NOON DESPATCHES.

BRIDGE DISTURBANCES—FALL FROM A MILE HIGH BALLOON—ARREST OF BRIGHAM YOUNG—COALMINE EXPLOSION—MARINE DISTURBANCES—THREE PER CENTS CALLED IN—CIRCULAR TO BRITISH CLAIMANTS—FEVER DEATHS, &c., &c.

NEW YORK, October 2.—Application was made, to-day, before Judge Bixby, for a warrant for the arrest of Mayor Hall, on a charge of official neglect in permitting the conversion of public funds. The Mayor will be notified to appear at 10 A. M., to-morrow, and answer the charge brought against him. It is stated that applications will be made to-morrow for the arrest of Tweed and others, on the charge of fraudulently appropriating public funds.

LOUISVILLE, October 3.—At a balloon ascension, to-day, the balloon broke prematurely from its fastenings. Two men sprang for the car, and only caught the ropes, and were thus carried off. One fell from a height of thirty feet, and was unhurt. The other, Professor Wilbur, clung to the ropes till the balloon attained a height of one mile, when he came whirling to the earth. As he approached the earth, he was feet down, then spread out horizontally, then doubled up, turned over, and then straightened out, with his head downward. As he struck the earth, he fell upon his head and neck. His head was mashed into an undistinguishable mass, and his body was bruised and crushed horribly. His body made an indentation in the ground eight inches deep, and it rebounded four feet from where it struck. Professor Young, with his wife and little daughter, were on the ground, and witnessed the terrible affair.

WHEELING, WEST VIRGINIA, October 1. A frightful accident occurred this afternoon. One of the cables of the old suspension bridge leading from the foot of Sixth street to the Crescent Iron Mill, across Wheeling Creek, broke, with nine persons on the bridge, five of whom fell thirty feet. Thomas Callaghan and James Kline were killed outright. Ohas. Coyle is since dead, and Albert Elliot, Joseph Hayne and George Akers are badly hurt. One or more will probably die. The other three clung to the other cable and got off. The bridge has been unsafe for some time, and closed by order of the City Council, but the employees of the iron mill had removed the obstructions for their own convenience.

ST. LOUIS, October 3.—The fair opened under favorable auspices. 400 bales of cotton were entered.

A partially constructed bridge over the Verdigris River, near Fort Gibson, on the Missouri, Kansas and Texas Railroad, fell, to-day, drowning two and killing one. Sixteen were seriously wounded, of whom eight or ten will die.

SALT LAKE, October 3.—Brigham Young was arrested at 4 o'clock, and was indicted for licentiousness. Owing to sickness, he was allowed to remain in his house, under custody of the marshal. Another company of Federal troops has arrived. Serious resistance is improbable. It is generally believed indictments will be found against Brigham Young for murder.

WASHINGTON, October 3.—General Robert Anderson receives \$4,200 per annum from the United States. He is on half pay, as a retired Brigadier-General. The story of his poverty in Switzerland is fiction.

PORTSMOUTH, PA., October 3.—A colliery explosion killed four. One is missing. General Young, of Georgia, is here, looking after affairs. He is President of the Democratic Committee of Georgia. General Young expresses the opinion that the Democrats will sweep all the Southern States.

the late war. The claims must be presented within six months from the 26th of September last.

Probabilities.—The barometer will probably continue to fall in the Southern and Gulf States, and the rain storm now prevailing there will extend into Georgia. Rain is also probable during Wednesday in the Carolinas, and continued Westerly winds with hazy weather on the lakes.

NEW YORK, October 3.—Secretary Seward and party arrived in the Java. A World special, from London, says Thiers has notified Granville that the commercial treaty between France and England will terminate at the beginning of 1872.

ROCHESTER, N. Y., October 3.—The city is filling rapidly. There are many speculations and much excitement.

KINGSTON, JAMAICA, October 3.—The French man-of-war Bouvet is ashore on the coast of Hayti—it is feared a total wreck.

SAN FRANCISCO, October 3.—Shipments of tea overland nearly 4,000,000 pounds during September. Vintage yield about 8,000,000 gallons, exclusive of brandy.

SALT LAKE, October 3.—Young's arraignment has been postponed on account of illness. He remains at home in the custody of the Marshal. His arrest caused some sensation, but no popular excitement.

MONTGOMERY, ALA., October 3.—At a meeting of the leading merchants and cotton factors of this city, last night, a Board of Trade, modelled upon those of sister cities, was organized, with A. Strassburger as President, and M. P. Legrand and K. W. Durr, Vice-Presidents. All the merchants take a great interest in the matter, and are determined on making it a success.

MACON, GA., October 3.—Dr. O. L. Smith, of Columbus, has been elected President of the Wesleyan Female College, vice Dr. Bonnell, deceased. Dr. Smith will enter at once upon his duties.

KEY WEST, October 3.—A salvage is awarded of twenty per cent. on the cargo of the Mississippi. Appraised value, \$175,000.

SAN FRANCISCO, October 3.—The Superintendent of the Mint notifies a number of old Republican employees that, in consequence of political pressure, he must dispense with their services. Their successors are supposed to favor a continuation of the present Administration.

The small-pox is severe at Walla-Walla, Oregon. Two of the escaped convicts from Nevada were hanged. Intense heat throughout California. Many sun-strokes.

JACKSON, MISS., October 3.—The State Board of Directors called upon the physicians and druggists of the city to ascertain, beyond question, the health of the city, and their report is that the city was never more healthy than at this season. The frosts and cold weather now prevailing preclude further sickness.

The State Fair will certainly commence October 23.

CHARLESTON, October 3.—Arrived—steamers South Carolina, New York; Maryland, Baltimore; schooner Frank and Emily, Rockport. Sailed—bark Kathleen, Liverpool.

Four fever deaths in the last twenty-four hours.

With undoubted genius in every field of thought and speculation, with ingenuity to excel in all the arts, the French are, of all the people in the world, the most prone to run to extremes on every subject. The successful completion of the Mont Cenis tunnel has brought into full play the ideas of a civil engineer of Paris, M. E. Legont by name, who gravely announces in the columns of the Siecle, that there is nothing whatever to prevent the construction of a railroad tunnel from Paris to Pekin. The enthusiastic excavator has gone so far as to calculate the cost of his immense enterprise, and sets it down at 220,000,000 francs. For the present, travelers to China will, no doubt, prefer the long and breezy ocean route to the dark subterranean path proposed by Monsieur Legont, who may with truth be said to have anticipated all other engineers, dead and living, in the matter of tunnels.

A BRAVE BOY.—A Texas paper tells of a boy, sixteen years old, who recently, while hunting cattle, some fifty miles West of Weatherford, in that State, in company with others, became separated from his party, and was brought to bay by six or eight Indians. Behind his dead horse he screened himself for nearly an hour, firing when he could, until at last, when his companions came up, the Indians fled, taking with them the dead savages. The boy died from the effects of the wounds he had received.

"Motte's Victoria Tonic Bitters." ENTIRELY VEGETABLE.

For the cure of Dyspepsia, Acute and Chronic, Bilious Disorders, General Debility, and all Impurities of the Blood. THESE BITTERS have now firmly established themselves in the favor of the public and the medical profession. Prepared from purely vegetable ingredients of acknowledged efficacy, their unrivaled and highly tonic, stimulating and purgative qualities peculiarly adapt them to all cases of General Debility, Nervous Prostration of the System, &c.

As an excitant of the appetite and a wholesome aid to the process of digestion, they will be found to be very efficacious, while their peculiar medicinal properties render them of unequalled value to those afflicted with Chills and Fever, Congestion, and other miasmatic diseases. These Bitters will be found most wonderfully beneficial in all cases of Debility and Irregularities of Females. Wherever introduced, they have become a standard article—a medicinal staple.
