PACIFIC GUANO COMPANY'S

COMPOUND
ACID PHOSPHATE OF LIME,
For Compound with Cotton Seed.
This article is prepared under the super-
intendence of Dr. ST. JULIAN RAYVELL,
expressly for composting, with Cotton Seed,
and is the best fertilizer for cotton, and
years ago, and its use has fully attested its
value. 200 to 250 pounds of this article per
acre, properly composted with the same
weight of Cotton Seed, will produce a crop
with a FERTILIZER of the highest excel-
lence at the smallest cost. A compost pre-
pared with this article, as by printed direc-
tions, contains the elements of fertility that
can enter into a first class FERTILIZER,
while its economy must com-
pensate its liberal use to planters.
For samples and printed directions for
composting, apply to

pared to take pupils on the Piano, Organ
and Guitar, also, in Vocal Music. Having
for many years had charge of the Musical
Departments in the first Female Colleges
and Schools of the State, he deems it un-
necessary to make any other reference to his
qualifications as a teacher.
The arrangements he has made with several
of the most celebrated Piano-makers, will
enable him to offer Instruments of the very
first class at prices that defy competition.
Specimen Pianos daily expected. Those in
want of Instruments superior to any ever
offered for sale in this market, will do well
to examine his new and improved
PIANO FORTE, MELICAMP, &c.,

PACIFIC GUANO.

Price, 45 Cents with Usual Advance for Time.
EXPERIENCE in the use of this GUANO
for the past six years in this State, for
the purpose of fertilizing cotton, has estab-
lished its character for excellence as to render
comment unnecessary.
In accordance with the established policy of
this company, to furnish the best Concentrated
Fertilizer at the lowest cost, the quantity of
this Guano is put into market this season at
the above reduced price, which the Company
is obliged to do by reason of its large facili-
ties and the fact that the Company, at Charleston,
S. C., hence planters may rest assured that
its quality and composition is precisely the
same as that heretofore sold.
As the present low price, every acre planted
can be fertilized with 200 pounds of Guano, at
a cost not exceeding the present value of 30
pounds of cotton, while experience has shown
that under favorable conditions of season and
cultivation, the crop is increased by the ap-
plication from two to three-fold the natural
capacity of the soil; hence under no condition
can the application fail to compensate for
the outlay. Apply to J. N. ROBBON,
Agent Pacific Guano Company,
