THE homeseeker who doesn't reach Florida this year is sadly out of luck.

THE railroads of Florida deserve the thanks of the public for the many cheap excursions now being given. Thousands of people can afford to go on these pleasure trips who could not afford to pay the regular rates.—Ex.

GOV. MORRILL, of Kansas, who started out a short time ago to weed out the corruptionists in Kansas official life, is wielding a very broad-bladed hoe, and the swath he is cutting ought to command the admiration of every lover of official honesty.

TREASURY officials at Washington are discussing the propriety of paying off the government employees in silver. They say there is \$480,000,000 of gold in circulation, and that they have found it impossible to keep more than \$60,000,000 of silver in circulation.

EVERY sport or new thing brings its slang or cant with it, which in time may become refined into the permanent language. The latest fad among the bicyclists or "bikes" is to call all womankind "bloomers." When a fellow has "wheels in his head" or "a screw loose," the bicycle slang says "his lamp is out" or "his tire is down."—Ex.

A CERTAIN indication of the return of prosperous times is the preparations making by the large railroads of the country for improvements during the next six months. The Pennsylvania, which has done comparatively nothing in the way of betterments for nearly three years, will spend \$5,000,000 between now and January in improving its service. The Baltimore and Ohio will spend considerably more than \$2,000,000, and other large systems will spend equally as much.—Ex.

WHAT DOES THIS MEAN?

Our readers will please excuse shortcomings this morning, as the "fraternity" could not stand prosperity and got too much tanglefoot aboard.

The above appeared at the top of the local column of the Ocala Morning News of yesterday. It is a very unusual announcement and may need some explanation.

We are slow to believe that our esteemed neighbors, who are charged with the weighty responsibility of furnishing our people with daily food for intellectual culture, would so far forget themselves as to "put an enemy into their mouths to steal away their brains."

In order to fill our newspapers with sober thoughts and reliable information, those in charge of them ought to abstain from the wine-cup.

But we will turn the matter over to our temperance editor, who will investigate it and report the facts later.

THE columns of a newspaper are no place for heralding to a gaping world the little family jars that transpire in every community. Gossipers will spread the news fast enough without the local paper mixing in. Besides, the publication of items of this kind is of no interest to outside readers, and of no credit to the community.—Ex.

THE New York Commercial Advertiser, republican, says:

A rapid fire gun weighing but 45 pounds and capable of firing 650 bullets of large caliber every minute, such as has just been tested and approved at Sandy Hook, fills a long felt want. As an attachment to the recent decision of the United States supreme court touching railroad riots, it fits like paper on the wall.

The above is a fair specimen of the utterances of the plutocratic press when it comes to an issue between the working people and the corporations.
