## TEDDY ON HIS TRAVELS

Sailed from New York Yesterday and Received the Greatest Send-Off Ever Given an American Citizen

New York City, March 24.—The American liner Hamburg, bearing Theodore Roosevelt on his way to Africa, left her pier at Hoboken at 11 o'clock yesterday amid the cheers of thousands who filled the streets and docks in the neighborhood of the Hamburg pier. As early as 7 o'clock people began swarming in the direction of the pier. The Hoboken and New York police and military aides kept a strict guard over the Hamburg-American pier only those invited being allowed within the precincts of the dock. Mr. Roosevelt said farewell to his family and the Longworths at Sagamore Hill, only Kermit and Archie accompanying him to this city. At Oyster Bay depot he waved good-bye and good luck to his neighbors. On the train Mr. Roosevelt jokingly told the newspaper men he did not believe he would be gone a year and a half. He said that if any newspaper men should try to follow him into Africa they would be pitched overboard. He declined to send any final message to the public. The passengers crowded into the car to shake hands, and he greeted all joyfully, expressing thanks for the public's solicitude. He dodged the photographers on the ferryboat, and was hurried from the ferry to Hudson river tunnel in Douglas Robinson's automobile. He shook hands with the motorman on leaving the train, and cheerfully swept the dock when he was discovered by the crowd. Doffing his hat, he hurried up a gangway to his stateroom, which had been decorated with thousands of roses. Once settled there, he announced that he would see his friends and then the crash began. A delegation of Italians presented a big bronze tablet, for Mr. Roosevelt's assistance in the earthquake. He will reach Naples on the 5th of April. From that port he will continue his trip on the steamship Admiral for Bombay, or to Kildgarry. He is accompanied by the Smithsonian representative and Kermit, but not by Mrs. Roosevelt, who, with the children, will sail later. The Hamburg sailed at 11:06. Mr. Roosevelt stood on the bridge shouting good-bye to the crowd. Kermit stood by his father's side. Boats whistled, bells rang and the greatest send-off ever given an American citizen came to a close. President Taft sent a message of well wishes and also a present of a gold pen.

The machinery of the Hamburg when she sailed was in perfect condition, her bunkers were filled with the choicest coal. The confident expectation in that the boat will reach Naples in record time. Aboard the vessel are several hundred first cabin and many second cabin passengers. The Roosevelt party occupy five staterooms with a lounge room and bath. At Naples the members of the Roosevelt party will transfer to the steamer Admiral of the German East African Line, which is to sail April 5 for Kilindini Harbor, Mombasa Island. They will arrive at the East African port toward the end of April, proceed by the Uganda railway to Nairobi, spend six months there, then continue by rail to Port Florence, Lake Victoria Nyanza, making a total distance of 584 miles by rail.

The expedition will cross Uganda by caravan, and finally pass down the whole length of the Nile, reaching Khartoum about one year from this date. Much of the hunting and specimen collecting will be done in British East Africa, where the Uganda railway will be a means of ready transportation from Nairobi, which will be the base of supplies.

At Khartoum, it is expected, the expedition and his son will be joined by Mrs. Roosevelt and Miss Ethel Roosevelt, who will accompany them on their trip to Europe. The three naturalists of the party—Major Edgar A. Mearns, J. Alden Loring and Edmund Heller—will proceed direct to the United States from Egypt. Mr. Roosevelt intends to remain in Continental Europe and in Great Britain for a full year, having accepted invitations to deliver lectures at leading universities in Germany, France and England.

The German and British authorities in East Africa already have offered to place every facility at their disposal for the convenience and safety of Mr. Roosevelt and his party. There is not a member of the party who is not an excellent rifle shot and assurances have been given that not the least fear need be entertained for the safety of the expedition. Trusted guides and native carriers already have been engaged.

Kermit Roosevelt, the ex-president's second son, whose age is nineteen goes along as the official photographer of the expedition. His collection of photographs of animals and scenes will be made use of in a scientific way and as illustrations for books and articles which his father will write.

**THE ROAD TO SUCCESS**  
has many obstructions, but none so desperate as poor health. Success today demands health, but Electric Bitters is the greatest health builder the world has ever known. It compels perfect action of stomach, liver, kidneys, bowels, purifies and enriches the blood, and tones and invigorates the whole system. Vigorous body and keen brain follow their use. You can't afford to slight Electric Bitters if weak, run-down or sickly. Only 50c. Guaranteed by all druggists.

**ELECTRICAL FIXTURES**  
I have just received a new supply of electric fixtures. Among them are some handsome bracket fixtures and tungsten fixtures, inverted or turned down.  
H. W. Tucker.

**A SWOLLEN JAW**  
is not pretty nor pleasant. Whether it is caused by neuralgia, toothache or accident, Ballard's Snow Linctament will reduce the swelling and relieve the pain. The great and sure cure for rheumatism, cuts, burns, bruises, scalds—and all aches and pains. Sold by the Anti-Monopoly Drugstore.

## DEDICATION AT ROLLINS

Of the Memorial Halls Donated by Andrew Carnegie and Loring A. Chase

Rollins College in the 23rd year of its history has probably never celebrated a more important event than the dedication on Thursday, February 18, of its two memorial halls, one in honor of Andrew Carnegie and the other in honor of Loring A. Chase.

Many prominent friends and leaders of education were present, having come to bring greetings of congratulation and good fellowship to Rollins, and a number of old students had gathered to rejoice with their alma mater.

The dedicatory exercises were held at 3:30 in the afternoon and were attended by a large assemblage of friends and patrons. President Wm. F. Blackman, who presided both afternoon and evening, and by his gracious dignity added much to the friendliness and good cheer which characterized the occasion, gave cordial welcome to all. He spoke of the gift of land to the college by Mr. Chas. H. Morse, of Chicago, and Winter Park, which had made possible the extension of the campus to the east and of the addition westward of an esplanade driveway and walks; of the removal to new sites of Cloverleaf Cottage and the dining hall; of the new water system, the gift of Mr. C. Comstock; and of the two new buildings given by Andrew Carnegie and Loring A. Chase.

Hon. Joseph Carter of Illinois, and Col. D. B. Dyer of Augusta, Ga., both schoolmates of Mr. Chase, gave reminiscences of his early life and high aspirations of his strong, pure, true heart. It had been his dearest wish to found a college for young men, Dr. Blackman mentioned that Mr. Chase, who, as a member of the Forty-fourth Regiment of Massachusetts, fought for conscience sake against the South, when he came to die, was buried in Southern soil and gave his property to a Southern cause. The president said: "Chase Hall is a home for young men, where young men will think and feel and make friendships; will love and doubt, grieve and weep and wonder what life means and what life is in store for them. I know no place more sacred, more pathetic and more beautiful than the place where young men, or for that matter, young women, pass these years of their stress and strain toward life—and to them we lovingly dedicate Chase Hall."

Speaking of Andrew Carnegie and the great scope of his widespread charities, Dr. Blackman said: "The one thing which interests us more personally in Mr. Andrew Carnegie is the fact that he has given us this beautiful building. We dedicate Carnegie Hall to the extension of knowledge both that the college may be a place for the best collection of books and also well equipped offices in which to carry on its work."

He also announced the assigning of retiring grants to Profs. Lord, Longwell and Baker by the Carnegie Foundation for the advancement of teaching, and the further offer by Mr. Carnegie of \$25,000 for the erection of a science hall, conditioned on the raising by the college of an equal sum for the endowment of the department of science.

A prayer of dedication was offered by the bishop of Maryland, followed with music by the Rollins Choral Society, led by Mr. Walter Drennen, instructor in vocal music.

## NEW BUILDINGS AT ROLLINS COLLEGE

Carnegie Hall

The gift of Mr. Andrew Carnegie is to be used for library and administration purposes. It is ninety-eight by fifty feet and two stories in height. The material is Florida sand lime brick, with cement stone trimmings and the roof is covered with red clay tiles; Spanish style of architecture. On the wall to the right of the handsome entrance is a bronze medallion of Andrew Carnegie and on the left a bronze tablet containing the name of the building, the president of the college and the architects. The building faces north and the west half of the ground floor is devoted to the reading room—50 by 37 feet—and reaches to the heavily timbered roof. An octagonal gallery extends around this room and both above and below there are alcoves reaching to the edge of the gallery, affording shelving room for some twenty thousand volumes. The floor of this room is Indian red cement, and the room is finished throughout in natural wood. A glass partition containing a hinged window and a railing separate the reading room from the librarian's room, which is connected by a lift with the second floor. The east half of the ground floor is devoted to the offices of the president, secretary, treasurer, bursar and dean. These offices are large and commodious and are finished in natural wood and have tiled and waxed floors. The rooms and the second floor will be used ultimately for steel book stacks, which will probably provide accommodations for one hundred thousand volumes. Until they are needed for this purpose three of them will be used as class rooms by the professors of history and English. A large room, 28 by 20 feet, will be set apart for the use of the Young Women's Christian Association, the Kappa Epsilon Sorority and other organizations of the young ladies.

Carnegie Hall was designed from President Blackman's sketches by Whitfield & King, 160 Fifth avenue, New York; the contractors were W. P. Richardson & Co., Jacksonville.

**Chase Hall**  
Chase Hall, a dormitory for young men, was erected in memory of the late Loring A. Chase, one of the founders of the town of Winter Park, who left a bequest to the college at his death two years ago for this purpose. Designed by Whitfield & King and built by W. P. Richardson & Co., of Jacksonville. Material is white sand lime brick with stone trimmings, and the roof is of Ludowici red clay tile. It contains eighteen double and six single rooms, together with a large common with fire place and built-in seats. On the second floor there are five toilet rooms with shower baths. The building overlooks Lake Virginia toward which the land slopes sharply and in this direction two porches on each floor and a large terrace give outlook—the terrace is floored with Italian red cement and affords space for potted ferns and palms. The furniture is Mission style stained light green. A more beautiful home for young men could hardly be imagined.

**TWO MILLION BOTTLES**  
Of Perry Davis' Painkiller sold every year. Think of it! And every bottle is lessening suffering and helping some human being to health and happiness! This wonderful household remedy cures the pain of sprains, burns and bruises. It relieves rheumatism or neuralgia. It cures colds, cramps, colic, diarrhoea. There ought to be a bottle on your shelves just now, ready for the first sign of trouble. The new size bottle is 35 cents and there is also the 50 cent size. Be sure your druggist gives you Perry Davis'.

**RATES TO THE FESTIVAL**  
Special rates of fare to Jacksonville for the Spring Musical Festival have been made by the railroads. Tickets will be good for leaving Ocala on the 18th or 19th of April and will be good by any train arriving in Jacksonville by midday of the 19th. Return limit, April 21st, thus assuring every citizen the pleasure of attending the festival at lowest possible cost.

As the regular box office prices will prevail after March 31st, it would be well if every one who intended visiting the festival make application for the associate membership \$5 ticket today, as they will be withdrawn, and increased prices of admission be put in force, April 1st.

**SIMPLE REMEDY FOR LA GRIPPE**  
La grippe coughs are dangerous as they frequently develop into pneumonia. Foley's Honey and Tar not only stops the cough but heals and strengthens the lungs so that no serious results need be feared. The genuine Foley's Honey and Tar contains no harmful drugs and is in a yellow package. Refuse substitutes. Sold by all druggists.

Send us your prescription business. We are thoroughly prepared to handle it. Tydings & Co.

## CONQUERED THE ICE KING

A Report Comes from the Antarctic that Shackleton has Planted the British Flag on the South Pole

London, March 24.—A report has been received here that the Antarctic expedition under Lieut. Ernest Shackleton of the British navy, which left England in July, 1907, has reached the south pole.

When the expedition left Liverpool in 1907, King Edward VII. Land was located as the base of operations by Lieut. Shackleton. An attempt was made to reach the pole, using Siberian ponies and a specially built motor car which was designed to run over the ice.

The party found it very difficult to find a place to make a landing from the Nimrod. They encountered terrible storms. Little was accomplished during 1907, and last year the Nimrod was blown out to sea again and the party suffered terrible hardships before they could again reach their supplies. Winter quarters were finally established near Cape Royds, Mount Erebus, where the Nimrod left the party. The ship returned recently after shipping new supplies, and it is supposed that the party which remained on land had succeeded in making their way to the pole and back to the landing place again, if the report be true.

## PRESCRIPTION FILLED OFTEN

That the readers of this paper appreciate advice when given in good faith is plainly demonstrated by the fact that one well known local pharmacist supplied the ingredients for the "vegetable prescription" many times within the past two weeks. The announcement of this simple, harmless mixture has certainly accomplished much in reducing the great many cases of kidney complaint and rheumatism here, relieving pain and misery, especially among the older population, who are always suffering more or less with bladder or urinary troubles, backache and particularly rheumatism.

Another well known druggist asks us to continue the announcement of the prescription. It is doing so much real good here, he continues, that it would be a crime not to do so. It can not be repeated too often, and further states many cases of remarkable cures wrought.

The following is the prescription, of simple ingredients, making a harmless, inexpensive compound, which any person can prepare by shaking well in a bottle: Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Any first-class druggist will sell this small amount of each ingredient, and the dose for adults is one teaspoonful to be taken after each meal and again at bedtime. There is enough here to last one week, if taken according to directions. Good results will be apparent from the first few doses.

## MILES AGAIN WELCOME AT THE WHITE HOUSE

Washington, March 24.—Lieut. Gen. Nelson A. Miles, United States army, retired, called at the White House yesterday for the first time since the winter of 1901-02. Before President Roosevelt's administration was many months old General Miles had an open quarrel with Mr. Roosevelt in the White House and the general never returned. General Miles said he called on President Taft yesterday merely to pay his respects.

**IF YOU KNEW**  
The merits of the Texas Wonder, you would never suffer from kidney, bladder or rheumatic trouble. \$1 bottle two months' treatment. Sold by druggists or by mail. Send for testimonials. Dr. E. W. Hall, 2925 Olive street, St. Louis, Missouri.
