

# COLUMBIA.

Friday Morning, February 1, 1867.

## Another Revolutionary Scheme.

The State of Pennsylvania has sent to the present Congress two of the most radical of all the radicals. Stevens believes, or at least asserts, that Congress is the people, the Government and everything else, and now a colleague of his—a Mr. Williams—as we learn from the *National Intelligencer*, proposes, in the exercise of the sovereign functions of the people—not of the delegated powers of Congress—to uproot the time-honored usage, as old as the common law, viz: That a majority of a court is entitled to pronounce a decision, by declaring that, in certain cases, no decision shall be made by the Supreme Court of the United States, unless the Court is unanimous.

The party in power are evidently determined to revolutionize the Government by destroying all the safeguards of the institutions of the country. They have tinkered at the Constitution and tacked amendments to its provisions that would uproot all the principles of republicanism and civil liberty; and now they seek to lay sacrilegious hands on the high temple of justice itself, and tear down its pillars, to accomplish their unholy designs. The object of the movement under consideration must be evident to all who pay any attention to the political schemes brought forward, from day to day, by the radical members of Congress. So long as they have a partisan Chief Justice in the Court, he may prevent any decision being made which conflicts with the interests of the party. Thus it goes. They are now plotting to depose the Executive, and the measure of Mr. Williams seeks to get possession of the remaining branch of the Government—the judicial—so that they may have a clear swing of their baneful and destructive policy.

We alluded to this bold attempt to show the fixed determination of the faction, and the vile animus which moves its leaders and members, for we believe, with the *Intelligencer*, that no such absurdity can be engrafted in the legislation of the country, or that it would amount to anything if it were. It is highly proper, and it is our duty, as journalists to call the attention of our people to the progress of that fanaticism which has already brought the country to the verge of ruin and the brink of universal bankruptcy. It has laid waste a large section of the country, a section that furnished those products upon which commercial exchanges and foreign trade were chiefly based; and yet, despite all the warnings from the commercial centres of their own section, they appear determined to ruin or ruin. Blinded and infuriated by partisan zeal, these men care not for the prosperity of the country, and would continue to press and pass the measures of Stevens and Boutwell, were every merchant in Boston, New York and Philadelphia hopelessly ruined thereby.

It is well for the people to watch the progress of this radical revolution, that they may be as well prepared as they can for the crushing blow when it falls; for if all the signs which the calm and judicious of the land observe do not fail, the country must inevitably pass through a convulsion which it has never yet in its past history felt or experienced. Such is our belief, and we record our humble opinion merely in the discharge of a duty we owe to our readers, and not to arrogate to ourselves the functions of a prophet of ill omen.

SOMETHING REMARKABLE.—The *Yorkville Enquirer* learns that on Saturday last, a lady living near Rock Hill, in that District, gave birth to a daughter, and forty-four hours afterwards she gave birth to another daughter and a son. The weights of the infants were, respectively, five and three-quarter pounds, and eight and a-quarter pounds, and they are all, with their mother, "doing as well as could be expected." The husband of this lady is over seventy years old.

The *Anderson Intelligencer* and *Appeal* have been merged in one—under the editorial management of James A. Hoyt, Esq.

The people of Gettysburg have petitioned to the Pennsylvania Legislature for a grant of \$500,000 to indemnify them for losses incurred during the war.

## Enticing the Freedmen.

We noticed, the other day, a nefarious business being carried on in the older Southern States, viz: That of a sort of freedmen's labor brokerage, by which thousands of the freedmen have been seduced from their old homes. We observe, by our Wilmington exchanges, that parties from Texas were in that city, endeavoring to make contracts with the freedmen, but with indifferent success. There is a legal remedy, if we mistake not, in the Act concerning colored persons in this State, a provision of which imposes a considerable fine on those enticing such persons from their employers. Perhaps an application of this remedy would curtail the operations of the "brokers" in this State, at least. It ought to be applied whenever an opportunity offered.

SUICIDE ON A RAILROAD TRAIN.—We regret to learn that Mr. McConnell, (of the firm of McConnell & Goodlett, Greenville, S. C.) while in a state of mental aberration, committed suicide, on Wednesday, on the Greenville train. He applied to Conductor George Isaacs for permission to go into his room, which was granted, and, a short time afterwards, when Mr. I. entered the room, he found the unfortunate man lying on his face, on the floor, with his throat cut from ear to ear. An inquest was held on the body at Belton.

GOVERNMENT PATRONAGE FOR RADICAL SOUTHERN PAPERS.—The following is despatched from Washington to the Northern press: The Judiciary Committee of the House have under consideration, and will soon report, a bill disposing of the patronage of the Government to newspapers in the South in such a manner as to insure its being given to thoroughly loyal papers and none others. In view of this fact, a large number of radical Southern editors are here, and the public may soon expect to hear of the establishment of new journals in different localities in the South.

THE FRANKLIN BRICK MACHINE, justly celebrated for perfect simplicity, great strength and immense compressing power, is guaranteed, with eight men and two horses, to self-temper the clay and make 3,000 to 3,500 elegant bricks per hour. J. H. BENICK, Proprietor, No. 71 Broadway, New York, Room 69.

Two Tanners Wanted Immediately. APPLY AT BLEASE & DUES, Washington street.

NOTICE. PERSONS having in possession property of any kind belonging to the Columbia Female College, are requested to report the same by letter, immediately, to Dr. CHARLES H. MOTT, Secretary to the Board of Trustees.

5,000 LBS. LARD! In store and for sale at cost. Dec 7 JOHN C. SEEGER'S & CO.

## Local Items.

A drove of fine mules has arrived at the National Hotel stables. All who wish to purchase will have a good opportunity by calling soon.

OUR BRADSHAW LOAN.—Our friends are invited to visit the *Phoenix* reading room, where they will find the papers and periodicals from every section of the Union. The building is open day and night.

The Franklin Brick Machine is a clay-tempering machine, and with only two-horse power, turns out from 3,000 to 3,500 splendid bricks per hour. Brick-makers would do well to look to its merits. See advertisement.

FIVE CENTS.—The price of single copies of the *Phoenix* is five cents, and purchasers are requested to pay no more for them—as they are furnished to the news-boys at a rate sufficiently low to warrant their being sold at that price.

ARCHITECTURE and ENGINEERING. The card of A. Y. Lee, Esq., is published in another column. Mr. Lee is a graduate of the Citadel, and was formerly a resident of this city. He has had considerable experience in his profession, and brings excellent testimonials as to his abilities from different persons for whom he has made designs.

PARADISE and THE APOCALYPSE. Janney's Hall was well filled last night with admirers of this great work. The imagination of the artist must have been carried to the very highest pitch when he sketched these scenes. Satan is represented as a particularly grim looking individual—which he is, undoubtedly; while our "first parents" look as meek as "little sheep." Take it all in all, this panorama cannot fail to attract considerable attention, if not universal admiration.

SOUTH CAROLINA UNIVERSITY.—We learn that, at a special meeting of the Board of Trustees of the University of South Carolina, on the 23d ultimo, the Hon. J. A. Inglis was chosen Professor of Law, and Drs. Julian J. Chisolm and J. E. Darby Professors in the Medical School. The Medical Faculty will consist of Drs. Chisolm, Darby, Joseph LeConte and LaBorde, with a Demonstrator of Anatomy yet to be appointed. Since the opening of the University, last January, 160 students have matriculated.

WHO WILL BE THE LUCKY PRESENTER?—A celebrated wholesale merchant in London, England, has presented to the proprietors of the *Telegraph* a printing press which cost \$25,000, as a token of appreciation. In doing so, he accompanied the gift by a letter, which said: "In your paper, by judicious advertising, I have built the foundation of a fortune—and in your paper, by judicious advertising, I have amassed the fortune which enables me to offer this testimony of regard and good will." In a year or two, we hope to chronicle the reception of a similar present by the *Phoenix*.

NO MORE FIRE CRACKERS.—The new tariff bill now before Congress prohibits the importation of fire crackers—no more Fourth of July celebrations with these juvenile noise-makers. We presume the Portland fire is the cause of this stringent enactment, but friction matches have caused as many fires as the forbidden crackers. We, therefore, propose an amendment to the tariff bill, viz: to prohibit the importation or manufacture of such human "Lucifers"
