WASHINGTON, August 31.—The following circular was issued from the State Department to-day by Secretary Fish: "Claimants who have not already filed in the Department of State their claims against Great Britain, growing out of the acts committed by the several vessels which have given rise to the claims, generally known as the Alabama claims, are requested to do so without delay, in order that they may be taken into account in presenting the aggregate claims of the United States, to be brought before the tribunal of arbitration, which is to meet in Geneva, in the month of December next."

NEW YORK, August 31.—Wall street markets exhibited increased strength and activity this afternoon, with a general upward movement in prices. On the Stock Exchange railway speculation was buoyant, and an advance was quite general, and business better distributed than for some time past.

WASHINGTON, August 31.—Senator Scott, Chairman of the Ku Klux Committee, had an interview with the President, and submitted a communication, which was fully discussed in the interview, setting forth briefly the number of acts of unlawful violence which have been perpetrated within the past few months in various Counties in South Carolina, and notably in Spartanburg and York, for which no one had been punished by the civil authorities, as disclosed by the investigations of the sub-committee in their recent visit to these localities; also, the fact that Senator Scott had there notified prominent citizens that if these acts of violence by disguised men continued, and especially if witnesses examined by the committee were subsequently outraged, he would call the President's attention to the facts, and recommend that he exercise the powers conferred by the Ku Klux Act.

brief general statement of the time, place, and circumstances of the transactions out of which the claim arose. It will be understood that the statement so invited is preliminary merely, and does not preclude the necessity of a subsequent formal memorial or statement, to be presented in conformity with such rules or regulations as the commission on its organization may prescribe. It is provided by the treaty that the commissioners shall meet at the earliest convenient period after they shall have been respectively named. It is expected that they will meet during the ensuing month of September.

STANTON, Va., August 30.—This evening, at 6 o'clock, a new well, on Mr. Myers' lot, in this city, caved in, catching and burying alive two colored men—Handy Harris and Jordan Steel. A colored man, named Adolphus Dorsey, sent down to rescue them, was caught by a second caving while standing opposite to the side which had already fallen and was instantly killed. After this another party went down and succeeded in extricating alive, Handy Harris. Efforts were now made to fasten a rope to Steel and draw him up. He begged them not to pull him to pieces with the rope. He said he was firmly wedged in with rocks and dirt. Finally the rope was fastened to him, when a third caving occurred, and he was heard to speak no more. The rope was then drawn up, but slipped from his body. Heavy breathing was now heard for two minutes, then all was still, and no response was made to calls from persons above.

NEW YORK, August 31.—The Cunard steamer Java, from Liverpool last night, reports that on the night of the 25th of August, about 11 o'clock, the saloon being full of passengers, the cry of "hard-a-port" was heard. The Java's engines were stopped, and then came a crash that shook the vessel from end to end. Those who rushed on deck saw one-half of a large vessel on one side, and the other half on the other side across the quarter. Boats were got out at once, and after searching carefully about, they returned, having saved one man, from whom it was learned the vessel run down was the Norwegian bark Annita, from Portsmouth to Quebec, with twelve hands on board, eleven of whom went down with the bark. It was for some hours a matter of doubt whether the Java was injured.

Douglas has modified Pleasanton's order forbidding internal revenue officers from leaving their respective districts, and to allow detectives to enter where their presence benefits the service.

PORT JERVIS, August 31.—Storms of the past few days are now being felt in damages by a flood. The Delaware River is many feet above high water mark, and is still rising rapidly. At this place a \$30,000 suspension bridge is being constructed across the Delaware, and a long and expensive coffer dam has just been completed, and an improved steam pump, with boiler and engine, is placed in it, to proceed to the work of laying the middle pier. The dam is entirely submerged and the machinery nearly so. If the river continued rising a few hours longer, the whole structure will be swept away. At Milford, Penn., the hotel of S. D. Vanellen is in imminent danger. On Vanderhook Creek, the bridge at Sherman's steam tannery has been swept away, and the engine hoisted by the tannery. The bank is caving, and it is not safe to work about the tannery. Travel on the Erie Railroad is seriously impeded by the storm of last evening. On the Monticello and Port Jervis Railway all travel is suspended by a heavy land slide at Hartford.

NEW YORK, August 31.—Wall street markets exhibited increased strength and activity this afternoon, with a general upward movement in prices. On the Stock Exchange railway speculation was buoyant, and an advance was quite general, and business better distributed than for some time past.

WASHINGTON, August 31.—Senator Scott, Chairman of the Ku Klux Committee, had an interview with the President, and submitted a communication, which was fully discussed in the interview, setting forth briefly the number of acts of unlawful violence which have been perpetrated within the past few months in various Counties in South Carolina, and notably in Spartanburg and York, for which no one had been punished by the civil authorities, as disclosed by the investigations of the sub-committee in their recent visit to these localities; also, the fact that Senator Scott had there notified prominent citizens that if these acts of violence by disguised men continued, and especially if witnesses examined by the committee were subsequently outraged, he would call the President's attention to the facts, and recommend that he exercise the powers conferred by the Ku Klux Act.

By the terms of said treaty, all such claims, whether or not the same may have been presented to the notice of or laid before the said commissioners, shall, from and after the conclusion of the proceedings of the said commission, be considered and treated as finally settled, barred and therefor inadmissible. Robert S. Wale, of New York, has been appointed, under the said treaty, agent of the Government of the United States to present and support claims on its behalf and to answer claims made upon it, and to represent it generally in all matters connected with the investigation and decision thereof before the said commission. Corporations, companies or private individuals, citizens of the United States, having claims against the Government of her Britannic Majesty, coming within the terms of the above recited provisions of the treaty, are requested forthwith to send to the agent above named, at the Department of State, Washington, D. C., a statement of their respective claims, showing the name and residence of the claimant, the nature and amount of the claim, with a

to the suggestion, and a proclamation preliminary to a declaration of martial law may soon be expected. SAVANNAH, August 31.—Prominent physicians sign a statement to the effect that there is no yellow fever in Savannah, nor any disease approximating to it. The season, up to this time, has been the healthiest of any within their experience.

TREASURY DEPARTMENT, September 1, 1871.—By virtue of the authority given by an Act of Congress, approved July 4, 1870, entitled "An Act to authorize the refunding of the national debt," I hereby give notice that the principal and accrued interest of the bonds herein below designated, known as 5-20 bonds, will be paid at the Treasury of the United States, in the city of Washington, on or after the first day of December next, and that the interest on said bonds will cease on that day; that is to say, coupon bonds known as the first series, Act of February 25, 1862, dated May 1, 1862, numbered as follows: 1 to 30,099, inclusive, of \$50 each; 1 to 43,572, inclusive, of \$100 each; 1 to 40,011, inclusive, of \$500 each; 1 to 74,104, inclusive, of \$1,000 each, and registered bonds of the same Act; 1 to 595, inclusive, of \$50 each; 1 to 4,103, inclusive, of \$100 each; 1 to 1,899 of \$500 each; 1 to 8,006 of \$1,000 each; 1 to 2,665 of \$5,000 each; 1 to 2,906, \$1,000 each. The amount outstanding embraced in the numbers above is \$100,000,000. Coupon bonds of the Act of February 25, 1862, were issued in four distinct series. Bonds of the first series, embracing those described above, do not bear the series designation upon them, while those of the second, third and fourth series are distinctly marked on the face of the bonds. United States securities for redemption should be addressed to the Loan Division, Secretary's office.

J. T. HARTLEY, Acting Secretary. LOUISVILLE, September 1.—Two negroes and one white man have just been hanged by a mob at Caseyville, for outraging the person of a white woman in that vicinity. Five men were concerned in the outrage, which was of a horrible character. The others had been executed in the same manner soon after committing the offence.

TOPEKA, KANSAS, September 1.—A tornado passed over Labette County, on Sunday night, demolishing two houses and moving several others. Mr. Scott and daughter were killed. NEW YORK, September 1.—The ship Richard Robinson, from Liverpool, reports August 29, that the bark Alice Campbell, of Guttenberg, for Philadelphia, with iron, was in sinking condition, from collision with the ship Hamilton Fish. The crew were brought here.

BALTIMORE, September 1.—Daniel S. Miller, suspected of robbing his employers, wounded a detective and killed himself. NEW YORK, September 1.—The Union Republican General Committee met today—Horace Greeley presiding. They fixed a day for holding primary elections. No other business transacted.

PROVIDENCE, R. I., September 1.—The daughter of a prominent Boston merchant was drowned, while bathing at Newport. ERIE, Pa., September 1.—Isaac Rosowig, a wealthy citizen, has been convicted of selling forged tickets over the Erie Road.

HALIFAX, September 1.—Seven started for the single scull match. Sadler, of the Tyne crew, won by two lengths; Brown, of Halifax, second; Kelly, third. NEW YORK, September 1.—Paul Bullgar, aged sixty-four, was beaten to death by three ruffians, corner of 14th street and Avenue A.

NEW ORLEANS, September 1.—A sharp correspondence has occurred between Governor Warmouth and Lieutenant-Governor Dunn, regarding Dunn's assumption of gubernatorial functions during Warmouth's absence from the State. Warmouth has ordered the arrest of a convict pardoned by Dunn. Dunn is defiant and insists upon the constitutionality of his acts; complains that Warmouth violates gentlemanly and official courtesy. The Times, commenting on the recently-developed evidences of fraud regarding the water works, says every day brings its quota of confirmatory evidence in the proof of the charges against those who have fostered themselves upon the body politic in the State. No stronger testimony is needed of the rapacity of our rulers than that furnished by the rival factions, who have combined against each other, under the respective leadership of Warmouth and of Dunn. The pictures drawn by the Governor of his opponents are worthy of exhibition in every rogues' gallery, and the pictures drawn by the artists of the rival faction present features no less strongly marked by the characteristic of moral hideousness.

NIGHT DESPATCHES. WASHINGTON, September 1.—(Craw, Habicht & Co., of London, the foreign house of Henry Clews & Co., of New York, have been designated as fiscal agents of the United States Government at London—a trust, until now, vested in the House of Baring Bros. & Co. Thirty years ago, after the negotiation of the Ashburton treaty, the agency was taken from the Bank of England, which had held the office ever since the establishment of American independence, and given to Baring Bros. & Co., in compliance to Lord Ashburton, who was a member of that firm, and who negotiated the treaty which bears his name. For over a quarter of a century, Messrs. Baring Bros. & Co. have done the Government business, and the account now transferred to Clews & Co. as a recognition of their valuable services in promoting the negotiation of the several loans during and since the war. All the money received in the diplomatic service and all the collections of the United States consuls in Europe, South America and parts of Asia and Africa are remitted to the agency in London, which

is the official representative of the Government in all financial matters relating to foreign countries. Probabilities.—The barometer will probably fall on Saturday, with increasing southerly winds, cloudiness and local storms from Lake Superior to Arkansas. An area of clouds and rain will probably extend from the Gulf coast Northwards to Tennessee. Partially cloudy weather, with rain, is probable for Saturday afternoon in the South Atlantic States, and partially cloudy and clear weather, with light winds, for the middle and Eastern States.

The Cabinet meeting was attended to-day by all the Ministers except the Postmaster-General and Secretary of the Treasury, both of whom are absent. The President early called the attention of the members present to the letter of Senator Scott, of Pennsylvania, alleging causes for the declaration of martial law in certain Counties of South Carolina, which was handed to the President yesterday. Without any discussion of consequence, this letter was referred to the Attorney-General, who is to take action concerning the application of the Ku Klux law upon the statements contained therein; and as soon as this official has made a report, the proclamation will be issued. The Cabinet also considered the Korean difficulties, but it is understood the question will be left for the action of Congress. A large amount of routine business was accomplished.

Appointments.—David M. Armstrong, Consul-General to Rome; James L. Graham, Jr., Consul to Florence. The department statement shows a reduction of over \$9,500,000 of the public debt. Coin in the Treasury \$93,250,000; currency, nearly \$8,000,000. A despatch received at the Post Office Department, from the postmaster at Savannah, Ga., says the mails, and also all cars and passengers, from Charleston are refused admittance into Savannah, in consequence of fear of the yellow fever. It is also stated that the mails from Charleston will be sent by way of Augusta, Ga.

CHARLESTON, September 1.—The cool change seems to have had a favorable influence in abating the fever. No new case reported to-day, and only one death. To correct erroneous rumors, it should be stated that the business of the city is proceeding without interruption of any kind, and that all railroad trains arrive and depart with accustomed punctuality.

Arrived—steamer Empire, Philadelphia; schooner W. T. Bradley, Boston. KEY WEST, September 1.—The Junia's passengers have arrived safely. CALHO, September 1.—The steambark Carrio Kountz, which left last night for New Orleans, with a full cargo, struck a snag near Wolf Island, below Columbus, and sank in eight feet of water.

NEW YORK, September 1.—The grand jury was discharged this morning. It is understood they found bills of indictment against the President and Superintendent of the Staten Island Ferry Company and United States Inspector Matthews. Court officers, for the present, refuse to give information on the subject. Col. William A. C. Ryan, the Cuban General, was arrested, this morning, at the Gilsey House, charged with passing a worthless check for \$150 on Oliver D. Taylor, a broker. He was committed for examination.

The coroner's jury returned a verdict that the trunk woman "came to her death from an abortion, produced, we believe, by Jacob Rosenwig." Thomas Lee, a mate of the ship Thomas Dunham, was shot dead by a sailor, in a fight, while the vessel was going down the bay. The captain, mate and nine of the crew were arrested and the vessel detained.

R. A. Tighman, of Philadelphia, has obtained a decree for \$229,000, against Rowland Mitchell, for infringement on a fat, acid and glycerine patent—the largest decree for infringement ever entered.

WHOLESALE AND JOBBING GOODS. A Specialty with Us for the Season.

IN view of the yellow fever being in Charleston, preventing a large number of buyers from visiting that city for their fall stock, we have this day telegraphed our partner in New York to buy very largely of such Goods as are usually jobbed in Charleston—as Dry Goods, Boots and Shoes, Hats and Caps, Millinery and Straw Goods. Our third floor will be devoted to wholesaling entirely, and we shall offer Goods at fair prices, and in larger quantities than ever seen in this place before, and on time to approved names. Merchants will please remember that none of these lines are new to us. We have, with short intermission, dealt largely in all these Goods for years. The lady readers will remember that at this house a Dress can be bought from the finest, first class Dress Goods stock in the South, cut and made to fit, and guarantee it, or cut and made by measure sent by mail. The newest style French Bonnet or Hat can be had here. The best and practical Shoes here. In fact, we claim for our house that it is "the place" of the South to get the best at the least price. R. C. SHIVER & CO. August 31. All papers in the State, except in Charleston, Beaufort, Colleton and Marlboro will copy one time, and forward bills at once.

YELLOW LINE!

FAST FREIGHTS TO AND FROM NORTHERN CITIES, Via Charlotte, Columbia and Augusta Railroad, North Carolina Railroad, Raleigh and Gaston Railroad, Seaboard and Roanoke Railroad, and Steamers between Portsmouth and New York, Boston, Philadelphia and Baltimore! THE ABOVE-NAMED RAILROADS, in connection with the Steamer Lines, having united in forming a Fast Through Freight Line, will put in operation, on the 4th of September, a FAST THROUGH FREIGHT SCHEDULE between Columbia and Augusta and the above-named Northern cities. The attention of shippers and receivers of freight is called to the following advantages offered by the line: It is almost entirely an inland route, by which rates of insurance and risks of delay from bad weather are greatly reduced. There is no drayage, and no transfers, except under cover. Daily Steamers will run between Portsmouth and Baltimore, Philadelphia and New York, and freights will have prompt despatch. Rates and classifications the same as by other routes. Through bills of lading given and claims promptly adjusted. HAVE GOODS MARKED "VIA YELLOW LINE." For further information, apply to Superintendent Charlotte, Columbia and Augusta Railroad, E. P. ALEXANDER, or F. H. DORSEY, General Freight and Ticket Agent. Sept 2 Jno
