WASHINGTON WANTS TO KNOW THE WORST

CONCERNED OVER WHAT MAY HAPPEN TO AMERICAN COMMERCE

ADMINISTRATION'S SECOND NOTE TO GREAT BRITAIN REQUESTS THAT ENGLAND'S NEW MARITIME POLICY BE MADE MORE EXPLICIT

Washington, March 6.—When the second note the United States is said to be about ready to send to Great Britain reaches the London foreign office, it is expected that Great Britain will immediately place before President Wilson a comparative statement regarding the British policy of paralyzing all German commerce. Great dissatisfaction exists in Washington over the alleged dilatory tactics of Great Britain regarding the recent inquiries from the United States.

Nothing has been received from Sir Edward Grey, replying to the president's request for further details of England's new maritime policy. It is said that the second note will make clear that the United States cannot wear without protest infractions of international law to the detriment of the rights of neutral nations on the seas. While avoiding any direct issue with Great Britain, the United States determined to know just what hazards are to be faced by American commerce.

London, March 6.—The French liner La Touraine, burning at sea 500 miles west of the Irish coast, flashed the S. O. S. signal early today. The steamships Arabic, Rotterdam, Swanmore and Cornishman, answering the signals, rushed to La Touraine's assistance. The passengers and crew were rescued.

La Touraine was bound from New York to Havre. She steamed Saturday last. Among the passengers were ten nurses and five physicians, going to the French war zone.

PACKING INDUSTRY OF MARION

In a little talk yesterday afternoon, before a few members of the Board of Trade, and the Board of Governors of that body, Mr. L. S. Light, of Reddick, stated that a few years ago Marion county had no method for curing her meat or preserving it other than the old methods of smoking and salting. Now, he said, the Ocala Ice & Packing Company cured 500,000 pounds of pork this season and the Reddick Ice and Cold Storage plant cured 120,000 more. In addition to this, he might add, that unless they have recently discontinued their business, the Dunnellon ice plant handles a great deal of meat each season.

MEETING OF MARION TEACHERS ASSOCIATION

The Marion County Teachers' Association held its regular monthly meeting this morning at the high school, with Prof. W. H. Cassels, president pro tem, in the chair.

The meeting was opened with prayer by Dr. Cox of the University of Florida, who came especially to address the association.

The minutes of the last meeting were read by the secretary, Miss Elizabeth Mizelle, after which Miss Nellie Gottlieb gave an instrumental selection, playing exquisitely Chopin's "Polonaise."

It was decided to have one more meeting, April 10th.

"A Bowl of Roses" and "I Know a Lovely Garden" were two enjoyable numbers charmingly sung by Mrs. H. M. Hampton.

Dr. Cox, who is one of the state's chief educational promoters, was introduced by Prof. Cassels. "What is Man" was the subject of Dr. Cox's splendid address. He began by giving the following definition of man from Tennyson's Memoriam: "An infant crying in the night, An infant crying for the light."

It was with deep interest that he was heard by the many who attended the meeting.

ATTACK AT BOTH ENDS

BRITISH AND FRENCH IN THE DARDANELLES AND THE RUSSIANS IN THE BOSPHORUS

London, March 6.—Heavy Krupp guns along the Dardanelles, north of the Chanak and Nagura forts, where the waterway bends sharply to the east, and a great Turkish army massed along both sides of the strait to prevent the march of the allied forces on Constantinople, have apparently checked the operations of the international fleet.

The threatened Russian attack, with ten battleships, twenty-two destroyers and eleven submarines and nineteen smaller craft, at the eastern end of the Bosphorus, may necessitate the withdrawal of a part of the Turkish forces to defend Constantinople.
