The Woman's Club, through Mrs. W. K. Zewadski, president, has petitioned council to have sidewalks laid on Tusculwilla street, between Oklawaha avenue and Adams street, calling attention to the fact that the present condition of the walks is dangerous, especially on a dark night.

Well, well, we expect the young ladies at the telephone exchange are tired and thirsty by now, and the entire force, two or a dozen, may call at Dewey's Merchants' Cafe and refresh themselves with delicious bottled coca-cola at the expense of this company.

Forethought People are learning that a little forethought often saves them a big expense. Here is an instance: E. W. Archer, Caldwell, Ohio, writes: "I do not believe that our family has been without Chamberlain's Colic, Cholera and Diarrhoea Remedy since we commenced keeping house years ago."

PLEASES SPENCER

To See How Well Marion County is Holding Up Its End in Co-Operative Farm Demonstration Work

A. P. Spencer, of Gainesville, district agent of co-operative farm demonstration work, is in Ocala today in the interest of his work.

For the demonstration work the United States government agrees to give to each county \$600, with the understanding that the county bears its share of the expense.

Mr. Spencer referred to the fact that R. W. Blacklock, the demonstration agent in this county, had provided himself with a Ford car for the purpose of covering the county more effectively.

"Mr. Blacklock is devoting most of his energy to the promotion of the live stock interests," Mr. Spencer said. "He met recently with the bankers of the county and has their support in promoting a boy's pig club, and he expects to have a good showing at the fair."

"In handling these live stock problems," said Mr. Spencer, "the county agents do not work altogether on their own initiative or information. Recently Dr. A. H. Logan, expert for the control of hog cholera, made a pretty fair canvass of this county with the county agent. Dipping vats and similar things are being taken care of over the state by specialists, who work with the county agents."

MEFFERT INTRODUCED A NEEDED MEASURE

New Plumbing Ordinance Specially Designed for the Sewerage System

The new plumbing ordinance, which the judiciary committee has been working on, was introduced into council last night by Councilman Meffert. The measure, designed to cover the new sewerage especially, was referred back to the judiciary committee for further consideration.

The plumbers of the city, through H. W. Tucker, have asked to be heard by the judiciary committee on some of the points covered, or left out, of the ordinance, and Councilman Meffert, chairman of the committee has said that the plumbers would be gladly heard from.

No tapping of the new sewer mains, for the purpose of making house connections will be permitted until a sewerage inspector is provided.

City Marshal Carter called the attention of council last night to the bad condition of the city pound. Steps will be taken to have the necessary repairs made. NOTICE TO MEMBERS OF THE COMMERCIAL CLUB

The secretary of the Commercial Club will appreciate it if members will call at his office (the John Dozier Co.) and get their membership cards renewed, as all cards expire June 15.

The shade trees on a number of streets need trimming up. There is danger of dead limbs falling during the windy days. One fell across a buggy occupied by a colored woman several days ago, and only missed her by a few inches. Had it struck her it would probably have killed her. We would respectfully call the attention of the street committee of the city council to this matter.

Mr. Robert Moorhead of this city, who is sergeant major on the staff of Col. A. H. Blanding, second regiment, has joined his command at Gainesville and will proceed to Jacksonville from that point.
