Foreign News.

LONDON, April 26.—The Government has official despatches that the brigands near Marathon, being hard pressed, killed four of their captives. The brigands fled, but were closely pursued, leaving two chiefs mortally wounded. The Commons has re-assembled and the naturalization bill was passed. The artist, David Maclin, is dead, aged sixty. The Telegraph Construction Company has leased the Great Eastern for five years, for cable purposes.

PARIS, April 26.—While plebiscite is pending, the Prince Imperial will visit several European capitals. There have been numerous orderlies meetings throughout France. Ollivier is framing a compromise between the laborers and capitalists. Ollivier has issued an address to the enemies of France, in which he impresses upon the people the fact that, while an affirmative vote means quiet and peace, and will give an opportunity for the Emperor and his ministers to accomplish reforms, a negative vote means anarchy, disorder, revolution and revenge.

The Gaulois newspaper says the ship owners are sadly disappointed in the Suez Canal. Screw steamers especially are sure to meet with accidents. Athens, April 26.—The brigand excitement is unabated. The bodies of Loyd and Herbert, of the British legation, were buried here. The King, diplomats and many citizens attended the funerals. The brigands have all been killed or captured.

ST. DOMINGO, April 14, via HAVANA, April 23.—The revolution continues unabated. Cabral has been declared an outlaw by Hely for delivering Salnave into the hands of the Haytiens.

HAVANA, April 28.—The government is rapidly checking the revolutionists. President Maragas is making active preparations to attack the rebel General Guzman, who is fortified near the town of Valencia.

The court-martial at Cienfuegos condemned to death a priest named Esquenobro, for preaching insurrection and blessing the insurgent flag.

From Washington.
WASHINGTON, April 26.—The House is considering the bill creating fifty-three customs agents. The Reconstruction Committee heard Col. Spence, from East Tennessee; his evidence slightly favors the necessity of reconstruction. The Committee of the House on Pacific Railroads will hear arguments for and against the trans-continental bill, on Friday.

In the Senate, Willey introduced a bill, dividing the public lands among the States for popular education. The President is opposed to the pending Georgia bill. He is opposed to military government, where it can be avoided, and desires immediate restoration on some basis, but makes no suggestions.

Internal revenue receipts to-day \$300,000. During a recent levee, the President said: "Well, Governor, how's that San Domingo business?" Senator Morton replied: "The iron is hot."

The Supreme Court adjourned to Saturday, when, after delivering some opinions, it will adjourn till fall. Coin in the Treasury, including \$35,000,000 gold certificates, \$114,500,000; currency balance \$9,250,000. Disbursements, under the recently adopted deficiency bill, heavy.

The Senate Finance Committee reported unanimously against a change in the tax on distilled spirits. The Committee on Education reported an appropriation of \$25,000, out of the funds of the Freedmen's Bureau, for Wilberforce University, Ohio, a colored institution. The same committee was instructed to inquire as to the expediency of dividing among the States the net proceeds of the sales of public lands, for the education of the whole American people. A bill was introduced for the better protection of the frontiers of Texas, and authorizing the military commanders to accept the services of native volunteers, not exceeding 1,000. The Military Committee reported a substitute for the House army bill, reducing the army to 25,000 men; incapable officers to be retired, and vacant offices to be absorbed in others of lower grade.

In the House, a bill allowing the Secretary of the Treasury fifty-three custom detectives, passed. The Committee on Retrenchment reported favorably on the bill establishing a department of justice, with the Attorney-General at its head. The tariff was resumed, and iron is still pending; the debate is acrimonious. The House is in session to-night.

Domestic News.
SAN FRANCISCO, April 26.—The result of the Blossom Rock explosion is unknown, as no soundings have yet been taken. There was a slight earthquake last night, and another this morning.

PREKSKILL, N. Y., April 26.—800 brick-makers have struck; no disturbances yet. RICHMOND, Va., April 26.—James Jeter Phillips, sentenced to be hung next Friday, for murdering his wife, has been respited sixty days.

MOBILE, April 26.—The decoration of the graves of the Confederate dead took place to-day. The weather was delightful and thousands attended. The cemetery was literally a mass of flowers, wreaths and garlands. Addresses were delivered by Gen. E. G. Lee and others.

Special Meeting of the Stockholders of the South Carolina Railroad Company, and of the South-western Railroad Bank.

CHARLESTON, S. C., February 10, 1870.
PURSUANT to the adjournment of the Annual Convention of the Stockholders on the 9th inst., a Special Meeting of the same will be held on the FIRST TUESDAY in May next, the 3d day of that month, in the Bank Hall in this city, for the purposes indicated in the following resolution:
Resolved, That the consolidation of the Stock as recommended in the resolution proposed by the President and Directors of the Railroad Company, in their annual report, be referred to a Committee of Three, to be appointed by the Chair, to report on at a special meeting to be held in this city on the first Tuesday in May next; that a stock vote be then taken thereon, and that immediate notice of the said meeting be given.
The resolution recommended by the President and Board of Directors of the Railroad Company, is as follows:
Resolved, That the Board of Directors be authorized, at the earliest day practicable, to consolidate the half shares of the Stock by issuing one whole share for every two half shares as now represented on the stock book. As ordered at the Annual Meeting on the 9th instant, the Stockholders will be passed over the Road on the above occasion, under the rule observed as to annual meetings, which is as follows:
That every Stockholder who shall have owned his stock for three months previous to the general annual meeting of Stockholders, be permitted to pass on the Road to and from said meeting free of charge, and that every Stockholder who shall have owned five or more shares for three months previous to the general annual meeting of Stockholders, be permitted to pass on the Road, to and from said meeting, with his immediate family, free of charge.

A NEW DISCOVERY!!
PHALON'S
'VITALIA'
OR,
Salvation for the Hair.

CLEAR AS WATER!
WITHOUT SEDIMENT!!
OPEN TO THE LIGHT!!!
For Restoring to Gray Hair its Original Color.

PHALON'S "VITALIA" differs utterly from all the hair coloring preparations heretofore used. It is liquid, sweet smelling, precipitates no muddy or slimy matter, requires no shaking, imparts no stain to the skin. Hold it to the light and it is clear and cloudless. It leaves no mark on the scalp; yet it reproduces in gray hair the natural color that time or sickness may have bleached out of it.

Phalon's "Vitalia" is for one sole purpose, that of reproducing, with absolute certainty, the natural color of the hair. It is not intended as a daily dressing, nor for removing scurf or dandruff; nor for curing baldness; nor for stimulating the growth of the hair.— These objects may be accomplished after the color has been fixed with the Vitalia, by Phalon's Chemical Hair Invigorator.

The VITALIA is a harmless and unequalled preparation for the reproduction of the original hue of gray hair, and nothing else. This is accomplished in from two to ten applications, according to the depth of shade required. Sold by all druggists.

WALTHAM
WATCHES.
THE extensive use of these watches for the last fifteen years by Railway Conductors, Engineers and Expressmen, the most exacting of watch-wearers, has thoroughly demonstrated the strength, steadiness, durability and accuracy of the Waltham Watch. To satisfy that class in all these respects, is to decide the question as to the real value of these time-keepers.

More than 450,000 of these watches are now speaking for themselves in the pockets of the people—a proof and a guarantee of their superiority over all others.
The superior organization and great extent of the Company's Works at Waltham, enable them to produce watches at a price which renders competition futile, and those who buy any other watch, merely pay from 25 to 50 per cent. more for their watches than is necessary.
We are now selling Waltham Watches at less prices in greenbacks, than the gold price before the war. There is no other manufacture of any kind in the United States of which this can be said.
These time-pieces combine every improvement that a long experience has proved of real practical use. Having had the refusal of nearly every invention in watch-making originating in this country or in Europe, only those were finally adopted which severe testing, by the most skillful artisans in our works, and long use on the part of the public, demonstrated to be essential to correct and enduring time-keeping.
Among the many improvements we would particularize:
The invention and use of a centre-pinion of peculiar construction, to prevent damage to the train by the breakage of main-springs, is original with the American Watch Company, who, having had the refusal of all other contrivances, adopted Fogg's patent pinion as being the best and faultless.
Hardened and tempered hair springs, now universally admitted by watch-makers to be the best, are used in all grades of Waltham Watches.
All Waltham Watches have dust-proof caps, protecting the movement from dust and lessening the necessity of the frequent cleaning necessary in other watches.
Our new patent stem-winder, or keyless watch, is already a decided success, and a great improvement on any stem-winding watch in the American market, and by far the cheapest watch of its quality now offered to the public. To those living in portions of the United States where watch-makers do not abound, watches with the above mentioned improvements which tend to insure accuracy, cleanliness, durability and convenience, must prove invaluable.
Every watch guaranteed by the Company. To prevent imposition, buyers should see that every watch should bear either of the following trade marks:
American Watch Co. Waltham.
Appleton, Tracy & Co. "
P. S. Hart. "
William Ellery. "
Home Watch Co. "
For sale at retail by all respectable dealers. A descriptive circular giving much useful information sent to any address on application.
No watches retailed by the Company. Address
ROBBINS & APPLETON, Gen'l Agents,
182 Broadway, New York.

Ask to see the new FULL-PLATE WATCH bearing the trade mark "AMERICAN WATCH CO., Crescent street, Waltham, Mass." It is by far the best full-plate watch made in the United States, and surpasses anything heretofore made in this country for Railway Engineers, Conductors, &c.
