story of the Countess D'Aulnay, by Planche. - The tricks are selected from some of the world-renowned pantomimes, and arranged by A. M. Hernandez. Mrs. Jas. A. Oates will sustain the character of Graceful, a maid of honor; Count Prettilittleman, by Mrs. Sheldon; Fairy Lucidora, by Mrs. Hayden. The principal characters in the pantonime scene will be sustained as follows: Clown, Mr. Hernandez; Pantaloon, Mr. Sheldon; Harle quin, Mr. Pratt; Columbine, Mrs. Sheldon. The whole to conclude with a very handsome transformation seene. The music has been selected from the operas of Norma, Linda, La Somnambula, Maritana, Bohemian Girl and Barbe Bleu, and arranged by Mr. J. C. Kenney, conductor.

The first performance of the piece (which had an unprecedented run in Savannah) will take place on Monday evening. The sale of reserved seats will commence on Friday next.

The Bell-Ringers.

The fine upper hall of the Academy of Music was filled last night with a large and fashionable audience, eager to listen to the melodious tintinabulation of the bells. Every portion of the programme was executed in a style that delighted all who were present, and the character personations of Sol Smith Russell were as popular and as mirth-provoking as ever. No one should fail to hear the Bell ringers before they go.

St. Joseph's Fair.

The many attractions presented at the Hiberance last night was a convincing proof that Charleston can give a good support to a variety made by the constant influx of visitors have been | Granted. sedulously repaired, and the different tables are ardly less handsome in their appearance than on the opening night.

LAYING OF THE CORNER-STONE OF THE NEW HALL OF THE FREUNDSCHAFTSBUND .- The ceremony of laying the corner-stone of the new hal of the Freundschaftsbund was performed yesterday afternoon, at the lot corner of George and Meeting streets. A platform had been laid and the United States flag thrown over a temporary railing; but there were no other attempts at display, as the proceedings were intended to be private. The officers and members of the German Friendly Society, the German Rifle Club, and Walhalla Lodge, No. 66, united with the Freundschaftsbund in the ceremony, which was performed with Masonic rites by Walhalla Lodge. foundation had been hollowed, and in the cavity were placed the constitutions and bylaws of the different German societies, copies of THE NEWS and Courier, and specimens of Continental, Federal and Confederate currency, with coins of various denominations, from one cent to a five dollar piece. This was covered by a square block of marble, on which was inscribed, in German, the name of the society and the year. The Masons stood immediately in front and around the stone, while the platform was occupied by the other societies. The ceremonies were perform ed by Mr. H. H. Muller, Master of Walhalia Lodge, and were closed by a masonic ode, and a benediction from the Rev. Mr. Bowman. The pro-

ceedings were conducted entirely in German. Messrs. Abrams & Seyers are the architects of the new hall, and Mr. T. J. Knauff the contractor and builder. The building will be of a Gothic style of architecture, three stories high, and with a front of fifty by one hundred feet. The basement will have a cement or asphalt floor, and will be devoted to a bowling saloon, the culinary department, &c. The second story will be used as a club-room and reading-room, with billiard and card tables. The hall proper will be in the third story, which has a height of twenty-four feet, and will be fitted up in a superior manner, with a fine

stage and scenery, for dramatic and other entertainments. The building will front on Meeting street, and will be recessed about 25 feet. It is in the centre of the lot, and a space of 20 feet clear will be left in the rear and on either side. The site at the corner of George and Meeting streets has certainly never been occupied by any building for the last 10 years, and the oldest inhabitants say that it is virgin soil. The location is, however, admirably dapted for a public building, and if the present plans are carried out, the Freundschaftsbund will have a hall that will be creditable to the society and an ornament to the city.

RIOTERS PARDONED .- Governor Scott has pardoned Jno. Evans, Samuel Mustapha and Benjamin Mills, the parties convicted as leading paricipants in the base ball riots of last summer. Magistrate T. J. Mackey, who had brought the requisite "pressure" upon the Executive to obtain these pardons, with characteristic philanthropy carried the precious documents to the jail, and then drove off in a carriage with the three darkies whom he had rescued from limbo.

FOR A TORPID SYSTEM.—SOMETIMES. without any assignable cause, the physical strength and animal spirits give way, and a strange torpor falls alike on the body and intellect. There is little or no pain perhaps, but the natural vigor and elasticity of the nervous and muscular system seems to have departed, and an ndifference to the pleasures of life, and even of its grave responsibilities, takes the place of that earnest interest in both which characterizes every well balanced mind when in a healthy con-

This state of partial collapse is often the pre monitory symptoms of some serious malady. It languishing and need a stimulant. In such cases effect of a few doses of HOSTETTER'S STOMACH BITTERS is wenderfully beneficial. The great tonic wakes up the system from its drowse. The secretions and the circulation receive a new impetus. The relaxed nerves recover their elasticity under the operations of the speciic, like the slackened strength of a musical instrument in the process of tuning. Lethargy and debility are replaced by energy and vigor, the spirits rise, and life that almost seemed a burden while the season of depression lasted, becomes once more enjoyable. That such a radical change should be produced by a remedy entirely devoid of the powerful alkaloids and minerals so extensively used in modern practice, may seem incredible to those who pin their faith on the medicinal efficacy of active poisons, but if these skeptics will take the trouble to inquire of those who have tested the corrective and alterative virtues of the BITTERS under the circumstances described, they will find the statement to be true.

PETA GRAND EPOCH IN SCIENCE .-From the time when, in 1834, Dr. RUGGE discovered "Carbolic Acid" and its extraordinary medical effects, nothing in the history of Medicine has equalled it. Largely used by the French physiclans in treatment of consumptive and scrofulous diseases, it was introduced by the Court Physician of Berlin, MAX ERNST HENRY, into Prussia, and from thence to the United States. Nothing else of the present day can equal HEN-SOLULION OR CARBOLIC CONSTITUTION RENOVATOR. Patients get better after only one dose has been taken, and we cordially recommend it to the public.—[Editor "Argus." jan17 lyr by all Druggists.
