Affairs in Washington.

WASHINGTON, January 23.—The House is discussing Boutwell's manhood suffrage amendments. The Senate is endeavoring to get up manhood suffrage, but found no quorum. The Senate seems loth to take it up, and an effort is now pending to make it the special order for Thursday.

In the Senate, the New York Chamber of Commerce's protests against change in the bankrupt law, was presented. A resolution donating cannon for the Lincoln Monument at Springfield was passed. The Judiciary Committee reported a bill declaring void the confiscation of property by the rebel States. The Senate agreed to the House amendment to the joint resolution for the removal of officers from Virginia and Texas, who cannot take the test oath, and to a further amendment reported by Wilson, extending its provisions to Mississippi. It goes back to the House for concurrence. The death of Hinds was announced from the House, and the Senate adjourned.

In the House, the entire day was devoted to the discussion of Boutwell's bill, for manhood suffrage and the enforcement of the fourteenth amendment.

A despatch from Texas announces that a delegation of seven, elected by the Convention, is coming here to urge the division of that State.

A Philadelphia despatch says that Mrs. Twitchell has been acquitted of the charge of murdering Mrs. Hill—her mother.

Cuba will send eighteen and Porto Rico eleven delegates to the Constituent Cortes, which will meet on the 11th of February. In the meanwhile the most active preparations are being made for sending additional re-inforcements to Cuba.

Office of Udolpho Wolfe,

SOLE IMPORT, OF THE SCHIEDAM AROMATIC SCHNAPPS 22 BEAVER STREET, NEW YORK, NOV. 3, '68.

To the People of the Southern States. When the pure medicinal restorative, now so widely known as Wolfe's SCHIEDAM SCHNAPPS, was introduced into the world, under the endorsement of 4,000 leading members of the medical profession, some twenty years ago, its proprietor was well aware that it could not wholly escape the penalty attached to new and useful preparations. He, therefore, endeavored to invest it with the strongest possible safeguard against counterfeiters, and to render all attempts to pirate it difficult and dangerous. It was submitted to distinguished chemists for analysis, and pronounced by them the purest spirit ever manufactured. Its purity and properties having been thus ascertained, samples of the article were forwarded to 10,000 physicians, including all the leading practitioners in the United States, for purposes of experiment. A circular, requesting a trial of the preparation, and a report of the result, accompanied each specimen. 4,000 of the most eminent medical men in the Union promptly responded. Their opinions of the article were unanimously favorable. Such a preparation, they said, had long been wanted by the profession, as no reliance could be placed on the ordinary liquors of commerce; all of which were more or less adulterated, and, therefore,

unit for medical purposes. The peculiar excellence and strength of the oil of juniper, which formed one of the principal ingredients of the Schnapps, together with an unalloyed character of the alcoholic element, give it, in the estimation of the faculty, a marked superiority over every other diffusive stimulant as a diuretic, tonic and restorative.

These satisfactory credentials from professional men of the highest rank were published in a condensed form, and enclosed with each bottle of the Schnapps, as one of the guarantees of its genuineness. Other precautions against fraud were also adopted; a patent was obtained for the article, the label was copyrighted, a fac simile of the proprietor's autograph signature was attached to each label and cover, his name and that of the preparation were embossed on the bottles, and the corks were sealed with his private seal. No article had ever been sold in this country under the name of Schnapps prior to the introduction of Wolfe's Schiedam Aromatic Schnapps, in 1851; and the label was deposited, as his trade mark, in the United States District Court for the Southern District of New York during that year.

It might be supposed, by persons unacquainted with the daring character of the pirates who prey upon the reputation of honorable merchants, by vending deleterious trash under their name, that the protections so carefully thrown around these Schnapps would have precluded the introductions and sale of counterfeits. They seem, however, only to have stimulated the rapacity of impostors. The trade mark of the proprietor has been stolen; the endorsement which his Schiedam Aromatic Schnapps alone received from the medical profession has been claimed by mendacious humbugs; his labels and bottles have been imitated, his advertisements paraphrased, his circulars copied, and, worse than all, dishonorable retailers, after disposing of the genuine contents of his bottles, have filled them up with common gin, the most deleterious of all liquors, and thus made his name and brand a cover for poison.

The public, the medical profession and the sick, for whom the Schiedam Aromatic Schnapps is prescribed as a remedy, are equally interested with the proprietor in the detection and suppression of these nefarious practices. The genuine article, manufactured at the establishment of the undersigned, in Schiedam, Holland, is distilled from a barley of the finest quality, and flavored with an essential extract of the berry of the Italian juniper, of unequalled purity. By a process unknown in the preparation of any other liquor, it is freed from every acrimonious and corrosive element.

Complaints have been received from the leading physicians and families in the Southern States, of the sale of cheap imitations of the Schiedam Aromatic Schnapps in those markets; and travelers, who are in the habit of using it as an antidote to the baneful influence of unwholesome river water, testify that cheap gin, put up in Schiedam bottles, is frequently palmed off upon the unwary. The agents of the undersigned have been requested to institute inquiries on the subject, and to forward to him the names of such parties as they may ascertain to be engaged in the atrocious system of deception. In conclusion, the undersigned would say that he has produced, from under the hands of the most distinguished men of science in America, proofs unanswerable of the purity and medicinal excellence of the Schiedam Aromatic Schnapps; that he has expended many thousand dollars in surrounding it with guarantees and safeguards, which he designed should protect the public and himself against fraudulent imitations; that he has shown it to be the only liquor in the world that can be uniformly depended upon as unadulterated; that he has challenged investigation, analysis, comparison, and experiment in all its forms; and from every ordeal the preparation which bears his name, seal and trade mark, has come off triumphant. He, therefore, feels it a duty he owes to his fellow-citizens generally, to the medical profession and the sick, to denounce and expose the Charlatans who counterfeit these evidences of identity, and he calls upon the press and the public to aid him in his efforts to remedy so great an evil.

The following letters and certificates, from the leading physicians and chemists of this city, will prove to the reader that all goods sold by the undersigned are all they are represented to be.

UDOLPHO WOLFE. I feel bound to say, that I regard your Schnapps as being, in every respect, pre-eminently pure, and deserving of medical patronage. At all events, it is the purest possible article of Holland Gin, heretofore unobtainable; and, as such, may be safely prescribed by physicians.

DAVID L. MOTT, M. D., Pharmaceutical Chemist, New York.

26 PINE STREET, NEW YORK, NOV. 21, 1867. Udolpho Wolfe, Esq., Present.

DEAR SIR: I have made a chemical examination of a sample of your Schiedam Schnapps, with the intent of determining if any foreign or injurious substance had been added to the simple distilled spirits.

DEAR SIR: The want of pure Wines and Liquors, for medicinal purposes, has been long felt by the profession, and thousands of lives have been sacrificed by the use of adulterated articles. Delirium tremens, and other diseases of the brain and nerves, so rife in this country, are very rare in Europe, owing, in a great degree, to the difference in the purity of the spirits sold.

We have tested the several articles imported and sold by you, including your Gin, which you sell under the name of Aromatic Schiedam Schnapps, which we consider justly entitled to the high reputation it has acquired in this country; and, from your long experience as a foreign importer, your Bottled Wines and Liquors should meet with the same demand.

We would recommend you to appoint some of the respectable apothecaries in different parts of the city as agents for the sale of your Brandy and Wines, where the profession can obtain the same when needed for medicinal purposes.

Wishing you success in your new enterprise, we remain your obedient servants.

V. ALBERTINE MOTT, M. D., Professor of Surgery, University Medical College, New York.

J. M. CARNOGAN, M. D., Professor of Clinical Surgery, Surgeon-in-Chief to the State Hospital, etc., No. 14 East 16th street.

The examination has resulted in the conclusion that the sample contained no poisonous or harmful admixture. I have been unable to discover any trace of the deleterious substances which are employed in the adulteration of liquors. I would not hesitate to use myself, or to recommend to others, for medicinal purposes, the Schiedam Schnapps as an excellent and unobjectionable variety of gin. Very respectfully yours, (Signed,) CHARLES A. SEELY, Chemist.

NEW YORK, 53 CEDAR STREET, NOV. 26, 1867. Udolpho Wolfe, Esq., Present.

DEAR SIR: I have submitted to chemical analysis two bottles of Schiedam Schnapps, which I took from a fresh package in your bonded warehouse, and find, as before, that the spirituous liquor is free from injurious ingredients or falsification; that it has the marks of being aged and not recently prepared by mechanical admixture of alcohol and aromatics. Respectfully,

FRED. F. MAYER, Chemist.
