A commercial traveler says the people of St. Petersburg, where he was last in the interest of his house, are making extensive preparations to receive the hosts of tourists whom they expect to invade their town this winter. It is thought that there will be three times as many tourists as there are permanent inhabitants of the place, and buildings are going up on all sides in order to reap the bountiful harvest of dollars which the Yankees will probably have on their persons.

SILVER SPRINGS ROAD

The Silver Springs road is rapidly approaching town.

Although very little fuss is made a great deal of work is done and long before Dec. 1 the road will be graded to the terminus in the city.

Fully half of it is now graded and ready for the ties and rails to be laid.

After the grading is completed the rails can be laid in half a month.

So it looks like, without any mishap, we will be going to Silver Spring on this line by Jan. 1, 1896. All hail to Ocala, with her snap and business enterprise.

The National Protective Legion pays \$15 per week to members in case of sickness or disability.

Mr. Haycraft will return in a few days to take his family to Atlanta.

Isaac Stevens took a trip to Inverness and the other phosphate centers of Citrus county yesterday. He says most of the mines are at work again, and that everything seemed very lively. A great deal of rock was piled ready for shipment, and the miners were having trouble to get cars enough to move the rock. Mr. Stevens said the phosphate business was much more lively in Citrus county than at Dunnellon. It is reported that there is a slight rise in phosphate, and Mr. Stevens thought the miners were trying to fill orders on this little rise.
