

THE STAR IS THE ONLY NEWSPAPER IN MARION COUNTY TAKING TELEGRAPH SERVICE

PRESIDENT WILSON
WILL STAND PATNo Recession Likely in the
Next NoteIS DETERMINED THAT GERMANY SHALL RESPECT THE RIGHTS
OF AMERICANS

(Associated Press)

Washington, July 20.—President Wilson and his cabinet today will decide on the character of the next note to be sent by the United States to the German government. The president and Secretary Lansing yesterday prepared the draft which was to be presented to the cabinet. The approval of the cabinet is expected. The probable contents of the note are unknown, but it is understood that the note reiterates the previous position of the United States as outlined in the two former notes sent by this government to Germany.

The German submarine attack on the Cunard Line Orduna was brought formally to the attention of the government today by Mr. William C. Thompson, counsel for the industrial relations, who was a passenger on the ship and witnessed the attack from the deck of the Orduna.

SOME CHANGES MADE

Washington, July 20, 2:30 p. m.—President Wilson and his cabinet spent two hours in discussing and approving the draft of the note to Germany. The cabinet members refused to discuss the contents or phraseology of the note. It is known that some changes were made.

A BRAVE GIRL

Face to Face with Death, Miss Beatty Told Her Friends to Save Themselves

Crystal River News: An accident which has cast a gloom over this community, occurred Thursday morning out in the gulf, four or five miles from Shell Island, in which Miss Della Beatty lost her life.

Mr. and Mrs. H. L. Hough and son Flink, Miss Della Beatty and her guests, Mrs. J. N. Tiller and her sister, Miss Annabel Wishart of Martin, went down to Mr. Hough's island, Wednesday afternoon on the launch Helen II., Mr. George Smith in command, with the intention of remaining several days.

On Thursday morning Mr. Smith took Miss Beatty, Miss Wishart and Mrs. Tiller out on the gulf several miles. In some manner the anchor fell to the bottom of the boat and made a hole in her. All were seized with horror as the water began to fill the launch, but luckily Mrs. Tiller and her sister knew how to swim and taking off their shoes and the heaviest of their clothing managed to swim fully a quarter of a mile, where they could touch bottom. Miss Beatty could not swim and went down with the ill-fated launch. Mr. Smith barely managed to escape with his life.

Searching parties went out immediately on receiving the sad news here, but the boat was not found until about dark Thursday evening. They failed to find the body with the boat, and the search was continued, additional parties going out Friday morning. The disabled Helen II. was brought to the surface and towed in about 3 o'clock Friday afternoon.

Miss Beatty was a cousin of Mr. H. L. Hough and had made her home with his family for the past ten years. Miss Beatty's mother and sister live in South Carolina. She went down bravely, shouting to the others to swim for their lives and with a prayer for their safety.

The body of Miss Beatty was found Friday night about 11 o'clock, by two negro fishermen, out in Salt river where it had been carried by the current for about seven miles from where she was drowned on Thursday.

An Easy, Pleasant Laxative

One or two Dr. King's New Life Pills with a tumbler of water at night. No bad, nauseating taste; no belching gas. Go right to bed. Wake up in the morning, enjoy a free, easy bowel movement, and feel fine all day. Dr. King's New Life Pills are sold by all druggists, 36 in an original package, for 25c. Get a bottle today—enjoy this easy, pleasant laxative. Adv. 2

REMOVED TO A
PRIVATE ROOMLEO FRANK SEEMS TO HAVE A
BETTER CHANCE TO LIVE

(Associated Press)

Milledgeville, July 20.—The doctor's announced that Frank's temperature at 9 o'clock was one hundred. Frank was removed to a private room today.

FRANK'S CONDITION IS MORE FAVORABLE

The condition of Frank is good under the circumstances. Physicians attending the noted convict at the state prison farm here today said he spent a restful night and is able to take nourishment. It is difficult to prevent him from talking.

WOUND IS INFECTED

Frank's temperature at noon was 101.2-5. The wound is infected. A drainage tube has been inserted.

GREEN THINKS HE WAS CALLED

When questioned yesterday, William Green, the fellow convict who cut Frank's throat, declared he was "called from on high" to kill Frank. Green indicated no remorse, as he did right after the attack Saturday night. "I only wish I had had more strength," Green said. "I think I have done my duty in this matter as much as my strength allowed. I believe God helped me and I don't think I ever did wrong in my life."

Should Frank die Green will probably be tried for the murder, but there has been no decision reached as to what action will be taken against him if Frank recovers.

PEACE AT ANY PRICE

Lacks a Great Deal of Being to
Champ Clark's Liking

At the reception to the Liberty Bell in San Francisco Saturday, Speaker Champ Clark made the following remarks:

"While the other nations of the world are at war, we are celebrating the greatest achievement of peace. The American people want peace, but do not be deceived. It is not any old kind of peace that is wanted. America wants peace with honor. Peace at any price is a demoralizing, debasing doctrine." He said that the did not want a great standing army or a navy that would overshadow other nations, but that he wanted an "adequate navy, whatever that means."

"And I propose to find out what it means and vote for it at the next Congress," he said amid cheers.

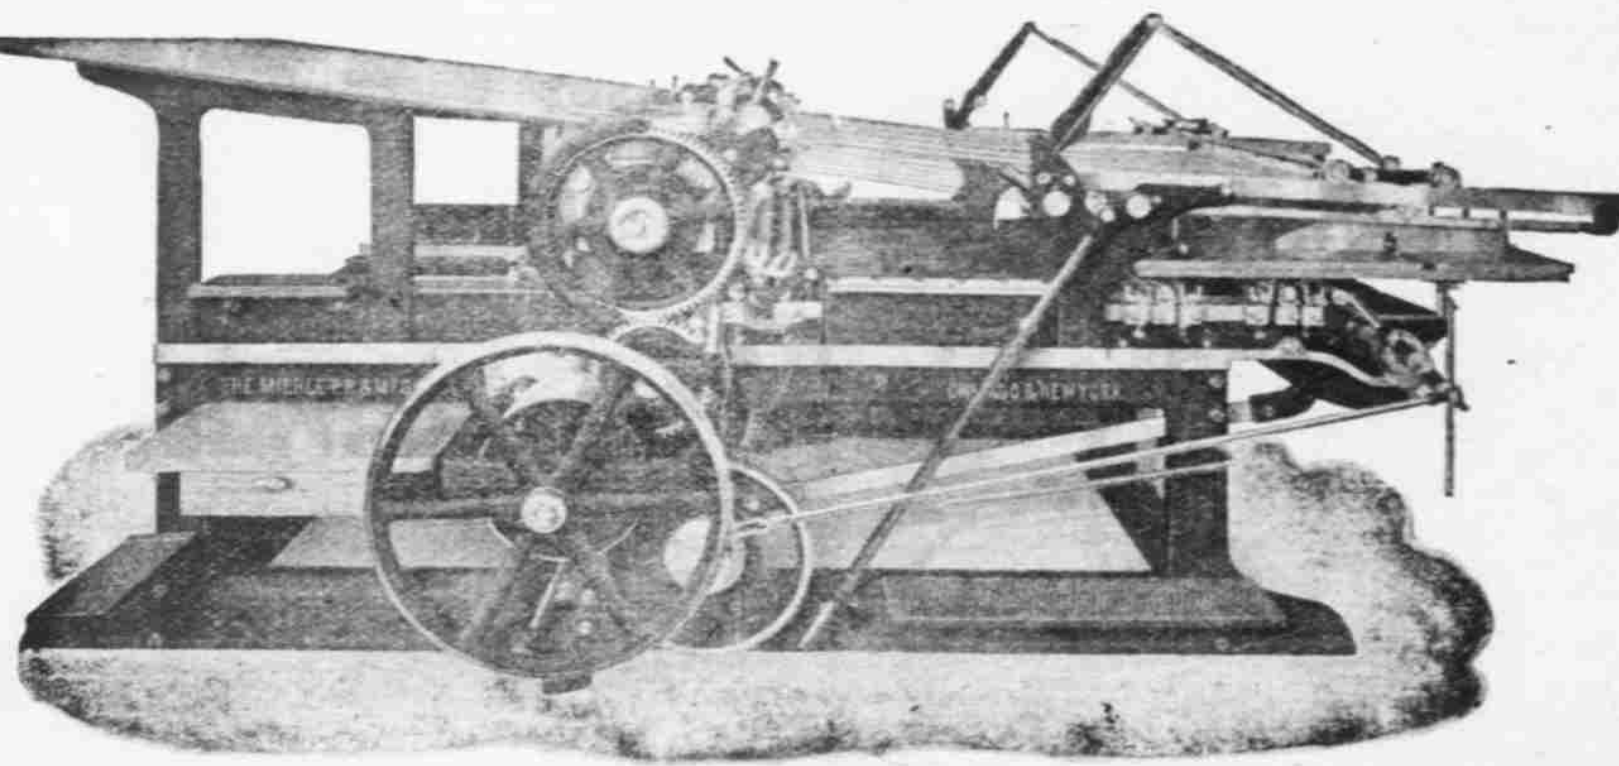

"We do not want war, God forbid," he said, "but if it comes we must emerge conquerors."

As practical suggestions for increasing the efficiency of the army and navy he advocated the opening of the doors of the Annapolis and West Point academies and sending drill officers to all colleges that request such. He summed up as follows:

"To preserve the republic, to improve it, to strengthen and cement it, so that not even the gates of hell will prevail against it."

Benefited by Chamberlain's Liniment

"Last winter I used Chamberlain's Liniment for rheumatic pains, stiffness and soreness of the knees, and can conscientiously say that I never used anything that did me so much good."—Edward Craft, Elba, N. Y. Obtainable everywhere. Adv.

THE STAR'S NEW MIEHLE PRESS

THE STAR'S
NEW PRESSFINEST PIECE OF PRINTING
MACHINERY IN FLORIDA
OUTSIDE THE BIG CITIES

The Star has just installed a new, two-revolution, Miehle high speed press. The press was made by the Miehle Printing Press Manufacturing Co. of Chicago and was sold to us by the Dodson Printers' Supply Co. of Atlanta, southern agents for the Miehle.

The press weighs about 14,000 pounds and is the first real first class printing press ever installed in Central Florida. It supercedes a Potter press in this office that has been doing faithful service in this and other offices, as near as we can learn, for over a quarter of a century. The old press has been shipped to Atlanta, where it will be worked over and do another quarter of a century's service in some other office. The solid brick foundation on which it rested had been enlarged and was all ready for the new press when it arrived.

The new Miehle erected by Mr. J. A. Laney of Atlanta, sent here by his firm to do the work. He was ably assisted by Mr. Lewis E. Yonce, foreman of the Star's book and job printing department, under whose supervision the press will be operated.

If a fine piece of machinery was ever carefully and intelligently put together, each of the thousands of intricate parts fitted to its proper place and the whole blended into one piece of mechanism to perform its most human functions, this press has been so handled and this paper wishes to state that Mr. Laney knows his business and does his work in a most thorough manner; you cannot hurry him nor will he slight his work in the smallest particular.

The factory says of this press: "After correct mechanical principle and design has been reached, the most important factor in fine machine building is material and workmanship. That the Miehle press is correct in principle and design has been amply proven by the great success it has attained. In the manufacture of the Miehle no cost is spared on labor or equipment to insure the workmanship being of the highest standard obtainable, and the material used is the best that can be bought for the purpose."

The new press was installed by the Star primarily for its book, pamphlet and big circular work, but in its present size and shape the Evening Star will be printed on it, and this afternoon's paper is its first work, printed before the press was thoroughly adjusted and regulated and is, therefore, not a fair sample of its work.

The press will run safely and do good work at the rate of 2500 impressions per hour, and this is done with very little vibration or noise. It will deliver the sheets with the printed side either up or down, as desired, and its register is so finely adjusted that a mechanically perfect register can be obtained. It is driven by an electric motor installed by Mr. Lawton Bailey for Mr. H. W. Tucker, which is attached to the frame of the press and driven by a short belt on direct drive.

With a "clutch and brake" pedal, on which the operator's feet rest, he can control the press, start and stop it and "throw off the impression" instantly. Its twelve form rollers and vibrators give the most perfect ink distribution that it is possible to obtain.

The public is welcome to come in and see the press in operation.

Some of the Users of the Miehle In Florida, Jacksonville has seven, St. Augustine four, Tampa, Tallahassee and Miami each three, with several others scattered over the state. Eustis has recently put in one and Live Oak has one, but until the Star put in a Miehle, there was none between Live Oak and Eustis.

AIMED AT
THE ALLIESEMISSARIES OF GERMANY EN-
DEAVORING TO STOP MAN-
UFACTURE OF ARMS IN
AMERICA

(Associated Press)

Bridgeport, Conn., July 20.—Nearly a thousand machinists of the Remington Arms and Ammunition Company here are expected to strike at noon today. Labor leaders declare that a far reaching strike will result and cause a serious curtailment of the manufacture of war munitions for the Allies. Strike calls were also issued today for the machinists of three other local concerns. It is planned to call a strike at the factories subcontracting for the Remingtons. It is estimated that 25,000 or more men will be thrown out of employment.

MADE CONCESSION TO THE MEN

Bridgeport, July 20.—Labor leaders announce that approximately one thousand machinists have struck in the shops of the Remingtons and four other companies. There was some trouble in getting the men out. The Remington officials declare no men have struck there. It is rumored at the works that the manager made concessions.

WORKMEN GIVE TROUBLE AT
THE KRUPP WORKS

Geneva, Switzerland, July 20.—According to advices received here yesterday the Krupp gun works' officials granted a portion of the demands of their men, and secured a temporary peace of the threatened strike, in which nearly 100,000 workers are involved. There were minor cases in which machinery was damaged.

The workmen are reported to be still unsatisfied and many are said to have left work. Military authorities, fearing the crippling of munitions and supplies have warned both sides that they must reach an agreement.

INTERFERENCE IN
AMERICAN LABOR AFFAIRS

By Foreign Emissaries is Charged by
Samuel Gompers

Washington, July 12.—Samuel Gompers, president of the American Federation of Labor, has begun an effort to end the industrial troubles in the Remington Arms company plant at Bridgeport.

"It is known that foreign interests, well supplied with funds, have sought to bring on labor troubles to prevent the shipping of American products to Europe," said Mr. Gompers. "I know that an effort was made to bring about a strike of longshoremen and that when that failed an effort was made to cause a strike of seamen. I knew these things as well as I know anything that I have not personally seen. There can be no doubt that this foreign propaganda, with unlimited means behind it, is seeking to check the manufacture and exportation of supplies for England."

VACCINATED THE BUNCH

Madison, July 20.—The Wisconsin legislature was vaccinated in a body yesterday, as the result of one member being attacked by smallpox.

Tired, Aching Muscles Relieved

Hard work, over-exertion, mean stiff, sore muscles, Sloan's Liniment lightly applied, a little quiet, and your soreness disappears like magic. "Nothing ever helped like your Sloan's Liniment. I can never thank you enough," writes one grateful user. Stops suffering, aches and pains. An excellent counter-irritant, better and cleaner than mustard. All druggists, 25c. Get a bottle today. Penetrates without rubbing. Adv. 2

Tens of Thousands of Lives Lost in
Floods Near Canton

(Associated Press)

Washington, July 20.—Between eighty and a hundred thousand lives have been lost by floods in the vicinity of Canton, China, according to a cablegram to the state department from Consul General Cheshire, who asks all the aid the navy can give.

SEA OF MARMORA
INVADIED BY A SUB

Sofia, July 20.—A submarine, believed to be English, has entered the Sea of Marmora, sinking two steamers, one of which was the Biga. The submarine passed through the Dardanelles and under the Turkish fleet.

ROUNDED UP BY RUSSIANS

Columns of Austro-German Prisoners
Passing Through Kiev

Kiev, July 20.—During June, 61,000 Austro-German prisoners passed through Kiev, according to official figures. Eleven hundred of these were officers.

SUMTER COUNTY'S
GOOD ROAD MAP

Leesburg Commercial: At last Sumter county has started to catch up with the good roads procession. The commissioners have called a bonding election for a quarter million dollars to build lime rock, crushed stone or other hard surfaced roads on the following lines:

Road running west from Oxford to Alto, from Oxford east to county line, from Wildwood west to county line, from Wildwood southeast to county line, from Coleman northeast to county line, from Sumterville to the Outlet, from Sumterville east to Center Hill, from Istachatta bridge to Bushnell, from Bushnell to Webster, from Webster to Center Hill, from Center Hill to county line northeasterly, and from Webster to Linden, and the road from a point at the Marion and Sumter county line north of Oxford to Oxford, thence to Wildwood, thence to Coleman, thence to Sumterville, thence to Bushnell, thence to St. Catherine and thence south to county line.

Diarrhoea Quickly Cured

"About two years ago I had a severe attack of diarrhoea which lasted for over a week," writes W. C. Jones, Buford, N. D. "I became so weak that I could not stand upright. A druggist recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. The first dose relieved me and within two days I was as well as ever." Obtainable everywhere. Adv.

RUSSIAN ARMIES
MUST RECEDE

Won't be Able to Hold Warsaw

FRENCH REPORT TWO SMALL SUCCESSES ON THEIR FRONT

(Associated Press)

London, July 26.—When will Warsaw be evacuated is the question uppermost in the minds of British military circles. With virtually all of Courland in German hands and the Germans across the Bug, continued occupancy of Warsaw exposes the Russians to danger of disaster.

Copenhagen reports the German occupation of Windau. This menace from the north parallels the Teutonic advance on the Lublin railroad.

The Germans are reported advancing toward Riga from Windau, the wisdom of abandoning Warsaw and straightening the Russian line, causes speculations and it is predicted the Russians will retire.

German official statements claim they have taken 45,000 Russian prisoners.

FRENCH AIR RAID WAS SUCCESSFUL

A Paris statement says that six French aeroplanes bombed the station at Colmar, in upper Alsace, returning safely.

Paris claims German losses as assaults on the Meuse heights on the western front as severe.

BRITAIN RAISES THE BOODLE

The new war credit of \$750,000,000 was introduced today in the House of Commons. The grand total now is \$5,060,000,000.

RUSSIANS HAD TO RETREAT

Berlin, July 20.—The war office has reported the capture of Ostrotenka, sixty miles north of Warsaw. The Russians are retreating south.

SUNK RUSSIAN STEAMER

London, July 20.—The Russian steamer General Radetsky was torpedoed and sunk July 17th. The crew was saved.

WILL PROBABLY HAVE TO GIVE
UP WARSAW

London, July 20.—With the German field marshal Von Hindenburg, on the north and General von Mackensen on the south, whipping forward the two ends of the great arc around Warsaw, it is realized here that Grand Duke Nicholas has the most severe task imposed on him since the outbreak of the war in defending the Polish capital.

Some military writers think it will be impossible for the Russian duke to hold the city and newspapers in London are already discounting for the fall of Warsaw, saying the Russian army has been under a great difficulty on account of this salient since the Russian army has been unable to straighten out their line by advances either in east Prussia or in Galicia.

This German move, which is a colossal one, developed with marvelous suddenness.

While comparative calm prevails along the western front, the French report that considerable losses were inflicted on the Germans, when the French repulsed their strong attacks on the heights of Meuse. A violent cannonade near Souchez, the bombardment of Arras and fighting with bombs and petards in the Arzonne region constitutes virtually all the fighting that has taken place.

Berlin newspapers reaching here, publish what purports to be the details of negotiations in 1912, looking to an Anglo-German peace pact and claiming that Great Britain finally refused to enter into it.

AUTOMOBILES ON CREDIT

Go to your dealer, ask for a 25c. original bottle Dr. Hall's Pine-Tar-Honey, start using at once and get rid of your cough and cold. Adv. 2

STANDARD OIL
MEN STRUCKWORKMEN DEMAND 11 TO 15
PERCENT RAISE IN WAGES

(Associated Press)

New York, July 25.—Virtually every workman in the Standard Oil company's Constable Rock plant, at Bayonne, went on a strike today. About 5,000 men are out. The men at the Tidewater plant are restless, and the strikers claim they will join them soon. This stops the present sending of case and barrel oils to Europe. Some of the strikers demand 11% to 15% wage increases. There are no demands from others.

HIS MACHINE MAY
BETRAY HIMAUTHOR OF THE PEARCE LET-
TER MAY SOON BE
IDENTIFIED

(Associated Press)

New York, July 20.—Photographic copies of the letter received by the Brooklyn Eagle yesterday furnish a blue which may lead to the identification of the writer of the "Pearce" letters at New Orleans, according to William J. Flynn, chief of the United States Secret Service. The letter was written on a typewriter which drops the letter "r" slightly. Pearce wrote the Eagle a warning to Americans to keep clear of British vessels sailing from New York and several other ports.

OCALA JUNIORS WON AGAIN

Saturday afternoon at the local diamond the juniors defeated the Oak team in a double header, the first by 19 to 2 and the second by 10 to 2. After the first game was over several of the Oak boys had to return home early so the visitors substituted Jack Galloway for pitcher and Clarence Dinkins for the catcher. Glynn and Scarborough pitched the first game for the visitors. Dye and Jones and Blalock and Jones were the respective batteries for the locals. In the second game the featuring play was a running catch of a fly by Butler, playing right field for Ocala.

First Game

R H E
Oak . . . 2000000000—2 1 17
Ocala . . . 40162411—19 11 3

Second Game

R H E
Oak . . . 000200000—2 4 13
Ocala . . . 000010027—10 4 5

Summary, First Game: Sacrifice hits, Leavengood, Blalock; struck out by Glynn 1, Scarborough 4, Dye 11; passed ball, Carpenter; base on balls off Glynn 3; hit by pitcher, Carpenter, Blalock.

Second Game: Sacrifice hit, Butler; two base hit, Blalock; struck out by Galloway 7, by Blalock 5; wild pitch, Galloway; base on balls off Galloway 2, Blalock 1; passed ball, Dinkins; hit by pitcher, Glynn, Scarborough 2.

A Good Household Saver

Ordinary ailments and injuries are not of themselves serious, but infection or low vitality may make them dangerous. Don't neglect a cut, sore, bruise or hurt because its small. Blood poison has resulted from a pin-prick or scratch. For all such ailments Bucklen's Arnica Salve is excellent. It protects and heals the hurt; is antiseptic, kills infection and prevents dangerous complications. Good for all skin blemishes, pimples, salt rheum, eczema. Get an original 2-ounce 25c. box from your druggist. Adv. 2
