A GREAT WASTE OF OIL

Send Rockefeller to Mexico-He Will Soon Control the San Geronimo Geyser

Tampico, Mexico, Nov. 14.-The Mexican government has given up the task of trying to control the enormous flow of the great oil geyser in Ocala, Fla. the San Geronoimo field 75 miles south of here. The 800 federal soldiers who have been employed in the futile work for several weeks sailed yesterday for Vera Cruz on the government gunboats Zarragoza and Morelos.

#### Poisonous Gases

A new phase of this phenomenal oil eruption is the poisonous gases which aer thrown off. These gases have caused the death of a number of workmen. One of the peculiar effects D. E. McIVER ALFRED E. OWEN of these gases is injury to the eyes. A physician reports that he attended 250 people whose eyes were badly injured, some of them being swollen to such an extent that they were entirely closed.

#### Soldiers Affected

All the soldiers who are returning from there were more or less affected in this manner. The crater is increasing in size and land is still sliding into the vortex of boiling oil and water, sometimes as much as an acre of land, trees and everything dropping out of sight instantly.

Lake Tamiahua, into which the overflow from the well is being conducted, is covered for miles with a coating of oil and asphalt. Ducks, geese, and cranes alighting on the surface where this mixture is floating are B. H. SEYMOUR unable to extricate themselves and die in a few minutes. Alligators are found floating on the surface of the lake, having met their death from the same causes.

# Made of Forest Roots

Dr. Pierce believes that our American forests abound in most valuable medicinal roots for the cure of most obstinate and fatal diseases, if we would properly investigate them; and, in confirmation of this conviction, he points with pride to the almost marvelous cures effected by his
